24. Donald Trump's campaign promises - effect on California: Federally-funded vouchers for low-income students *California residents, registered voters*

Below is a list of some of the things Donald Trump promised to do if he was elected president. Thinking about the effect that each of these could have **on California**, do you think that California would be better off or worse off if the United States…Used money from the federal government to help low-income children to attend charter or private schools

25. Donald Trump's campaign promise to deport illegal immigrants - effect on California *California residents, registered voters*

During the presidential campaign, Donald Trump proposed deporting all illegal immigrants who are living in the United States. Under Trump's proposal, illegal immigrants who have been convicted of other crimes would be permanently barred from the United States but other illegal immigrants would be allowed to re-enter the country legally to live and work.

Thinking about the effect that this could have **on California**, do you think that California would be better off or worse off if this deportation plan took place?

26. Sanctuary Cities - support or oppose, without mentioning Trump's position *California residents, 1/2 split sample, registered voters*

Some cities in the United States, including in California, act as what have been called "sanctuary cities" for immigrants who are in the U.S. illegally. That means that when local police or city government employees learn that someone is in the country illegally, they do not automatically turn over that person to federal immigration enforcement officers for possible deportation back to that person's home country.

Supporters of "sanctuary cities" include many big city mayors and police chiefs. They say that this improves public safety because it encourages people in immigrant communities to work with police to help arrest dangerous criminals without fear of being deported themselves.

Opponents of "sanctuary cities" say that this practice is a violation of federal law and allows some dangerous criminals who are in the country illegally to continue to commit violent crimes.

Thinking about your own view, do you support or oppose having "sanctuary cities" in the United States?

29. Sanctuary Cities - deny federal funding, with specific programs named *California residents, 1/2 split sample, registered voters*

Thinking more about "sanctuary cities"…Some opponents of "sanctuary cities" have suggested that the federal government should try to stop the practice by denying federal funding to cities that do not turn over all illegal immigrants to federal immigration enforcement officers. Federal funds that might be denied could include money for:

• homeland security intelligence and counterterrorism
• low-income housing
• free and reduced price school lunch
• Child Protective Services
• HIV/AIDS education and prevention

Do you support or oppose denying federal funding to "sanctuary cities"?

30. Calexit support - without using the term "secession" *California residents, 1/2 split sample, registered voters*

An initiative might appear on the November 2018 election ballot calling for a special election to decide if California should declare independence from the United States. If that special election were held today, would you vote FOR or AGAINST California declaring its independence to become its own country?

I would vote…

31. Calexit support - using the term "secession" *California residents, 1/2 split sample, registered voters*

An initiative might appear on the November 2018 election ballot calling for a special election to decide if California should declare independence from the United States. If that special election were held today, would you vote FOR or AGAINST secession of California from the rest of the United States?

I would vote…

Hoover Institution Golden State Poll

Fieldwork by YouGov
January 5-9, 2017

Sponsorship	The Hoover Institution & The Bill Lane Center for the American West, Stanford University
Fieldwork	YouGov
Interviewing dates	January 5-9, 2017
Target population	California residents, aged 18 and over
Sampling method	Respondents were selected from YouGov's opt-in Internet panel using sample matching. The sample was matched on gender, age, race, education, party identification, ideology, and political interest to a frame constructed by stratified sampling from the 2010 American Community Survey (ACS). Data on voter registration status and turnout were matched to this frame using the November 2010 Current Population Survey. Data on interest in politics and party identification were then matched to this frame from the 2007 Pew Religious Life Survey.
Weighting	The sample was weighted using propensity scores based on age, gender, race/ethnicity, years of education, and ideology. The weights range from 0 to 7.050, with a mean of one and a standard deviation of 1.026.
Number of respondents	1700
Margin of error	+/- 3.82% for the full weighted sample
Survey mode	Web-based interviews
Questions not reported	All questions reported
