This Manual
Represents Only The
Tiniest Sample Of
The Facts We Have
On Thousands Of
Candidates At:

VOTESMART.ORG

Small but powerful

This little book may seem a small weapon in the fight for democracy. It's neither sharp like a sword nor strong like a shield. Yet, it contains just a sliver of factual information sharp enough and strong enough to make any foe of democracy cower in fear.

If facts are partnered with persuasive words, self-government stands a chance. Ignorance is banished. Cheaters are shamed. The good of the many stands a chance. Such a simple book in the hands of the public is one small, but powerful advantage over the liars, manipulators, and cheats who seek to disempower you. More tools, more facts, more fellow Americans are on your side through Vote Smart. This book needs every brave American we can find.

Because you believe in the power of the Voter's Self-Defense Manual, our young staff and interns get up every day and do the hard work, most of it invisible to us, to make sure facts still matter. Their work unrings our democracy. Their work created the pages in your hands today.

The next step is up to you. Use these facts. Be the defender of democracy that our ancestors dreamt you would be. Vote. Donate. Write. Call. Teach. Listen. Learn. Act. Facts may depend on books like this, but democracy depends on people like you.

Finally, please consider giving your support in a donation or by joining our ambassador program. We need you now more than ever.

Your help matters. This book matters. Facts matter.

Kyle Dell, President

United States Senate

This section provides office information, contact information, key votes, interest group ratings, and campaign contributions for each of the 100 U.S. senators. Also included is a measure of each official's willingness to provide their issue positions through Vote Smart's Political Courage Test. The senators are listed in alphabetical order by state abbreviation (e.g. CA for California). A * after a senator's name indicates their seat is up for election this year.

Office Information

Next to each senator's name is their party affiliation. Abbreviations for party affiliations are: Democratic (D), Independent (I), and Republican (R). Underneath each senator's name is whether the senator holds the Junior or Senior seat in that state.

Contact Information

The contact information listed includes: 1) Washington, DC, office phone number, 2) a webmail address, and 3) social media information. A webmail form allows you to contact a senator via their website. To access the webmail form, enter the provided address into a web browser.

You can also write to a senator at this general address:

Office of Senator [Full Name]
United States Senate
Washington, DC 20510

Additional contact information for senators can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Political Courage Test

The Political Courage Test asks candidates one central question: "Are you willing to honorably tell citizens where you stand on the issues you may face if elected by clearly answering questions of importance to voters?" Each election, Vote Smart organizes an effort to write, call, and repeatedly encourage each candidate to provide this essential information.

senators with "Has Political Courage" listed after their seat were willing to provide citizens with their issue positions on the Political Courage Test at the time of their last election.

The Political Courage Test results from each senator's most recent test are included in this manual with the exception of some 2022 results, which are still being collected. If a candidate fails to demonstrate political courage on key issue questions, Vote Smart will determine the candidate's likely positions from their public statements, legislative record, and interest group ratings.

Comprehensive results for all candidates for congressional, gubernatorial, and state legislative offices can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Key Votes

Vote Smart provides easy access to the voting records of U.S. Senators and maintains a collection of key votes grouped by issue. Key votes typically include the initial passage of legislation, controversial amendments, and the final conference report votes. The following criteria are used to select key votes:

- The vote should be helpful in portraying how a Senator stands on a particular issue
- The vote was passed or defeated by a very close margin
- The vote has received national media attention
- The vote should be clear for any person to understand
- A specific bill is consistently inquired about on the Voter's Research Hotline

Key vote summaries are written by Vote Smart staff and interns and go through an approval process with political scientists of various viewpoints reviewing both the selection and the content. This is to ensure clarity, relevance, non-partisanship, and accuracy.

Below are the descriptions of the 14 U.S. Senate key votes included in this publication. The votes are numbered according to the tables and keys located on the Senators' information pages. For each vote, the central issue of the bill is explained, but many bills encompass more than one issue. For additional details, visit our website at VoteSmart.org or call our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762). A reference key is provided on the top of each information page.

Interest Group Ratings

Vote Smart collects performance evaluations from special interest groups, regardless of the issue or bias of the organization. Most ratings reflect how often members of Congress have voted with the organization's preferred position on legislation that the group considers key in their area. Some organizations may also consider other actions such as committee votes, bill sponsorship, or answers to a questionnaire in their ratings. Additionally, some groups may select votes that tend to favor members of one political party over another, rather than choosing votes based solely on issue-related concerns.

Special interest group ratings can be used to find out how your elected officials were ranked by those groups. If your concerns do not align with those of any particular special interest group, ratings can still be useful by helping indicate where an incumbent has stood on a particular set of issues in the past few years.

For consistency, Vote Smart has converted all ratings to percentages for this publication. If a rating was not available for a senator, "NA" is listed in place of a rating.

Listed below is a sampling of interest group ratings selected from the more than 1,800 groups in Vote Smart's database. The years listed in parentheses after the name of the group indicate which year or years of actions the organization considered when producing the rating. Lifetime ratings indicate an official's rating over the span of a career. The ratings are numbered according to the tables and keys located on the senator's information pages.

United States House of Representatives

This section provides office information, contact information, key votes, interest group ratings, and campaign contributions for each U.S. representative. Also included is a measure of each official's willingness to provide their issue positions through Vote Smart's Political Courage Test. The representatives are listed in alphabetical order by state abbreviation (e.g. CA for California).

Office Information

Next to each representative's name is their party affiliation. Abbreviations for party affiliations are: Democratic (D) and Republican (R). Underneath each representative's name is the representative's district.

Contact Information

The contact information listed includes: 1) Washington, DC, office phone number, 2) a webmail address, and 3) social media information. A webmail form allows you to contact a representative via their website. To access the webmail form, enter the provided address into a web browser.

You can also write to a representative at this general address:

Office of Representative [Full Name]
United States House of Representatives
Washington, DC 20515

Additional contact information for representatives can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Political Courage Test

The Political Courage Test asks candidates one central question: "Are you willing to honorably tell citizens where you stand on the issues you may face if elected by clearly answering questions of importance to voters?" Each election, Vote Smart organizes an effort to write, call, and repeatedly encourage each candidate to provide this essential information.

Representatives with "Has Political Courage" listed after their seat were willing to provide citizens with their issue positions on the Political Courage Test at the time of their last election.

The Political Courage Test results from each representative's most recent test are included in this manual with the exception of some 2022 results, which are still being collected. If a candidate fails to demonstrate Political Courage on key issue questions, Vote Smart will determine the candidate's likely positions from their statements, legislative record, and interest group ratings.

Comprehensive results for all candidates for congressional, gubernatorial, and state legislative offices can be obtained through our website at VoteSmart.org or by calling our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762).

Key Votes

Vote Smart provides easy access to the voting records of U.S. representatives and maintains a collection of key votes grouped by issue. Key votes typically include the initial passage of legislation, controversial amendments, and the final conference report votes. Vote Smart uses the following criteria to select key votes:

- The vote should be helpful in portraying how a representative stands on a particular issue
- The vote was passed or defeated by a very close margin
- The vote has received national media attention
- The vote should be clear for any person to understand
- A specific bill is consistently inquired about on the Voter's Research Hotline

Key votes summaries are written by Vote Smart staff and go through an approval process with political scientists of various viewpoints reviewing both the selection and the content. This is to ensure clarity, relevance, non-partisanship, and accuracy.

Below are the descriptions of the 15 U.S. House of Representatives key votes included in this publication. The votes are numbered according to the tables and keys located on the representative's information pages. For each vote, the central issue of the bill is explained, but many bills encompass more than one issue.

For additional details, visit our website at VoteSmart.org or call our Voter's Research Hotline at 1-888-VoteSmart (1-888-868-3762). A reference key is provided on the top of each information page.

Interest Group Ratings

Vote Smart collects performance evaluations from special interest groups, regardless of the issue or bias of the organization. Most ratings reflect how often members of Congress have voted with the organization's preferred position on legislation that the group considers key in their area. Some organizations may also consider other actions such as committee votes, bill sponsorship, or answers to a questionnaire in their ratings. Additionally, some groups may select votes that tend to favor members of one political party over another, rather than choosing votes based solely on issue-related concerns.

Special interest group ratings can be used to find out how your elected officials were ranked by those groups. If your concerns do not align with those of any particular special interest group, ratings can still be useful by helping indicate where an incumbent has stood on a particular set of issues in the past few years.

For consistency, Vote Smart has converted all ratings to percentages for this publication. If a rating was not available for a representative, "NA" is listed in place of a rating.

Listed below is a sampling of interest group ratings selected from the more than 1,800 groups in Vote Smart's database. The years listed in parentheses after the name of the group indicate what year or years of actions the organization considered when producing the rating. Lifetime ratings indicate an official's rating over the span of a career. The ratings are numbered according to the tables and keys located on the representative's information pages.
