

Lessard-Sams Outdoor Heritage Council

MEMO: Agenda Item #14

DATE: June 23, 2015

SUBJECT: Presentation on prairie restoration practices

PRESENTER: Dr. Greg Hoch, DNR Prairie Habitat Team Supervisor

Background:

Dr. Greg Hoch, DNR's Prairie Habitat Team Supervisor, and an expert in prairie ecology, will provide an overview of current prairie restoration practices employed and recommended by DNR that are currently utilized. This will include farming methods and techniques employed. The presentation will examine the relative advantages and applicability of various prairie restoration methods as well as provide an update of issues DNR is working on.
