Mixing cards tip

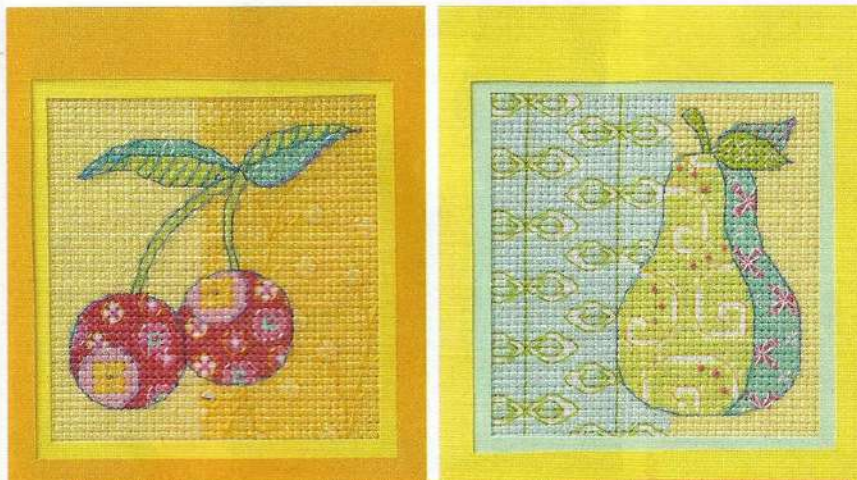

If you can't decide between two colours of cards or if you want an original effect, then you can use two cards. Choose which card you want on the outside and cut the aperture 1/4in (6mm) bigger all the way round using a craft knife. Now cut off the two outer sections of the other card leaving just the centre section with the aperture and trim this to 1/2in (1.5cm) bigger than the aperture all round. Stick the inner card centrally behind the outer card using double-sided tape, then mount your stitching in the card in the usual way.

Next issue...

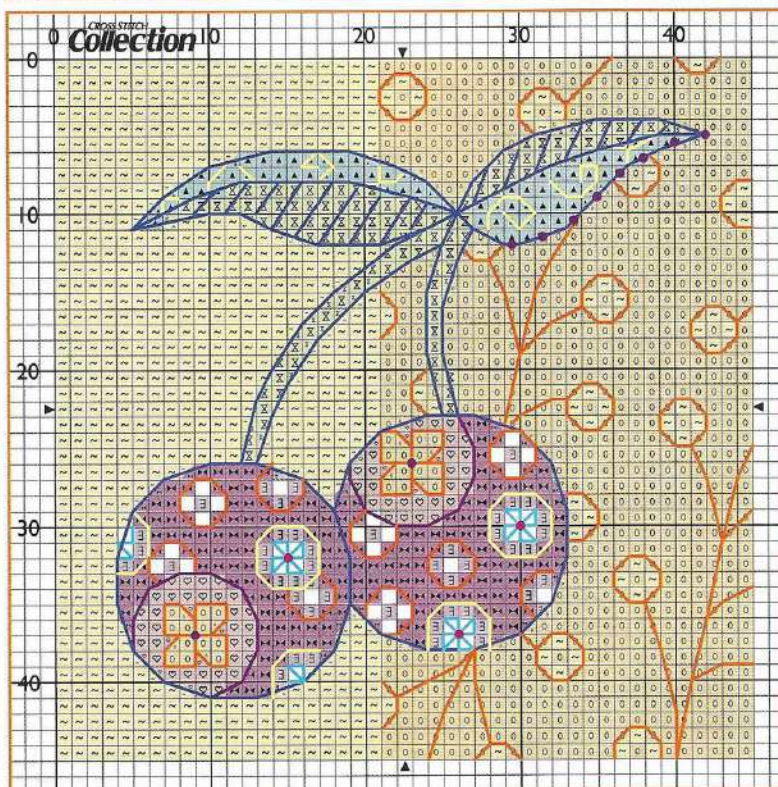

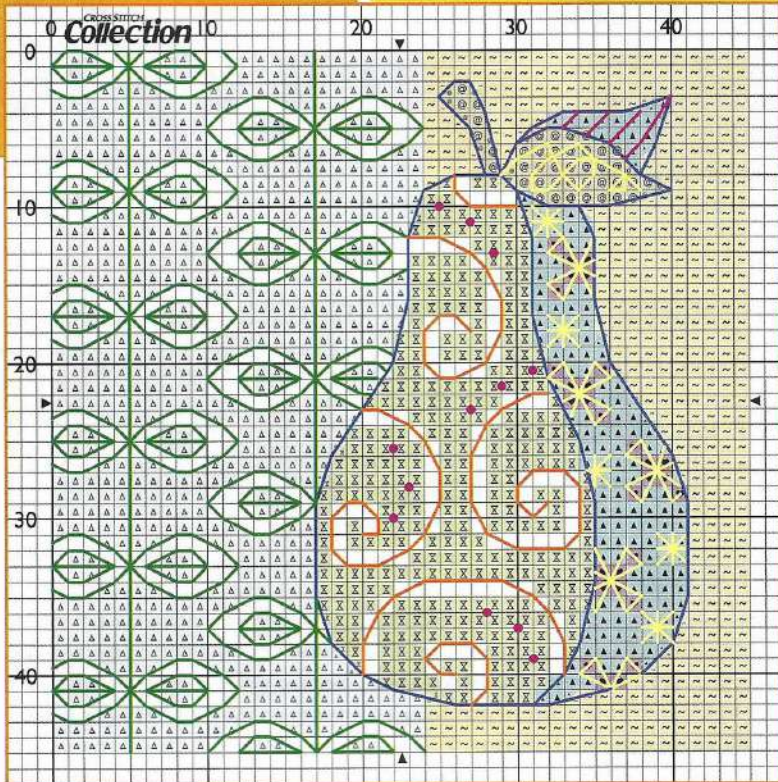

Stained glass Christmas cards by Lesley Teare. October issue (175), on sale from Tuesday 1 September.

Fresh fruit designs like these have terrific appeal and they are so full of zing! For a different take on this pear design, turn to page 56 and see it worked in blackwork with a striking result
