

## § 270.2

(7) Identification of any amendments required by paragraph (f) of this section.

(d) *Signature.* The Notice shall include the signature of the appropriate officer or representative of the Service that is either transmitting the sound recordings or making ephemeral phonorecords of sound recordings under statutory license or doing both. The signature shall be accompanied by the printed or typewritten name and the title of the person signing the Notice and by the date of the signature.

(e) *Filing notices; fees.* The original and three copies shall be filed with the Licensing Division of the Copyright Office and shall be accompanied by the filing fee set forth in § 201.3(c) of this chapter. Notices shall be placed in the public records of the Licensing Division. The address of the Licensing Division is: Library of Congress, Copyright Office, Licensing Division, 101 Independence Avenue, SE, Washington, DC 20557-6400.

(1) A Service that, prior to April 12, 2004, has already commenced making digital transmissions of sound recordings pursuant to section 114(d)(2) of title 17 of the United States Code or making ephemeral phonorecords of sound recordings pursuant to section 112(e) of title 17 of the United States Code, or both, and that has already filed an Initial Notice of Digital Transmission of Sound Recordings Under Statutory License, and that intends to continue to make digital transmissions or ephemeral phonorecords following July 1, 2004, shall file a Notice of Use of Sound Recordings under Statutory License with the Licensing Division of the Copyright Office no later than July 1, 2004.

(2) A Service that, on or after July 1, 2004, commences making digital transmissions and ephemeral phonorecords of sound recordings under statutory license shall file a Notice of Use of Sound Recordings under Statutory License with the Licensing Division of the Copyright Office prior to the making of the first ephemeral phonorecord of the sound recording and prior to the first digital transmission of the sound recording.

(3) A Service that, on or after July 1, 2004, commences making only ephemeral

### § 270.2 Reports of use of sound recordings under statutory license for pre-existing subscription services.

(a) *General.* This section prescribes rules under which preexisting subscription services shall serve copyright owners with notice of use of their sound recordings, what the content of that notice should be, and under which records of such use shall be kept and made available.

(b) *Definitions.* (1) A *Collective* is a collection and distribution organization that is designated under the statutory license, either by settlement agreement reached under section 114(f)(1)(A) or section 114(f)(1)(C)(i) of title 17 of the United States Code and adopted pursuant to 37 CFR 251.63(b), or by decision of a Copyright Arbitration Royalty Panel (CARP) under section 114(f)(1)(B) or section 114(f)(1)(C)(ii), or by an order of the Librarian pursuant to 17 U.S.C. 802(f).

(2) A *Report of Use of Sound Recordings Under Statutory License* is the report of use required under this section to be provided by a Service transmitting sound recordings and making ephemeral phonorecords therewith under statutory licenses.

(3) A *Service* is a preexisting subscription service, as defined in 17 U.S.C. 114(j)(11).

(c) *Service.* Reports of Use shall be served upon Collectives that are identified in the records of the Licensing Division of the Copyright Office as having

been designated under the statutory license, either by settlement agreement reached under section 114(f)(1)(A) or section 114(f)(1)(C)(i) and adopted pursuant to 37 CFR 251.63(b), or by decision of a Copyright Arbitration Royalty Panel (CARP) under section 114(f)(1)(B) or section 114(f)(1)(C)(ii), or by an order of the Librarian pursuant to 17 U.S.C. 802(f) or pursuant to a settlement agreement reached or statutory license adopted pursuant to section 112(e). Reports of Use shall be served, by certified or registered mail, or by other means if agreed upon by the respective preexisting subscription service and Collective, on or before the forty-fifth day after the close of each month.

(d) *Posting.* In the event that no Collective is designated under the statutory license, or if all designated Collectives have terminated collection and distribution operations, a preexisting subscription service transmitting sound recordings under statutory license shall post and make available online its Reports of Use. Preexisting subscription services shall post their Reports of Use online on or before the forty-fifth day after the close of each month, and make them available to all sound recording copyright owners for a period of 90 days. Preexisting subscription services may require use of passwords for access to posted Reports of Use, but must make passwords available in a timely manner and free of charge or other restrictions. Preexisting subscription services may predicate provision of a password upon:

(1) Information relating to identity, location and status as a sound recording copyright owner; and

(2) A “click-wrap” agreement not to use information in the Report of Use for purposes other than royalty collection, royalty distribution, and determining compliance with statutory license requirements, without the express consent of the preexisting subscription service providing the Report of Use.

(e) *Content.* A “Report of Use of Sound Recordings under Statutory License” shall be identified as such by prominent caption or heading, and shall include a preexisting subscription service’s “Intended Playlists” for each channel and each day of the reported

month. The “Intended Playlists” shall include a consecutive listing of every recording scheduled to be transmitted, and shall contain the following information in the following order:

(1) The name of the preexisting subscription service or entity;

(2) The channel;

(3) The sound recording title;

(4) The featured recording artist, group, or orchestra;

(5) The retail album title (or, in the case of compilation albums created for commercial purposes, the name of the retail album identified by the preexisting subscription service for purchase of the sound recording);

(6) The marketing label of the commercially available album or other product on which the sound recording is found;

(7) The catalog number;

(8) The International Standard Recording Code (ISRC) embedded in the sound recording, where available and feasible;

(9) Where available, the copyright owner information provided in the copyright notice on the retail album or other product (e.g., following the symbol (P), that is the letter P in a circle) or, in the case of compilation albums created for commercial purposes, in the copyright notice for the individual sound recording;

(10) The date of transmission; and

(11) The time of transmission.

(f) *Signature.* Reports of Use shall include a signed statement by the appropriate officer or representative of the preexisting subscription service attesting, under penalty of perjury, that the information contained in the Report is believed to be accurate and is maintained by the preexisting subscription service in its ordinary course of business. The signature shall be accompanied by the printed or typewritten name and title of the person signing the Report, and by the date of signature.

(g) *Format.* Reports of Use should be provided on a standard machine-readable medium, such as diskette, optical disc, or magneto-optical disc, and should conform as closely as possible to the following specifications:

### § 270.3

(1) ASCII delimited format, using pipe characters as delimiter, with no headers or footers;

(2) Carats should surround strings;

(3) No carats should surround dates and numbers;

(4) Dates should be indicated by: MM/DD/YYYY;

(5) Times should be based on a 24-hour clock: HH:MM:SS;

(6) A carriage return should be at the end of each line; and

(7) All data for one record should be on a single line.

(h) *Confidentiality*. Copyright owners, their agents and Collectives shall not disseminate information in the Reports of Use to any persons not entitled to it, nor utilize the information for purposes other than royalty collection and distribution, and determining compliance with statutory license requirements, without express consent of the preexisting subscription service providing the Report of Use.

(i) *Documentation*. All compulsory licenses shall, for a period of at least three years from the date of service or posting of the Report of Use, keep and retain a copy of the Report of Use. For reporting periods from February 1, 1996, through August 31, 1998, the preexisting subscription service shall serve upon all designated Collectives and retain for a period of three years from the date of transmission records of use indicating which sound recordings were performed and the number of times each recording was performed, but is not required to produce full Reports of Use or Intended Playlists for those periods.

### **§ 270.3 Reports of use of sound recordings under statutory license for nonsubscription transmission services, preexisting satellite digital audio radio services, new subscription services and business establishment services.**

(a) *General*. This section prescribes rules under which nonsubscription transmission services, preexisting satellite digital audio radio services, new subscription services, and business establishment services shall maintain reports of use of their sound recordings

under section 112(e) or section 114(d)(2) of title 17 of the United States Code, or both.

(b) *Definitions*. (1) *Aggregate Tuning Hours* are the total hours of programming that a nonsubscription transmission service, preexisting satellite digital audio radio service, new subscription service or business establishment service has transmitted during the reporting period identified in paragraph (c)(3) of this section to all listeners within the United States over the relevant channels or stations, and from any archived programs, that provide audio programming consisting, in whole or in part, of eligible nonsubscription service, preexisting satellite digital audio radio service, new subscription service or business establishment service transmissions, less the actual running time of any sound recordings for which the service has obtained direct licenses apart from 17 U.S.C. 114(d)(2) or which do not require a license under United States copyright law. For example, if a nonsubscription transmission service transmitted one hour of programming to 10 simultaneous listeners, the nonsubscription transmission service's Aggregate Tuning Hours would equal 10. If 3 minutes of that hour consisted of transmission of a directly licensed recording, the nonsubscription transmission service's Aggregate Tuning Hours would equal 9 hours and 30 minutes. If one listener listened to the transmission of a nonsubscription transmission service for 10 hours (and none of the recordings transmitted during that time was directly licensed), the nonsubscription transmission service's Aggregate Tuning Hours would equal 10.

(2) An *AM/FM Webcast* is a transmission made by an entity that transmits an AM/FM broadcast signal over a digital communications network such as the Internet, regardless of whether the transmission is made by the broadcaster that originates the AM/FM signal or by a third party, provided that such transmission meets the applicable requirements of the statutory license set forth in 17 U.S.C. 114(d)(2).
