A vacancy on the joint committee shall be filled in the same manner as original appointments and shall not affect the power of the remaining members to execute the functions incumbent on the joint committee.

SEC. 2. It shall be the duty of the joint committee to make a full and complete investigation of the administration of the Tennessee Valley Authority Act of 1933, as amended, including the following, but not excluding any other matters pertaining to the administration and policies:

(a) The efficient and economical administration of the Act as amended by the Board of Directors of the Tennessee Valley Authority and any of its subordinates.

(a) (2) The total Federal sums appropriated by the Congress or allocated by the President to the Muscle Shoals project and the Tennessee Valley Authority, and also allocations made to power, navigation, flood control or otherwise, and the cost charged to power recoverable to the Treasury of the United States.

(b) Any interference or handicaps placed in the way of the prompt, efficient, and economical administration of its functions by internal dissension among members of the Board of Directors of the Tennessee Valley Authority and what effect such dissension, if any, has had upon the work of the Authority.

(c) Whether any member of said Board has held office or is holding office in violation of the Act creating the Tennessee Valley Authority; and whether any member of said Board has aided or assisted directly or indirectly any private power company or other private interest in the institution or defense of suits and injunctions affecting the administration of the functions of the Tennessee Valley Authority.

(d) Whether, and if so what, suits have been instigated by any private power company or other private interest seeking injunctions against the activities of the Board; and what effect, if any, such injunctions or suits have had upon the administration of the Act according to its terms; what disposition has been made of any such injunction suits and what has been the expense incurred by the Tennessee Valley Authority in defending them; what disposition has been made of such suits in any superior court to which they have been appealed; and what if any has been the loss of revenue to the Authority on account of such suits.

(e) Whether any financial loss has been caused to municipalities or farm organizations by preventing their purchase of electric power from the Tennessee Valley Authority.

(f) What has been the effect, if any, upon the personnel and organization perfected by the Board under said Act by the prosecution of such injunction suits or by the action of any member of the Board in giving aid or assistance to any private power company or other private interest in connection therewith.

(g) What activities there have been, if any, on the part of any private power company or other private interest in attempting by the expenditure of money or otherwise, the institution of legal pro-

ceedings or other means or methods to affect the action or decisions of municipalities or farm organizations in the Tennessee Valley Authority with respect to the purchase of electric power from the Authority.

(h) What efforts, if any, have been made by private power companies or other private interests to affect the decisions or actions of municipalities or farm organizations with respect to the purchase of power from the Authority or acquiring title to their distributing systems.

(i) Whether and to what extent, if any, have the public interests been injured or jeopardized by the activities of any private power companies or other private interests in attempting to prevent the Board from executing the provisions of said Act.

Morgan that an attempt to defraud the Government of the United States has been made in connection with purchase of certain lands are true; whether the affairs of the Authority had been conducted in a clandestine manner frequently without the knowledge or presence of the Chairman; whether by action of the majority members the Chairman has not had opportunity to present his views before congressional committees.

(l) Whether the Tennessee Valley Authority has exhibited partiality to large corporations by supplying power at a cheaper rate than available to municipalities and corporations, by contracting for long periods of time a large majority of available hydroelectric power and by including in such industrial contracts provisions tantamount to a secret rebate in that delivery of "secondary" power is provided during the season of the year when only "firm" power is available from Tennessee Valley Authority dams.

(m) Whether the Authority has complied with that part of section 14 of the Tennessee Valley Authority Act, as amended, which requires (a) that the Tennessee Valley Authority should have submitted to Congress on January 1, 1937, its allocation of costs to the various activities under its control up to that time, and (b) that the Tennessee Valley Authority submit in each annual report thereafter its similar allocation of costs for the period covered in its report.

(n) Whether the Authority has interfered with the Comptroller General's audits of the Authority required to be submitted annually to Congress under section 14 of the Act as amended.

(o) Whether it has offered unfair inducements to industrial organizations to leave their established locations to settle within the Tennessee Valley Authority territory.

(p) Whether it has forced rural customers to purchase expensive, unnecessary, and undesired electrical appliances under threat of refusing to supply electricity, and actually to have permitted potential customers to make heavy investments in appliances after which service was refused until further purchases were made of unnecessary and undesired electrical appliances.

(q) Whether by accounting methods and cost charges applicable to private industry, the electric rates of the Authority provide a legitimate, honest "yardstick" of equitable rates of private industry.
