The main tasks of the project and conferences are:

1) the unification of scientists, experts and practitioners engaged in research and practical regulation of migration in Eurasian countries;

2) expert evaluation and implementation of effective approaches and practices in migration management in the migration policy of Russia and partner countries;

3) development of an international research network of experts in the field of migration research;

4) activation of research activities of young scientists in the field of migration at the international level;

5) the formation of a positive image of Russia as a country regulating migration on the basis of national legislation and interstate agreements.

The main issues to be discussed at the forum:

1. Modern migration trends in the Eurasian space.

2. Factors of international migration in Eurasia (socio-economic, geopolitical, demographic, natural-climatic, etc.)

3. The contribution of migration to the socio-economic and demographic development of the countries of Eurasia.

4. New approaches to managing migration in Eurasia using forecasting and modeling methods.

5. Migration policy of the sending and receiving countries of Eurasia and other regions of the world in new conditions.
