

LEGISLATIVE JOURNAL

EIGHTIETH SESSION

FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 7, 1969

Pursuant to the provisions of Section 10, Article III of the Constitution of Nebraska, the Eightieth Session of the Legislature of Nebraska assembled in Legislative Hall of the Capitol Building at the hour of 12:00 o'clock (noon) on Tuesday, January 7, 1969, and was called to order by Mr. John E. Everroad, Lieutenant Governor.

Prayer was offered by Dr. Robert Palmer.

Prayer

Eternal God, giver of all life, as we begin this new session together create anew within us the desire to live life to its fullest potential. But in endeavoring to find our maximum fulfillment, may we do it in relationship to others who are also desiring their completion.

May we not seek to have all the lights green in our travels so we are never impeded, as such desires would make red lights along our friend's highways, stopping their progress.

Give us the perspective that we are people who desire to live, and are in community with others who also desire to live.

May we learn the value of compromise and cooperation. May we stand for our rights as long as we do not make others stumble. Help us to find that delicate balance which makes for a full and equitable life for all.

In the name of our Lord. Amen.

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

God, our Father, we pray that Thou wouldst give us a quiet center so we may be able to face the noisy and boisterous outer demands; an equilibrium so that praise does not fill us with pride, or blame with frustration.

Guide our endeavor to see tasks from a total perspective and know where to give the right emphasis to the most needed areas.

May we adequately this day fulfill the demands which are upon us and with confidence venture into unknown areas ahead.

Amen.

The roll was called and all members were present except Messrs. Kremer, Skarda and Waldron, who were excused; and Mr. Klaver excused until 10:25 a.m.

Ease

The Legislature was at ease from 2:27 p.m. until 2:32 p.m.

The Committee escorted Governor Norbert T. Tiemann to the rostrum where he delivered the following address:

Mr. President, Mr. Speaker, Members of the Legislature, Ladies and Gentlemen:

To set the theme for this address, I would like to read one sentence from the first paragraph of my inaugural address to you delivered on January 5, 1967:

“This is the point of beginning of our second century of statehood and will be the benchmark from which we will measure our success in meeting the problems now confronting our state.”

Most certainly, the 1967 Legislature charted new paths of progress for Nebraska, and the responsibility of the 1969 Legislature will be to extend these paths.

Permit me to select somewhat arbitrarily for review, just a few of the accomplishments that represent these new paths.

(1) The Development of a Fair, Equitable, Broad-based, Low-rated Tax System.

For the first time in the state's history, all citizens are paying their fair share of state government expenses. Additionally, several inequitable taxes have been repealed to make taxation even more palatable. All of this was accomplished with open discussion. The Tax Law was tested through the entire court system and found both fair and constitutional. Opponents then put the question on the ballot, and the citizens of the state responded with an overwhelming vote of confidence. By a margin of 3-1 they said—“Yes, we want to keep this broad-based tax.” Our actions last session have been thoroughly vindicated. We have passed that milestone.

(2) The Initiation of Aid Programs by which State Government Assumed Some of the Financial Burden of Funding Local Government Operations.

This includes aid to cities and counties, aid to our elementary and secondary schools, and aid to our junior colleges. It has been generally recognized that our property taxes have far too long carried the burden of taxation in our state and that a broadened tax base must provide not only the method of financing state government but also give financial relief to political subdivisions. For the first time in the history of the state of Nebraska, aid to our

educational system will make it possible for our young people to obtain a higher quality education at all levels.

(3) The Expenditure of Larger Sums for Higher Education in Nebraska.

There has been a substantial upgrading of faculty salaries at the University of Nebraska and the state colleges. By this upgrading, we not only have retained key faculty and administrators but have also been able to attract talent from other institutions. We have begun to develop a broadened research capacity at the University, one which will be of ultimate benefit to our entire economy. The medical center has received strong financial backing from the state and has developed into one of the finest medical complexes in the country.

In accomplishing all of these things, state government has not interfered with the educational philosophy of our institutions of higher learning. **That has been left to the educators.**

(4) The Progress of the Code Departments.

Great strides have been made within the code departments of state government. Many examples could be cited, but permit me to select three:

(A) The Department of Administrative Services has come of age and now simply needs the financial support from this Legislature that it so richly deserves. For example, it needs additional staff in the budget division so that the Governor can carry out his constitutional duty to prepare an executive budget. The key to good fiscal control and administrative management lies in this department, but the support of this Legislature is desperately needed to obtain it.

(B) The Department of Economic Development, given independent agency status in 1967, has pioneered in several areas in the development of our economy. Community development, industrial development, agricultural research, and state planning are but a few programs presently underway and continuing to expand. Nebraska is now looked upon with favor by industry across this nation, due primarily to the promotion effort of this agency. You will note several industries have indicated their interest in plant locations and expansions in Nebraska, and the year 1969 will show an even greater number of plants being built in our state. Let me mention, with pride, that Nebraska is the only state in our nation that has negotiated directly with a company in a foreign country and entered into a contract that resulted not only in revenues flowing into our General Fund from that company but the utilization of surplus products produced in our state. The Suger Ester Program, about

which I have talked to you earlier, brings us royalties from a company in Japan and the utilization of some of our raw materials. This effort will continue in other countries, and more information will be supplied to you as the situation develops.

I cannot emphasize strongly enough the great need for planning—at all levels of our economy. At long last we have begun and organized a state planning program. Currently the state planning function is located within the Department of Economic Development. I feel that this is not the proper location for the function. We have completed the first stage of our planning and have now a blue print for planning that will help eliminate duplication and wasted effort. The planning office is operating with minimum funds at this stage, but let me emphasize the importance of planning, both for the Executive Branch and the Legislative Branch. Minimum budgeting for this effort is false economy. We should not participate in it, but rather should provide the resources necessary so that the embryo of state planning that we now have in existence can flourish.

(C) The Department of Public Institutions has developed expertise in the Division of Corrections and the Division of Medical Services. A joint effort by that department, and the Legislative Committee on Mental Health and Mental Retardation, and the Citizen's Committee on Mental Retardation has resulted in completed in-depth studies to show where we should go and how we should proceed to provide maximum services. It is my hope that their recommendations can be implemented as quickly as possible to relieve the anguish and suffering that too long has gone unheeded by those in responsible positions. The problems in the area of mental health and mental retardation have been identified, solutions have been proposed, and the responsibility for implementation of these proposals now rests with this body. I urge each and every one of you to take time from your busy schedules to tour all of our mental institutions, and I suggest you begin by accepting Senator Carstens' invitation to visit the Beatrice State Home. Only through a personal tour of these facilities can you begin to grasp the magnitude and the seriousness of the problems that I have myself observed. We have a personal responsibility to wrestle with the problems of mental health and mental retardation and not merely continue to simply be aware of their existence. God has provided us with the talent and resources. Is it not our responsibilities as public servants to relieve this suffering as quickly as possible?

(5) The Formation of Two Executive Commissions—The Governor's Commission on Management Efficiency and Administrative Cost Control and the Governor's Commission on Law Enforcement and Criminal Justice, Commonly Known as the Little Hoover Commission and the Crime Commission.

Over 400 recommendations were made by the Little Hoover Commission—some more sweeping than others. Many of the recommendations that do not require legislative action are being studied and administered or implemented. Many of the administrative recommendations are already underway and others will be implemented shortly. I have asked all agencies and departments reviewed by the Commission to make periodic progress reports to me every six weeks. Rest assured the recommendations of these businessmen will not be forgotten nor ignored—these recommendations are being put into effect right now. Agency heads have implemented 49 of the recommendations and 103 are in process. Those recommendations that require legislative action, over 100 in number, will be introduced to this Legislature for your consideration. I urge all of you to study the entire report. It has been made to you with the hope that you would study it. In my judgment, the service performed by the Little Hoover Commission has been invaluable and all Nebraskans are indebted to the individuals responsible for the financing of the study and for furnishing the talent and manpower necessary to complete this in-depth report.

The Crime Commission, through the able chairmanship of the Attorney General, has already submitted to the Federal Government its preliminary planning document. This plan has now been approved. Over the next six months the Commission will develop its comprehensive state plan on crime control. Its members represent rural areas, urban areas, local government, state government, small towns, large towns—people from all geographical points of the state. It has already developed a law enforcement officer's correspondence course, a treatment and correction bill, guidelines for local communities in applying for crime control funds, and a host of other accomplishments. Nebraska is moving rapidly toward a comprehensive attack on crime through the efforts of this Commission.

(6) The Presentation of an Opportunity to Move Forward in the Development of a Good Road Network in Nebraska.

The final accomplishment I would review for you today can be done by again quoting my address to you in 1967:

“As I have often stated, I favor the issuance of highway revenue bonds to finance a program for up-grading our state highway systems, and I recommend to the Legislature that a constitutional amendment be placed on the ballot at the next General Election which would permit the Legislature to authorize the issuance of revenue bonds for highway purposes. I am confident that if the people of Nebraska are given an oppor-

tunity to express themselves on this issue, they will approve a program for the construction of a modern highway system."

The voters of this state in November, 1968, approved issuance of revenue bonds for construction of highways, and we now have the tools available to resolve our long-standing road problems. We have had sufficient studies and enough has been written about the existence of the problem. It is now up to this body to take the strong leadership in constructing a good, well-planned road system, and I pledge to you the full co-operation of my office and the Department of Roads.

Now that we have the authority to obligate the state for highway construction, I must urge a note of caution before proceeding too quickly without sufficient planning. We must be absolutely positive of how any indebtedness should be serviced before that indebtedness is incurred. This will involve co-ordination between both the legislative and the executive branches. I am certain that this problem can be resolved, since it is obvious that both branches have the determination to proceed carefully yet quickly enough to begin the construction of good highways so our economy can be served.

All citizens of the state are proud of these past accomplishments. You and I should be too.

More needs to be done. I strongly feel that the following programs should receive your concerted attention during the session. These are examples of the programs that will move Nebraska forward during her second century of statehood.

1. **Open Housing Bill.** It is absolutely imperative that this body pass a fair and equitable open housing bill so that all citizens of this state have a right to obtain decent housing for themselves and for their children. I will submit such a proposal to this body, and I urgently recommend its quick passage. One hundred and two years is too long to ignore rights guaranteed under our Constitution. My open housing legislation proposal will insure the exercise of these rights to all of our citizens.

It may be said—and not without justification—that passage of a Federal Fair Housing Law, combined with a recent United States Supreme Court ruling, makes it almost mandatory Nebraska have its own open housing statute, one it alone may administer. There is a more compelling reason. We need an open-housing law because it is the right thing to do. Across the rotunda of this building, in the old Senate chamber, engraven on stone is a majestic injunction which applies to us all: equality before the law. That's what an open housing law is about—making our actions live up to

our pledges. Let us offer witness to our high and sacred commitments. There is some truth about the impossibility of legislating morality. Yet what we seek is legislation regulating anti-social conduct—conduct erosive to the human spirit.

2. **State Personnel System.** We must develop a strong personnel system in state government. This will be built on the provisions of LB-815 which was passed during the 1967 session. It is almost unthinkable that state government, as large as it is, can properly exist without a good personnel system. Nevertheless, we have proceeded under a piecemeal program much to our detriment, I fear. This session is the time to complete that which was started during the last legislative session. I hope action on this program can be taken before the session is far advanced.

3. **State Government Re-organization.** We must implement the recommendations of the Little Hoover Commission, including that recommendation which calls for a Statutory Commission to make recommendations to the Governor and the Legislature continuing the re-organization of state government.

4. **Omnibus Corrections Bill.** This bill, if passed, will be a landmark in this nation on treatment and correction of public offenders. Included will be re-organization of the Pardon and Parole Board as approved by the voters at the last election. I want to emphasize the importance of the passage of this measure. With its passage, Nebraska has an opportunity again to take the lead in the nation in the area of correction.

5. **Co-ordination of Higher Education.** The cost of higher education is continuing to rise with no end in sight. Duplication of effort and expense must be eliminated. Therefore, co-ordination of higher education must be accomplished during this session. Legislation to this end will be proposed, and I urge your consideration and passage of this much needed measure.

6. **Juvenile Delinquency Prevention and Control Act.** The creation of a commission pursuant to this act will be accomplished as soon as we can obtain information from the Federal Government concerning the guidelines which we will be expected to follow in creating such a commission. It is my hope that this commission and the commission on law enforcement and criminal justice will become statutory during this administration.

7. **Code of Ethics.** The Legislative Study Committee on Ethics will probably introduce a code to solve the problems in this important area. I pledge you my assistance in insuring the success of the recommendations made by that committee.

8. **Uniform Taxation of Motor Vehicles.** Motor vehicles should be taxed uniformly across the state, and I will urge that legislation creating such uniform taxation be passed. This legislation will provide more equitable taxation, a condition rightfully demanded by the taxpayer.

9. **Income Tax Rate Setting.** The State Board of Equalization and Assessment should be eliminated or at least reconstituted. Certainly, it should not be the body which sets the rate for the income tax in our state. I am convinced that the Legislature should be the direct rate-setting body rather than the indirect rate-setting body. I see no purpose served by having another bureaucratic step in the rate-setting process. I urge this body to study this problem and adopt the rate-setting legislation.

10. **Constitutional Review.** Once again, we had a great number of constitutional propositions by the people last November. I see nothing that indicates that the number of propositions will decrease in the future. I strongly urge the Legislature to make provisions for wholesale review and possible revision of our Constitution. I am certain the Constitutional Revision Committee will have recommendations as to how our Constitution can be modernized rather than continuing the piecemeal review and revision method that we now have.

11. **Higher Qualifications for Department Heads.** Qualifications for department heads should be upgraded to prevent any "buddy system" from ever developing in state government. There is no department of this government which can be operated by anyone other than a fully qualified, trained administrator. Operation of state government is too complex to be placed in the hands of someone who has as his only qualification the fact that he helped elect the Governor. Such a qualification system will not only insure continuing smooth operation of the agencies regardless of the change in administration, but will also assure high-quality administration of the agency so that the taxpayer receives full value for his tax dollar.

12. **Re-organization of Soil and Water Conservation Agencies.** Study has begun on the re-organization of state agencies having as their responsibility the administration of soil and water conservation programs. It is my hope that this re-organization can proceed, to be followed by the creation of multi-purpose conservancy districts across the state. This will replace the multitude of special purpose districts that now result in overlapping and duplication of time and effort. I am pleased to note that the leaders in the area of soil and water conservation have moved in that direction, and I pledge my complete co-operation toward that end.

13. **Air Pollution.** While this problem is not as great in Nebraska at the present time, as in other states, it must be dealt with. It is my hope that sufficient strong air pollution laws can be passed during this session to prevent the problems from ever becoming too large.

14. **Vocational Technical School in Omaha.** It is important that our citizens be given every opportunity to help themselves; therefore, a vocational technical school should be constructed in the near north side of Omaha.

15. **Homestead Exemption.** Nebraska citizens overwhelmingly approved a homestead exemption in November, 1968, and the Legislature must proceed to enact the necessary legislation to accomplish this.

16. **Raising the Food Sales Tax Credit.** The Food Sales Tax credit should be increased from \$7 per person to \$9 per person. Inflation and increasing prices make this mandatory.

17. **State Aid to Education.** The provisions of the State Aid Legislation must be amended to increase the assistance we on the state level can give to local government. Additionally, no provisions have been made so far to give assistance to private colleges and universities, and this is a matter which should be reviewed by the Legislature. We should not forget that these private colleges serve a very important function in our educational system.

18. **State Aid to Cities and Counties.** Our cities and counties are becoming more and more hard-pressed financially. I recommend the Legislature study in depth the constitutional amendment approved by the voters last November which authorized the Legislature to enact laws calling for the consolidation of county offices for two or more counties. Efficient use of tax dollars would dictate that the co-ordination of activities between counties and between city and county would eliminate duplication of effort and utilize to the fullest every public dollar spent at the local government level.

It is not my intent to in any way attempt to overwhelm the Legislature with my recommendations about what they should be doing during this session. It is my responsibility as Governor to suggest to you those ideas and those areas which I feel are in the best interests of the State of Nebraska. I feel very strongly that the points which I have mentioned are the kinds of problems our citizens are demanding solutions to in 1969.

Programs frequently are initiated by the federal government and for the first year or two of their existence are funded primarily by federal dollars. After the program is underway and citizens of the state are accustomed to relying on the program, the federal govern-

ment frequently withdraws its financial support, leaving a financial obligation, frequently of large size, to be assumed by state taxes. At no time, does the federal government provide any tax funds to meet the financial obligation created by the program.

The alternatives are not easy ones. First, we can refuse to go along with the new federal program, but usually the federal government puts some penalty clause in the program so that failure to adopt the program will result in a loss of federal funds in some other program.

Secondly, we can accept the program as long as it is funded by the federal government and then drop the program after the federal government drops its financial support. To do this, however, would create in many citizens a reliance on services which would have to be eliminated shortly after citizens have become dependent upon the services. We cannot treat our citizens that way.

Thirdly, we can accept the programs and fund them ourselves after federal funding is withdrawn. The problem here is the creation of a steady addition to our state tax burden for programs which might not have received high priority had they not been funded initially primarily by federal funds.

One solution, not listed in these alternatives, would be for the federal government to remove penalty clauses from programs so that the state could opt to adopt a program or not on its own merits, not on the combined merits of it and other programs that might suffer if penalty clauses are revoked.

Secondly, the federal government could simply suggest programs and not fund them, thereby letting the program reach its own priority level among all state programs.

Thirdly, the federal government could continue to fund at the same matching basis any new programs. I do not believe that we should let this matter rest. It is essential that you, as state senators, and I, as Governor, continue to press our congressional delegation and the new administration on these points. Some strides have been taken by the federal government with the concept of block grants embodied in the Omnibus Crime Control Act and similar acts. At the same time, the reluctance of the federal government to release their strings on this money is apparent even in such acts as these when the guidelines are drafted supposedly implementing the block grant idea.

Conclusion

This may be an appropriate time to review briefly the relationship between the legislative and executive branches of state gov-

ernment, since both branches will be in close proximity for the next few months.

Our State Constitution specifically divides the powers of the government into three distinct departments. This, of course, parallels the national government's organization—a structure deliberately and brilliantly designed by 18th century men to prevent governmental tyranny.

You might find some fault with such an organization, if maximum efficiency was the sole yardstick for measurement. American business certainly would not build a corporate structure along lines of fractionated power and split authority. No company with an elected Board of Directors would consent to having the general manager independently elected.

The answer to that, surely, is that we Americans and we Nebraskans find tyranny repugnant. We are willing—and we should be willing—to put up with a modest lack of governmental efficiency for the greater reward of restraining oppressive power, be that power executive or legislative. I suppose the extent to which we tolerate inefficiency is a matter of degree. . . . Certainly, however, this principle should not be confused with the application of competitive business techniques to state government. The employment of high-speed machines, proven administrative control systems and free enterprise management skills is in no way incompatible with the organization of state government. For pointing this out once more, we all owe a very considerable debt to the Little Hoover Commission.

It has been said the legislative branch believes it should become more involved in the administration of state government.

Some people regard the Governor's office as occasionally straying across the constitutional line into policy-making matters, which is your particular function.

Intending no disrespect, it still might be pointed out the Constitution commands Governors of Nebraska to recommend for legislative enactment those measures which the chief executive deems expedient. This gets into the area of policy. The Constitution requires Governors of Nebraska to present a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state for the ensuing biennium.

Here is another venture into the policy field, for appropriations are really priority expressions.

So important did the framers of our Constitution consider the budget recommendations of our governors that you are forbidden

to make appropriations in excess of those recommendations, save by an affirmative vote of two-thirds of your membership. The Constitution grants to Governors of Nebraska the power to veto legislative enactments. Another way of putting it is that Nebraska governors have 29 nay votes on any bill—because 30 yae votes must be obtained for an executive veto to be overridden.

The Legislature has constitutional checks upon the power of the executive, beside the unquestioned right to pass legislation over a veto. Not a penny more than is appropriated for any activity of state government may be spent by any person in the executive branch—including the Governor.

Not unless the Legislature consents, may a goodly number of the people appointed by the chief executive serve in office.

So one textbook view of our relationship is that we are everlastingly pitted against each other.

Another view, one which I overwhelmingly prefer and think correct, is that the legislative and executive branches of state government share power and authorities. The two departments are linked as a team, striving toward precisely the same ends, working for exactly the same people.

It is in this co-operative relationship that the legislative and executive branches can achieve the more profound benefits for the citizens. I pledge to you my willingness to co-operate, to listen seriously, to rethink and review our positions in light of new information and previously overlooked concerns.

In making your decisions, whether to turn on the green light or the red light on the board behind me, you perhaps have greater agonies than the executive branch. Nebraska Governors are chosen by a statewide electorate. All of the citizens—including those who voted against you, those who didn't vote, and those who couldn't vote—are the Governor's constituency.

You owe your office to election from a particular district. Still you are not district senators. You are state senators and we honor you. Your constituency on one hand is your district. It also is all of the people of the state. The laws you pass affect all citizens, not those just in your district. Therefore, the senator from a purely urban district cannot ignore the real problems of fellow Nebraskans in the great wheatlands of our state. Likewise, the senator from the ranching country must be sympathetic and understanding of the troubles experienced by metropolitan area citizens and work to ameliorate those troubles.

Beyond what may be found in the Constitution, I think the Governor and members of this Senate have another joint respon-

sibility—a crucial one if our cherished democratic system is to survive. That is to explain government to our constituencies.

The basic decision makers in our society are the **people**. To the extent that the **people** are made aware of governmental problems and issues, some of them terribly technical—to the extent that citizens are truly informed about options—we can look for reasoned judgments. Nebraskans in the past have shown a remarkable capacity to sift chaff from wheat in public life. We trust their native intelligence and wisdom in an age of enormous complexities.

This administration, through the town hall series last year and additional meetings in the future, has tried to establish a broadened state government explanation program. Citizens may not always agree with what we have tried to accomplish, but they have never lacked for response or what we hope has been a rational defense. It is just possible some citizens who had habitually classified state employees as spenders have discovered, to their delight, public servants of dedication, of competence, of integrity.

I would urge that as state senators, you, too, undertake programs of informing citizens about the progress and the problems of our state.

By virtue of your activities, you become exceedingly knowledgeable about the workings of the state. You have an obligation to fairly share this knowledge. If we have problems in our state institutions, in our highway construction operations, in our welfare programs, it is certainly as much the concern of the legislative branch as that of the executive. It is even more emphatically the concern of the citizens, whom we represent.

Upon the base of better public understanding, answers to our common problems may be more safely fashioned.

In the last analysis, surely, there is no overriding purpose to state operation, except simple physical security, than that of service to the people. It is for that end we are in office.

Our shared mission at this time and this place is one of keeping open the opportunities for our men and women, for our sons and our daughters, to live meaningful, satisfying lives in a troubled and often brutal world. This is not a small or mean challenge. Together may we be remembered as seeking to meet that challenge.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 10, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

The prayer was offered by the Chaplain.

Prayer

Eternal God, our ever present guide, in our search for stability of mind, heart, and soul we often assume these qualities can be ours by taking an aspirin, when what is required is radical surgery. We so often look for the easy way, assuming the destination will be reached without effort on our part, and a satisfactory compromise agreed upon without some sacrifice required from us.

Give to us more realism, and keep before us the truth that our output is only commensurate with our intake, and as a man soweth, so also shall he reap.

In our Lord's name, we pray. Amen.

The roll was called and all members were present except Messrs. Batchelder, Bloom, Carpenter, Danner, Duis, Holmquist, Knight, Kremer, Moylan and Nore, who were excused and Mr. Carstens, excused until 10:30 a.m.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 13, 1969

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, Thou who dost ever go before us, even when we refuse to follow, may we have something of the zest for life of the Psalmist, who each day could say, "This is the day that the Lord hath made; let us rejoice and be glad in it." May the things that are noble and excellent in life be real to us. We confess too often we live in the shadows and are seeking escape through technicalities, and thus miss the breadth and the glory and the joy of living.

May our basic resolve and faith be so steadfast that we can face the issues of life straightforward, and not, through fear and inadequacy, resort to dodging the decisions before us.

We pray in our Lord's name. Amen.

The roll was called and all members were present except Messrs. Adamson, Carpenter, Holmquist, Klaver, Moulton, Nore, Pedersen, Syas, Waldo, Waldron and Miss Reynolds, who were excused.

Corrections for the Journal

Legislative Chamber, Lincoln, Nebraska
Tuesday, January 14, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

God our Father, Thou who dost hear us, not because of our inadequate words, but for our real need;

Thou hast given us the assurance that there are a few constant things in life. Thy love never changes; Thy compassion is the same yesterday, today and forever. We so often worry about the things that do not really matter and forget completely the things of eternal significance.

Help us to be relevant to the times in which we are living. Give us a large point of reference, so that we may make our decisions, not from the perspective of a second hand, but of a sun dial.

In our Lord's name. Amen.

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, our Father, may we not grow lax because of the many evidences of affluence which surround us. May we ever have the spirit of our forefathers who braved the wilderness and survived the rigors of a new land battling for survival against the elements. Teach us the benefits of adversity. May we constantly live with gratitude that Thou hast not put us into a finished world, but one where we may cooperate with Thee in building a better society for ourselves and those who shall come after us.

We pray in our Lord's name. Amen.

RESOLUTIONS

LEGISLATIVE RESOLUTION 5. Re: Legislature Accept Bust of Christopher Columbus

Introduced by William R. Skarda, Jr., 7th District; Sam Klaver, 9th District and Eugene T. Mahoney, 5th District.

WHEREAS, Christopher Columbus has been declared the discoverer of America; and

WHEREAS, Nebraska observes October 12 of each year in commemoration of the landing of Columbus in the Bahamas in the year 1492; and

WHEREAS, the Order of Sons of Italy have offered to donate to the State of Nebraska a bust of this distinguished person, provided said bust is placed permanently in a suitable place in the Nebraska State Capitol.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That this Legislature accept the bust of Christopher Columbus and it be permanently placed in one of the niches in the corridors of the State Capitol.

LEGISLATIVE RESOLUTION 6. Re: Lack of Available Timber Supply

Introduced by C. W. Holmquist, 16th District.

WHEREAS, the lack of available timber supply to meet the increased demand for lumber materials has resulted in a rapid and excessive rise in the cost of these commodities; and

WHEREAS, these price increases add pressure to the inflationary tendencies of the economy, with the impact on the housing industry is causing great concern, being estimated that the increases in lumber costs alone in the last year have added eight hundred dollars to the cost of the average single family house, which not only jeopardizes the goals of the Housing and Urban Development Act of 1968 but also threatens the entire housing and construction industry; and

WHEREAS, the export of logs to Japan and the demand for housing in the United States has outstripped the available timber supply, with the future holding greater demand on our timber resources, the 1970 housing demands for lumber expected to be twenty per cent greater than today, and 1971 to 1978 housing demands expected to increase the need for lumber materials thirty to forty per cent, which is six to seven billion board feet of logs in excess of today; and

WHEREAS, the Nebraska lumber dealers and surely the lumber dealers of the nation have abiding interest in keeping filled the nation's housing and construction needs, to accomplish which the availability of lumber must be increased and prices must be kept as low as possible; and

WHEREAS, it is obvious that the timber supply must be increased to meet these demands; and

WHEREAS, sixty-five per cent of all commercial softwoods is on federal lands.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

That the Congress of the United States is urged to take necessary action to:

1. Relieve the supply pressure by modifying federal land management policy to allow larger yields from federally-owned commercial forestland.
2. Review the long standing methods of selling timber from federal lands and the system of federal timber appraisals.

3. Thoroughly reexamine the current policies governing forestland uses. Cutting practices must be reevaluated in light of new growth potentials and timber should be improved by such steps as earmarking the money received from the government for its timber for reinvestment in intensive management on federal forestlands.

4. That a copy of this resolution, suitably engrossed, be sent to each member of the Nebraska delegation in the Congress of the United States.

Visitor

Mr. Nore introduced Mr. Ellsworth Reeves, Central City, Nebraska.

EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 16, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O God, our Father, we know that our laws can be no better than those who make the laws and administer the laws, and the people who follow the laws.

As this legislature initiates laws, give them the courage to look at themselves. Our pride, our passions, and our self-interests are very real, and often dominate the center of life from which our thinking stems and our decisions follow.

We pray that Thou wouldst allow other qualities, which may be buried, to rise again in our lives—decency, consideration, unselfishness, and hard thinking with a warm heart.

In our Lord's name. Amen.

The roll was called and all members were present except Messrs. Carpenter, Klaver, Knight, Pedersen and Syas who were excused.

TENTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, January 20, 1969

Pursuant to adjournment, the Legislature met at 10:10 a.m., Speaker Warner presiding.

Prayer was offered by Rev. W. L. Van Auken, Associate Pastor, Westminster Presbyterian Church, Lincoln, Nebraska.

Prayer

This morning we are recognizing the passing of our beloved brother, Senator Stanley A. Matzke.

Almighty God, Our Heavenly Father, Thou knowest the sorrow that is within this chamber today.

Now at home with Thee is one who did his best in this life to serve Thee and his fellowman.

Grant comfort to those who loved him most and will miss his presence.

May the works of thy servant follow him and vouch safe his place in the house of many mansions.

We bless Thee for thy grace which kindled in his heart the love of thy dear name; that enabled him to persevere in acts of charity and mercy; and to witness in his life a good confession.

So fill our hearts with trust in Thee that by night and by day, at all times and in all season, we may without fear commit those who are near and dear to us to thy never failing love for this life and the life to come.

Let the services of tomorrow be especially used to bind us all to the world unseen; where all humanity must at last be established.

And in the days ahead, make us to know our end, and the measure of our days what it is, that we may know how frail we are. Hear our prayers. Give ear to our petitions. Hold not back thy peace nor thy succor, for Jesus Christ's sake. Amen.

We all have lost a good friend and an excellent Senator with the death of Senator Stanley Matzke. Our hearts and our prayers go out to Senator Matzke's family and friends.

Senator Matzke was, in every way, the embodiment of the ideal, hard-working Nebraska State Senator. He was a Senator who consistently did his homework. He was one who carried his

interests forward after the session adjourned. Those interests, as is necessary for the ideal Senator, were many and varied, covering the whole spectrum from private to public life and rural to urban life.

His personality and character were unimpeachable. Many times he untangled a logical knot with his emphasis on the fundamental issues as opposed to the irrelevant. Just as often he would move a discussion along by some appropriate, witty comment just when others were starting to lose their temper.

As Governor, I have taken counsel with Senator Matzke many times. Never once was I misled by any advice that he gave me. Never once was the advice designed to benefit anyone but the people of the State. Such selfless advisers are rare.

I will miss Senator Matzke very much, both because of our personal relationship and because of our business relationship. I am sure all of you will, too.

Sincerely,

(Signed) Norbert T. Tiemann
Governor

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, may we be as upright when kneeling in prayer as when standing at attention. May we not pray for that which we are not willing to pay the price for receiving. When we pray for strength, you put us through trials and temptations to develop strength. May this legislature have both inner and outer integrity and a consistency of character commensurate with the just laws which they wish to initiate.

In our Lord's name. Amen.

The roll was called and all members were present except Messrs. Moulton, Nore and Waldron, who were excused.

MEMORIAL SERVICE

In Memory of the Late Senator Stanley A. Matzke

Messrs. Holmquist and Hasebroock escorted Governor Norbert T. Tiemann to the rostrum.

Mrs. Orme and Messrs. Clark and Adamson escorted the family of Mr. Matzke into the Chamber.

Dr. Palmer: Let us look to God in prayer. You may remain seated. Oh, Lord, our God, Thou hast been our dwelling place in all generations. From everlasting to everlasting, Thou art God and we are Thy children, creatures of Thy hand, spirit of Thy life. So we come to Thee now, as naturally as children would come, knowing that Thou art here already with us to give us comfort and strength. We remember this day, Thy servant, our friend and colleague, Stanley Matzke. We pray for all who loved him and those in turn whom he loved and served. Above them may there be the mantle of Thy love and beneath them the sustaining power of Thine everlasting arms. We commit ourselves together to Thy care and we rest ourselves in the strength that thus far has led us on the journey of our lives. Grant us to walk this day in dignity and to face the morrow with courage. Our Father Who art in heaven, hallowed be Thy name, Thy Kingdom come, Thy will be done on earth as it is in heaven. Give us this day our daily bread and forgive us our debts as we forgive our debtors. And lead us not into temptation, but deliver us from evil, for Thine is the kingdom and the power and the glory forever and ever more. Amen.

Senator Knight: Correctly Senator Stan Matzke is considered the father of post-high vocational education in the State of Nebraska. Almost forgotten in this common recognition, however, is the continued struggle that was his, not simply to keep the school at Milford alive, but the continued struggle that was his as both Senator and citizen to keep this concept alive in our state. Stan put it in layman's language when he said "When a man discovers that he can make two or three bucks an hour, he becomes interested in getting an education." Today it's commonplace to recognize the validity and importance of this concept in our state. So we readily acknowledge our indebtedness to Stan for his foresight, for his relevancy, for his perseverance. Often lost sight of in this deserved recognition, however, is the contribution that Stan Matzke made to all of higher education. A close friend of several chancellors and college presidents, he, nevertheless, was willing to challenge academic tradition. Without guile he moved among the professors helping them to put their feet back on the ground with penetrating questions and analyses. A friend and counselor, not only to these academic people, he was also a friend and counselor to college age

youth. He found in them a great hope and great expectation and real excitement. Yet he was willing to puncture their academic egos in order that we might put things in proper perspective. Whatever the field, I found in Stan that that which was most consistent, and over the long haul most impressive, was his sincere concern for all of education and that it be relevant in the eyes and in the lives of those most intimately involved. Disdainful of a 'stand pat' attitude, Stan pressed for sound planning and for teaching which would challenge the students. William James defined the objective of American education in a way that, at least to me, befits the mind and actions of Stan. "What higher education should at least try to give us is a general sense of what, under various disguises, superiority has always signified and may still signify. The admiration of the really admirable, the distaste for what is cheap and trashy and impermanent. And that is the better part of what men know as wisdom." Senator Stan Matzke, a gifted man with rare insight into the educational needs of our town. A gifted man with deep concern that we plan well for tomorrow. We keenly appreciate the privilege of having shared with him in these high endeavors.

Senator Kremer: WHAT DID SENATOR STAN MATZKE SEE?

To me, Stan fully carried his share of the load in making Nebraska the great state that she is and the state she is yet to be.

I can visualize him standing in his back yard during the early thirties, the days of the great drouth, and looking up into the sky, black with swirling dust, dirt so thick that the afternoon sun was barely visible. Day after day it was the same—very little rain—crops drying up—the soil blowing away. As a result of these trying days, he saw many fellow Nebraskans sell their places and interests and seek greener fields, but in Stan's mind things began to take shape. "This is a good soil—this is a fertile land—there must be ways to anchor this good soil. There must be ways to capture and hold the rain that falls and to apply it to the land, causing it to bring forth its increase." I believe Stan saw the potential of Nebraska and even though he may have been tempted with those who were migrating to other places, his decision was to stay and give himself to making Nebraska a state of plenty and prosperity. Through the organizations he was a part of and through personal dedication, Stan has seen many of his dreams and visions become a reality.

Then, of course, there were times when rain came in abundance, —rainfall so heavy that homes were swept away, and again Nebraska's good soil was on the move, this time by water. Again, Stan visualized ways to harness this giant, and he lent himself to encouraging and working with others to build dams, terraces and waterways, to stop this destruction, and in place create areas of

recreation and turn our creeks and streams into the greatest possible good use.

Senator Matzke was a member of the State Irrigation Association, the State Reclamation Association, and other organizations dedicated to the development and conservation of Nebraska's natural resources. He gave much of his time and talent to carrying out the objectives of these groups.

In recent meetings where I have heard Stan speak, and in personal conversations with him, I believe he was saying, "You still haven't done everything that needs to be done; Nebraska is a great state and she is going to be still greater. She has great natural resources—take good care of them—use them wisely and you have yet to see what Nebraska is going to be."

Senator Marvel: The Nebraska Unicameral, by virtue of its unique structure, provides for the most closely-knit group of Legislators in the country. We undoubtedly know more about the weaknesses and strengths, interests and background of each other than any other similar group representing a legislative branch. Consequently we can have tremendous influence over the lives of the other 48 as we work together in the midst of democratic conflict week after week and month after month. Operating even more like a family, or at least as a group of relatives, is the basic unit of any state government more especially in Nebraska, The Standing Committee. In the midst of this important group, a member can really sense the impact of his or her hours of toil of statesmanship. Stan Matzke left his imprint upon the lives of each of the eight members of the Budget Committee. He reminded us that while we are not infallible, we each had an inner strength which gave us the opportunity to make a unique contribution to the welfare of Nebraska. He never allowed the chairman to be too much impressed or upset with titles, degrees or newspaper articles. He strove to keep all of us down to earth, especially in the area of education, conservation, and agricultural research.

In the midst of Committee controversy, he would make most effective his substantial contribution to compromise from lessons learned by him as the result of valuable experience as a husband, a father, a grandfather, a lawyer, an officeholder, a lobbyist, a newspaperman and an executive. In short, a politician. His varied experience was invaluable in his service to the Committee on many sub-committee assignments which were designed to bring the loose ends of budgeting together into a meaningful pattern. Finally Stan, constantly seeking progress through legislation, reminded me of the importance of a sense of humor saying only last week "Mr. Chairman, this year you promised me that we could finally have a little fun." He taught us, by example, persistence, humility, patience,

compromise without losing integrity or principle, tolerance and finally, optimism for the future. We in the Nebraska Legislature, and on the Budget Committee, as individuals and in our decisions, are better for his having served with us and for his having left us with this message. He was one of us in the peculiar brotherhood which unites Legislators in a Body such as this. He had an individual contribution to make and he made it because he was an active Legislator and a statesman. He has changed perceptively the character of this Body. It bears his imprint as it will bear yours and mine, my friends.

Senator Proud: Senator Matzke was not much of one for pomposity or stuffed shirt. He took the wind out of my sails several times and I think, I hope, I'm a better man for it. I remember when we were out at Kearney one time speaking on an issue which was not necessarily popular in this Body, he was introduced and the introducer went through a long list of Stan's accomplishments and his titles. When he finished, Stan said "Just a minute. You forgot one thing. At one time I was a Notary Public." Stan would not want me to get up here and speak for half an hour, even if it were all in praise of him. Whenever I would get too wordy, he would, by some appropriate indicator, signal me that it was time to sit down. One time, if I recall correctly, he stomped on my foot. There were times, of course, when I voted contrary to his position, yet rarely, in all the time that we sat side by side in this chamber, did he ask me personally to vote for one of his bills. He made his case based on logic and common sense here on the floor of this chamber before all of us and he made it well. He had an innate way of knowing those who he could trust and those that he could not. Seldom was he wrong. Senator Matzke was not only a superior legislator; he was a wonderful family man. He had a sense of humor and he knew how to live. When it came to legislation, Stan Matzke was not interested in personalities. He was basically concerned with issues. If he had some word to leave with us it might be "Cut out the petty bickering. Don't decide issues based on personal grudges or friendships. Decide them on the merits. Do what you damn well think is right and full steam ahead."

Speaker Warner: Today we have properly set aside this memorial period as a tribute to our former colleague as a distinguished Nebraskan and as a friend.

I think we can look at any phase of Stan Matzke's career at any time and be impressed by the qualities of fore-sight and dedication to a belief which he so clearly demonstrated and manifested.

Robert Browning once wrote "No work begun shall ever pause for death."

The many "works" that Stan Matzke began have grown, ripened,

re-seeded and grown again. His "works" have gained the enthusiasm of others to carry on. His contribution to youth, education, conservation and the many aspects of Nebraska life in which he held an interest will continue as a living memorial to him.

At the passing of a friend we frequently remember the good times, kindnesses, the word of advice and counsel.

I remember Stan for times of joy, for understanding in times of sorrow in my own family. I recall riding with him for three days on a tour of the Central Public Power District. I remember our talks on that trip; his knowledge of Nebraska's history, his vision for Nebraska's future, but most of all I remember the inspiration he was to me. And so was Stan an inspiration to many others.

He gave meaning to the words inscribed on our state capitol "Honor to the Pioneer who broke the sod so men to come might live."

He broke the sod for progress in many areas and built the foundations from which we the living must build if the efforts of he who has passed on before us are not to have been spent in vain.

It has been written, "There is a destiny that makes us brothers,
None goes his way alone,
All that we send into the lives of others
Comes back into our own."

Stan Matzke had a full life because he gave so much to others.

Governor Tiemann: I'd like to quote one paragraph from a book by a former Nebraskan, Wright Morris.

The name of the book is "God's Country, My People."

Sometime before this landscape became a state, it was a state of mind. The land itself was chipped so the waters flowed eastward. Where they flowed underground they called it Nebraska. There were few records. There was no history. Time was reckoned according to the plagues and blizzards. The Territory itself was not yet a part of the Union and only the hand of God had shaped it. That was what the grandfather found pleasing, if not his bride. He crossed the wide Missouri on a ferry and traveled west by wagon along the Platte Valley. Antelope were seen. Wolves were reported. Beyond the dry river rose the coast of Nebraska. A scud blowing on the sea of wind whipped grass. Its color varied where the buffalo had been slaughtered and the hides had been stacked. Under the grass were the wheel marks of the wagons; the mounds of rude graves. Flowers without names grew along the wayside. Between the leaves of her Bible she pressed those that bloomed only

at night. Grandfather had an eye for further details. Many things would come to pass. The nature of the place would remain a matter of opinion. A log drying in the sun or the dry bed of a river seen from space.

Stan Matzke labored a lifetime to make many things come to pass. His love for Nebraska and her people was deep and lasting. His affection was genuine. He cared not what others thought or whispered as long as he knew that what he did and said was right. He did not bow to political pressures although that might have been the easiest thing to do and would not yield because he possessed a quiet courage and a logical mind; an understanding of people. To say that he will be missed is too trite. It is better to say that his labors and his deeds will be measured against the man and in that measurement Nebraska and her people will have grown.

Rev. Charles Stephen:

These lines are from the poet, John Holmes.
Death this year has taken men whose kind we shall not see again.

Pride and skill and friendliness; wrath and wisdom and delight are shining still but shining less and clouded upon the sight. Time will show them clear again. Time will give us other men with names to write in burning gold when they are great and we are old. These were royal harvests rare. Memory keeps with loving care

Deeds they did, tales they told, but living men are hard to spare.

We buried Senator Stanley Matzke yesterday, a fact that still seems unreal to our minds and our hearts. It seems unreal here in these chambers which he loved so much that he is not among us. The emptiness of his desk reminds us of our loss. He belonged here and felt comfortable within this Legislature; he had good friends here; he had colleagues who depended upon him and upon whom he depended. People expected from him words of moderation and of rationality.

One of John Kennedy's favorite authors was the Englishman, John Buchan, who in his autobiography wrote these words, words that the Kennedy family knew well:

"Public life is the crown of a career, and to young men it is the worthiest ambition. Politics is till the greatest and most honorable adventure."

Politics was such an adventure with Stan, a great and honorable adventure. But all of life was an adventure for Stan. He was

a man with a thirst for people and ideas. And he brought these attributes to a life of public service. Here, he knew, was an opportunity to serve, to influence, to make real the ideals of a lifetime. Here, too, was an opportunity to help raise the quality of democratic institutions. A free society requires free men, and Stan Matzke was free, free from the contaminations of the too rigid orthodoxies of our day, free from the contaminations of tradition and race and color and nationality, prejudices and narrowness of little men. He rose above these; as a responsible man, he was responsive to the best that is in us as a people, and he contributed a lifetime toward the improvement of the democratic dialogue.

Stan was a man who never stopped growing. He continued to learn, to broaden himself, to change. He was for all of his long and good life a young man. Oliver Wendell Holmes, Jr. once observed:

As life is action and passion, it is required of a man that he should share the passion and action of his time, at peril of being judged not to have lived.

Within these chambers, at the Vocational Technical School at Milford, throughout the state of Nebraska, at his farm, in the lives of countless people of all walks of life, and in the hearts of those who knew and loved him most, Stan Matzke is judged to have lived, and to have lived long and lived well. His life was action and passion; it was dreams and vision; it was responsibility and the slow and patient building for tomorrow.

Stan Matzke fed this state and its people with the commitment of his life and its high purposes. He nourished those who loved him. He will be sorely missed; yet there is in this place, and in this state, and in our hearts something of Stan that is never going to die.

Dr. Robert Palmer: From among the many who have known Stan Matzke and loved him, we few have had the opportunity of speaking something in his memory and, yet, no matter how large an assortment of voices might be arranged, you who are here know so very well that none could possibly hope to encompass the wide scope of his interests or adequately to cover the accomplishments of this man for all seasons. It is for us not to forget that there is a vacant chair in this assembly, a vacant place in the hearts and minds of so many, but rather to do as I think he would have us do—to give thanks for all that has been done thus far—to seize this day and make the very most of it—and so to plan for the future that it might be better than today. Of men such as this, the writer of Ecclesiastes has said centuries ago, "Let us now honor famous men and our fathers who bore us. For the Lord hath brought great glory by them. Through His power, those who did their office

in their kingdoms, men who were known for their abilities, who gave counsel by their understanding, who prepared for the future, men who were leaders of the people by virtue of their counsel, by their knowledge and understanding, these were honored in their generations, these were the glory of their times. There be of them that have left a name behind them that their praises might be reported, these were merciful men whose righteousness shall not be forgotten. With their seed shall continually remain a good inheritance. Their bodies are buried in peace, but their name liveth forevermore. The people will tell of their wisdom and all the people will give thanks for their lives." We may therefore say with James Russel Lowell that "we cannot think of him as wholly gone, but the better part of him is with us still, the soul its hampering clay aside has thrown and only fear wrestles with the ills, Thou livest in the life of all good things, what words thou spakest truth shall never die. Thou sleepest not, for now thy love hath wings to soar where hence thy hope could hardly fly. And often from that other world on this some gleams from great souls gone before may shine. To shed on struggling hearts a clearer bliss and close the right with luster more divine." With gratitude for Stan's life, with faith in God, with a love for each other, as we have commanded him to God's care, may we now command ourselves and our souls and our families our fortunes and our futures praying that we likewise may so live dedicating the best of our abilities, doing justly, loving mercy and walking humbly with God and man, that as our time may come—soon or late—we, as well, may hear our Father's benediction "Well done, thou good and faithful servant. Enter thou into the joy of thy Lord." Let us all pray. Eternal spirit, from whom we have come, to whom we belong, and in whose service is our peace, even in the very presence of death our first word to thee is thanks for Thine unnumbered mercies, for the memory of loved ones now departed in whom we have seen the light of Thy presence, we thank Thee for victories of character over trial, of courage over difficulty, of faith over sorrow. For all souls who have done justly, loved mercy and walked humbly with their God, we are grateful to Thee. Grant us now such spiritual triumph in the memory of our loved one, Thy servant, Stan Matzke, in whose character and years of service we rejoice, that in our hearts death may be swallowed up in victory. Thou art the God of the living, with Thee there is no death. Our departed who have passed out of our sight are at home with Thee forevermore. As Thou did not lose them in giving them to us, so have we not lost them by their return to Thee. Deepen in us this faith in life eternal. Our Father we need strong comfort amid the perplexities and sorrows of this, our difficult and mysterious pilgrimage called life. Around our transiency throw the horizons of Thine everlasting care and comfort us, not only with Thy nearness, but with thy greatness, oh Thou who from everlasting to

everlasting art our God. And now let Thy mercy rest upon us, a company, a family of friends and colleagues who today remember with grateful affection Thy servant who has departed this life. For his uprightness of character, his fidelity and loyalty, thanks be to Thee. For his devotion to his family, his wife and children, grandchildren, his generous good will to his friends, his patriotism as a citizen, his unselfishness as a senator, his high honor as a man, thanks be to Thee. For the many years of able service which he has rendered to many a worthwhile cause, we thank Thee. Give now, especially to those who most intimately mourn his going, wide margins of comfort around their spiritual need and deep wells from which to draw their consolation and strength. Once more we find ourselves standing upon the shore of the sea and bidding farewell to a ship that loses itself over the rim of the world. Oh, God give fair voyaging and safe harbor and as we stand upon this nearer shore and bid farewell, grant us the faith to hear Thy voice which on yonder shore cries "welcome, welcome home." Oh, Lord support us, each one, all the days of our lives until for us the shadows lengthen and the evening comes and the busy world is hushed and the fever of life is over and our work is accomplished. Then in Thy mercy grant us a safe lodging, a holy rest and peace at the last. And so may the peace of God that passeth all understanding keep our hearts and minds in the knowledge and love and truth of God and of his Son, Jesus Christ, our Lord and the blessing of God Almighty, Father, Son and Holy Sprit be with us and remain with us and those whom we love and serve both now and for all the generations to come. Amen.

Lt. Gov. Everroad: Might I say in conclusion that some fifteen years ago I met Stan Matzke at the tech school at Milford and I have heard him say in an address that he made that night that we want to make Nebraska a better place to live. Let's give it that little extra effort. I'm sure that Stan Matzke is saying to us right now as citizens of Nebraska and as lawmakers "Let's make Nebraska a better place to live. Let's give it that little extra effort." Thank you.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

THIRTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, January 23, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, as our inward thoughts in this moment reveal our souls, so also shall the words we speak on this floor, and the decisions we make as leaders of the people. May these Senators, therefore, have about them a sense of history and a knowledge of the past. May they remember how others have acted in similar times of crisis and decision, but free us from a mere worship of old decisions so that we may not be coasting in a day like this, but rather marking new trails of needed action today.

In thinking of Thee, no thought is lost; may we think on. In talking with Thee, no words are lost; may we talk on. In working with Thee, no energy is lost, may we work on, by the power of Thy spirit. Amen.

The roll was called and all members were present except Messrs. Klaver, Moulton and Pedersen, who were excused and Mrs. Orme and Mr. Waldron, excused until 11:20 a.m.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FOURTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 24, 1969

Pursuant to adjournment, the Legislature met at 9:30 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, Thou who art the giver of wisdom, enlighten our understanding with knowledge and may our wills find their framework within Thy laws. As we deal so much, not with black or white but in areas of the gray, may our own lives not be misled by deceit nor corrupted through temptations. Give us a steadfastness to be able to stand for the right against the innumerable pressures which can so easily take our decisions off the main course. Even in the midst of darkened times, may we have hopes which will forever outlast our fears and confidence which will outlast our frustrations.

In our Lord's name, we pray. Amen.

The roll was called and all members were present except Messrs. Batchelder, Duis, Klaver and Knight, who were excused.

O Thou who art the Eternal, who art so high above us that we cannot comprehend Thee, yet so deep within us that we cannot escape Thee, in these uncertain times we need some certainties. With conflicting voices ringing tumult and confusion, we need to hear Thy voice. In times of fear we need confidence; and in weakness we need strength. Give a sense of direction this day to this assembly, that they may make progress toward necessary objectives, may dream great dreams, plan big plans, think high thoughts, as they strive to build a greater society. In our Lord's name. Amen.

Eternal God, Thou who canst lift our vision from mud to stars:
enable Thy servants here assembled not to be frustrated and
fatigued with the innumerable problems and decisions confronting

to make the ground potential for harvest, recreate in us a sense of
joy, the desire for service, and the hope and spirit of peace and
prosperity. We pray in our Lord's name. Amen.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

SEVENTEENTH DAY

Legislative Chamber, Lincoln, Nebraska
 Wednesday, January 29, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m.,
 President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, our Father, may this be a day of high visibility for us. So often our mental and emotional ceiling is zero. We try to think clearly and see accurately, but are often fogged in. May we through contact with Thee lift our thoughts above the clouds where there is clear visibility and broad perspective for making our decisions. Remind us afresh that "they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary; they shall walk and not faint." Amen.

The roll was called and all members were present except Miss Reynolds and Messrs. Proud and Syas, who were excused and Mr. Knight, excused until 10:45 a.m.

WHEREAS, Byron Dunn, retired Lincoln banker and lifelong booster of his native Nebraska, died January 20, 1969; and

WHEREAS, after retiring from the banking business in 1964, where he served as President and Chairman of Board of Directors of National Bank of Commerce Trust and Savings, he was appointed Director of Banking; and

WHEREAS, he has served as chairman and president of many civic organizations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That the Legislature extends its sympathy to the survivors of Byron Dunn.

2. That the Legislature stand for a moment of silent tribute to his memory.

LEGISLATIVE RESOLUTION 12. Re: Cmdr. Lloyd Bucher and Crew of U.S.S. Pueblo.

Introduced by William R. Skarda, Jr., 7th District.

WHEREAS, the Commander of the United States Naval Ship U.S.S. Pueblo, Commander Lloyd Bucher, is a Nebraskan who graduated from Boys Town and the University of Nebraska; and

WHEREAS, Commander Bucher has acquitted himself well as a citizen of Nebraska and served with distinction in the United States Navy by being selected to command an important ship assigned to the Naval Intelligence Collection System; and

WHEREAS, Commander Bucher while in command of the U.S. Naval vessel Pueblo on a mission for the government of the United States of America was forced to submit to seizure of his ship and complement of eighty-two men by elements of the North Korean Navy on January 23, 1968 while sailing in International Waters; and

WHEREAS, the U.S.S. Pueblo was without escort and without adequate armament, yet the crew resisted capture resulting in injury to Commander Bucher and the death of a crew member and further resistance when outgunned, outmanned and overpowered would have been suicidal futility; and

WHEREAS, the Commander of the U.S.S. Pueblo called for help when capture was imminent and no one came to the aid of the helpless ship and its crew; and

WHEREAS, Commander Bucher and his crew were permitted to be held for eleven months by a foreign government hostile to the government of the United States of America; and

WHEREAS, the crew of the U.S.S. Pueblo was subjected to cruel and inhumane treatment by their barbarous and uncivilized captors who used them for propaganda purposes designed to embarrass the government of the United States of America; and

WHEREAS, the U.S.S. Pueblo is still held by a foreign government which is further designed to continue the embarrassment of the United States Government; and

WHEREAS, the representatives of the United States Government admittedly signed a false confession in order to obtain the release of the crew of the U.S.S. Pueblo; and

WHEREAS, Commander Bucher and his valiant crew of the U.S.S. Pueblo following intensive interrogations by Navy intelligence personnel are now the subject of a Naval inquisition that is resulting in persecution and ridicule before not only the American people but the entire world.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That it is the sense of the Legislature that Commander Bucher and his crew of the U.S.S. Pueblo have suffered enough through their extended period of confinement and cruel treatment and it being obvious that the United States Government is not coming to their aid and comfort after their ordeal while performing their assigned duties for the United States Government, it is now time for the American people to come to the defense of these valiant Americans.
2. That the Nebraska Legislature goes on record as supporting the actions of the crew of the U.S.S. Pueblo because they did what was necessary under the circumstances when they were outgunned, outmanned, overpowered, captured and held captive by a hostile foreign government.
3. That the government of North Korea be officially castigated by the United States Government before the bar of world opinion as cruel and inhumane and guilty of piracy on the high seas.
4. That we plead for the aid and support of all veterans organizations and all Americans in this cause and call upon the members of Congress, the executive and judicial branches of the United States of America to exert all their influence to insure fair treatment for the crew of the U.S.S. Pueblo who were unfortunate pawns of their own government as well as other hostile foreign governments and every action necessary be taken to effect the recovery of the U.S.S. Pueblo.
5. That a copy of this resolution be sent to each member of the Nebraska delegation in the Congress of the United States.

MOTION—Print in Journal

Mr. Carpenter moved to have the following letter printed in the Journal.

The motion prevailed.

January 28, 1969

Senator Elmer Wallwey, Chairman
Public Health Committee
Nebraska Legislature
Lincoln, Nebraska

Dear Senator Wallwey:

We have recently visited with Senator Carpenter regarding his bill LB 9 which proposes a thirty day suspension of physicians licenses for failure to report venereal disease cases. In our visit with Senator Carpenter we pointed out several items which we felt were pertinent to the issue.

A bill was passed by the 1967 Legislature providing for the reporting of venereal disease cases by physicians and laboratories. In visiting with the Division of Communicable Disease, we found that VD cases are on the rise in the state and records show that physicians and laboratories are complying with the existing law. The present law provides for a maximum fine of \$100.00 for failure to report cases. To date no fines have been assessed against a physician or laboratory.

Senator Carpenter is interested in seeing that proper follow up is made, and we likewise see this as the key to a good program of VD control. The Communicable Disease Division currently has only one person who is working full time in checking out reported cases. It is the duty of the physician to report cases but it is the duty of this Division to do the follow up. I have visited at length with the Director of Health and personnel of the Division of Communicable Diseases. It is quite apparent that the Department of Health must have an adequate budget if it is to carry out the responsibility of conducting an efficient and effective program of VD control in Nebraska.

The Nebraska State Medical Association and the Department of Health are currently discussing a new reporting form for communicable diseases for the purpose of compiling better statistical records. Also the Division of Communicable Disease is preparing a

manual of current laws on this subject. The Association will assist in the distribution of this new manual and reporting forms to physicians and laboratories.

We feel that the key issue here is the appropriation of a realistic budget to the State Department of Health which is vital if Nebraska is going to have a strong program of VD control as well as other important public health activities for which they are responsible.

In line with the above information, Senator Carpenter has agreed to ask this committee to withdraw his bill LB 9. We respectfully support this recommendation to the Public Health Committee.

Committee to Escort Governor

The President appointed the members of the Budget Committee to escort Governor Norbert T. Tiemann to the rostrum to deliver his Budget Message to the members.

GOVERNOR'S BUDGET MESSAGE

Mr. President, Mr. Speaker, Senators of the Eightieth Session of the Nebraska State Legislature:

The Constitution of the State of Nebraska requires that the Governor present to this legislative body at the beginning of each legislative session a complete itemized budget of the financial requirements of all departments, institutions and agencies of the state for the ensuing biennium. In fulfillment of that responsibility, I present to you today my executive budget.

Much of what is in this budget has already been presented to you in preliminary outline form by me at two separate occasions during the course of the recently adjourned special session. Continued analysis during the months of December and January following the close of the special session has led me to change only a few of the conclusions which I had reached prior to the special session. The totals in this budget are nearly identical to the totals I presented to you then, although the arrangement of some priorities has been changed.

I am not recommending at this time any amount for funding of any Homestead Exemption Bill. The demands of already existing state services are too great at the present time to permit a homestead exemption recommendation. Furthermore, my discussions with citizens of the state and with various of the senators has convinced me that there are real differences of opinion on the question of what kind of homestead exemption bill should be passed. For these reasons I am deferring recommendation of such a law and its concomitant funding.

At the same time, I am still convinced that the food tax credit should be increased from \$7 per person to \$9 per person and I am recommending this in my budget. This will result in \$6 million less revenue being received by the state during the next biennium from the sales-income tax.

The budget contains recommendations designed to meet the needs of the state. It is a thoroughly business-like budget. It contains no "fat."

As I present this budget to you for your consideration, I wholeheartedly urge you not to accept it in the spirit of traditional padded budgets. This is not a traditional padded budget. I have never submitted one to you as a Governor and I do not plan to do so now. If you assume that there is padding in this budget, you may find that you delete absolutely essential programs in your desire to cut something from the budget.

Likewise, even though I made a concerted and serious effort, I was unable to reduce my budget to the point that it can be financed from a 2% sales tax and a 10% income tax. Such a reduction is impossible without substantially retarding the development of Nebraska. I will not take part in such a paralytic activity by submitting a budget designed to stay within the prisons of inadequate revenues.

Budget Recommendations

The recommendations I am making for a total agency operating budget from general fund revenues for the forthcoming biennium

is \$264.8 million. This is an increase over the previous biennium of approximately 21%.

In addition, I am recommending the continued funding of state aid to cities and counties and to school districts at the same level as in the current biennium. In other words, I am recommending \$20 million during the biennium for state aid to cities and counties, and \$50 million during the biennium for state aid to school districts.

My budget recommends a sharp reduction in capital construction expenditures. The current biennium appropriation for new capital construction is \$26 million. In addition, amounts from previous biennia were reappropriated so that the total appropriation for all capital construction was \$42 million. I am recommending that during the forthcoming biennium, capital construction be limited to \$15.4 million. I am making what seems to be a drastic reduction in capital construction expenditures because of the need for additional comprehensive long-range capital construction facilities planning throughout state government prior to heavy construction outlays.

The total recommendation I am making in this budget for combined expenditures from the general fund for agency operating costs and capital construction costs is an increase of less than 17% over the same combination during the current biennium. Additional expenditure recommendations are in the areas of state aid to local sub-divisions, an area which is distinct from state government operations.

I see no way that this budget can realistically be reduced.

Aid Programs

It is essential that the aid programs begun during this biennium be continued at least at the same level during the next biennium. These are the programs which not only will encourage the development of educational excellence in your youth, but are also the programs which will bring local property tax relief to all of our citizens.

No state agency is operated with these funds. Local schools, counties, cities and junior colleges use all of the money in these programs. To say that this money is part of the cost of operating state government is wholly inaccurate and I have tried to make this point time and again during the past two years and I hope you have too.

It is important that you join with me in making all citizens aware of this. Unless they are aware of this and thereby focus their attention on the management of local sub-divisions of govern-

ment, the property tax relief promised by these programs cannot be forthcoming.

State government doesn't spend this money—local governments do. It is a lot of money—I am recommending \$71 million in these programs for local government to spend.

Where is the Money Being Spent?

It may come as a surprise to many of you to discover how few agencies in state government account for the total expenditure of general fund revenue.

Although there are 51 agencies in state government that receive money from the general fund, 6 agencies by themselves account for over 80% of the general fund agency operating expenditures. These agencies are the University of Nebraska, The Department of Education, the state colleges, The Department of Institutions, The Department of Public Welfare and the State Patrol.

If you add simply five other agencies—The Department of Health, The Board of Educational Lands & Funds, The Game Commission, The Tax Commissioner, and The Department of Administrative Services—you have 11 state agencies receiving almost 90% of general fund agency operating dollars.

Any discussion of budgetary size or budgetary composition must, irresistibly, therefore, focus on these larger agencies. Let me discuss them.

University of Nebraska. On countless occasions I have pledged to the citizens of Nebraska my trust in developing educational excellence in our state. I intend to keep my pledge. The composition of my budget reflects this intent.

Once again, my largest single agency recommendation for general operating funds is the University of Nebraska. The total general fund recommendation for operating funds that I am making for the University is \$85.4 million, an increase of approximately \$30.5 million over the current biennium.

Let me make a comment or two to explain this increase.

First, the University is presently spending money at the rate of \$31.2 million per year. To simply continue this for two years requires \$62.4 million. Adding in the cost of living and inflation increases that I have recommended for all state agencies brings the pure continuation budget to \$70.7 million.

Second, workload increase accounts for the remaining \$15 million. Part of this—\$6 million—is attributable to increased enroll-

ment. More students require more staff. Another large portion—\$5.3 million—is budgeted for personnel and facilities needed for staffing buildings just completed. The University hospital, the chemistry building, Kimball Hall, the seed laboratory—these are all examples of newly constructed buildings that must be staffed to be productive. The remainder of the \$15 million is in the shoring up of the extension program, increased agricultural activities, and increased organized research.

What I have tried to do in my budget recommendations for the University is to insure the continuation of educational progress we have made during the present biennium. We have a great university. It would be to our discredit to permit it to deteriorate and I will not allow it to happen.

During this biennium, we have given greater financial assistance to the University than during any other biennium in the state's history. I urge you to continue this spirit. The amounts recommended in my budget for the University are not dreamy, esoteric amounts. As I have just described them to you, they are hard-line, but at the same time progressive. As the educational system moves, so the state moves.

State Colleges. The problems faced by the state colleges are much the same as those faced by the University. Increasing enrollment, competition for faculty, economic limits on tuition increases, need for expanded physical plant, and an ever-expanding horizon of areas in which they feel qualified and capable of providing services to the public.

My response has been the same as my response to the University. I have budgeted for a continuation of that progress during the forthcoming biennium. In the state colleges I have recommended an increase from \$10.8 million to \$14.5 million operating funds.

Approximately \$2.8 million of this increase reflects continuation of present services and an additional \$1 million is attributable to enrollment increases. To upgrade the teaching load, I am recommending slightly less than \$1 million designed to reduce the present heavy teaching load at the colleges to a more manageable level competitive with comparable institutions. Finally, I am recommending that the recently constructed fine arts building at Kearney be staffed.

Department of Education. It probably comes as no surprise to you to find that the Department of Education is one of the six largest spending agencies utilizing general fund revenues. This agency has as varied a responsibility as any agency in state govern-

ment. It includes special education programs, vocational education aid, vocational rehabilitation, education of deaf students, education of visually handicapped students, administration of the state aid to education programs, and many others too numerous to list. The possibility of exciting, new, productive programs is as great in this agency as in any agency in state government.

It is in the budget of this agency that I have placed funds of \$1 million to create a vocational-technical school on the near north side in Omaha. My feeling on this item is as strong as on any item in my budget. We all know the pressing need for vocational-technical school graduates. Nowhere is that need greater than in Omaha where industrial development is so rapid. Likewise, nowhere are there citizens of our state who need the vocational training as in the near north side of Omaha.

Department of Public Institutions. The Department of Public Institutions is the agency of state government where you and I as elected representatives of the citizens of Nebraska can best display our compassion to our fellowman. I have recommended \$56.2 million be spent in the Department of Public Institutions during the upcoming biennium for operating expenses, an increase over the current biennium of \$8.7 million. I cannot imagine a more satisfying expenditure of funds.

We are planning to continue our development toward more community-based care for our mental patients. This budget provides for this development. In mental health, we have intensified our therapy in our mental hospitals by separating the senile patients from the mentally diseased patients. We have accepted the mentally diseased patients for treatment and have urged the senile patients to locate in nursing homes. By continuing this approach and by providing more staff in the upcoming biennium, we can reduce our staff-to-patient ratio to a level at which the patient will have a much greater opportunity to receive the treatment needed to handle his mental disease.

If my recommendations are approved, the mentally retarded in Nebraska will have a much greater opportunity to lead productive, happy lives than now. The present staff-to-patient ratio at the Beatrice State Home is at approximately 35% of the hospital staffing pattern advocated by the American Association on Mental Deficiency. This is a shameful ratio. My recommendations would increase the staff-to-patient ratio to 45% of the standards, still by no means a satisfactory ratio but one which we certainly can afford and must afford if we are going to make at least the minimal effort.

I am urging the Legislature to consolidate mental retardation programs in the Department of Institutions. Currently, some re-

sponsibilities for treatment of the mentally retarded lie in the Department of Health. If this consolidation is accepted by the Legislature, an additional \$2.5 million will be transferred from the Department of Health to the Department of Institutions. This money is designed as the state share of state-community funds devoted to day care centers in communities throughout the state. We propose that the state provide 60% of the resources and the communities 40% of the resources to build and operate these centers. Research in mental retardation has proved that many of the mentally retarded can live satisfying and productive lives provided they remain in the communities with the friendships and associations that the community provides.

My recommendations provide for the staffing of the newly completed Soldiers' and Sailors' Home Hospital in Grand Island, a building which will be completed during this session of the Legislature and which will provide hospital care for Nebraska veterans and their families.

Funds have been provided for the creation of a juvenile parole system so that juvenile offenders in the state can be treated separately and distinctly from adult offenders. The two offenders present different kinds of problems for society and the solutions should be tailored differently for each of the problems.

Currently we have 27 vacancies among guards at the State Penitentiary and a large number of vacancies among personnel at our security ward at the State Hospital in Lincoln. For the protection of society, it is essential that these posts be filled and they cannot be filled without upgrading the salaries to make those positions competitive with comparable positions in the market place. This budget provides for such salary upgrading.

Department of Public Welfare. It has become popular to find bad connotations in the use of the term public welfare. We should not forget, however, that the services provided by the Department of Public Welfare to the homeless, the blind, the old, the dependent children, and the medically poor are of the highest importance and benefit, both to the recipients and to those who provide those services.

This budget recommends an increase from \$26.4 million in this department's operating expenses to \$34.9 million. The bulk of this increase is attributable to the fact that medical costs are forcing increases in the amount the state must provide for services to those receiving Medicare and Medicaid. We cannot expect the medical vendors to absorb for the rest of society the increased cost of their services to the medically indigent.

Do not be misled in this area. Almost no able-bodied persons capable of working are receiving public welfare payments. Those who are receiving public welfare payments are those persons who are unable to work, not because of any interest in being unemployed, but because of certain handicaps.

State Patrol. My recommendation for the budget for the State Patrol, the final one of the larger state agencies, is an increase from the current biennium's \$8.5 million to \$10.6 million. This is simply a continuation of current programs in an effort to consolidate the gains made in this biennium. No additional patrolmen are provided for in this recommendation. It is our responsibility to the citizens of the state to retain the fine organization that is our State Patrol and to provide the service throughout our sprawling network of highways that only the Patrol can provide.

All Agency Guidelines

Let me emphasize that in all of these large agencies, as well as in all of the other agencies in my budget, the emphasis has been on programs designed to provide continuing services only. By this I mean that I have emphasized meeting simply the needs of state government, needs which have been recognized either through previous action by this Legislature or by the creation of new situations operating outside of government.

I have recommended annual salary increases of 5% to make sure that real income to state employees is not eroded by cost of living increases unmatched by comparable salary increases. A 3% inflation factor has been budgeted on all non-personal services items, items in which the price simply has increased because of inflation. Positions not filled have been removed from agency staffing patterns and continuation budgets on personal services have been calculated from this reduced staffing pattern.

Using these guidelines, my budget for continuing services in these six large agencies that have been provided during the present biennium amounts to \$208 million. The total of operating budgets for these six agencies is only \$214 million. In other words, over 97% of the budget for these agencies is simply to continue services that are now in existence. In my budget document this amounts to the totals of the continuation and workload increase items.

These figures are typical of all agencies. This is why I label my budget a continuation budget.

The few programs I have recommended which will provide new or improved services are not frills. They include such programs as an increase in appraisors in the Board of Educational Lands &

Funds to expedite the sale of school lands as directed by the Legislature, an increase in the budget of the Department of Administrative Services to expedite the development of a personnel system, again as urged by the Legislature, development of a state water plan as directed by legislative resolution, a minimum contributory insurance program for state employees, creation of an insurance program for state vehicles as required by statute, operating phase one of the telecommunications plan as directed by state statute, etc. These are hard-line items; items which cannot be placed in the category of frills.

Capital Construction

Many of our buildings have not been maintained over time as they should have been. Similarly, many in the past never had the careful inspection of trained experts to determine whether there were fire and safety hazards that had been incorporated in their initial construction or had developed over time. These chickens have come home to roost. We now must make the repairs to the buildings which should have been made over the past decade.

One of the guidelines I have taken in capital construction in this budget, therefore, is to retain the good facilities that we now have by putting them into a safe and useful condition. Of the \$15.4 million I have recommended for capital construction, \$6.3 million of this is devoted to maintaining buildings in their present working condition and renovating them so that they comply with fire and safety laws of the state. To do less would be to endanger those who are inhabiting those buildings, a price that I do not feel this government wishes to assume.

Another guideline I have used is to recommend in my budget the construction of those buildings which the Legislature has previously recommended. In other words, the legislative study recommendation is for construction of the Lincoln State Hospital Medical Building. I have this in my budget. Likewise, the Legislature previously appropriated funds to build a gym at the Kearney Boys' Training School. This gym burned down, and I have in my budget funds to replace it. Likewise, the funds for the Agriculture-Health Laboratory Building were appropriated in part during the current biennium appropriation, but not sufficient funds were appropriated to build the laboratory building. I have recommended in my budget sufficient funds to build that facility.

As a point of interest, I should point out that just as in agency operating budgets, the capital construction budget is composed primarily of funds appropriated to four agencies—The University of Nebraska, the state colleges, The Department of Institutions, and The Game and Parks Commission. 93% of the general fund capital

construction money in my budget is recommended for those four agencies.

What has not been Covered in my Budget?

The total agency general fund request amounted to \$548 million. This is by far the largest general fund agency request ever submitted to a Governor in the State of Nebraska. I find no fault with the agency heads for submitting such requests. That is their sincere opinion of what is required to run their agencies the way they should be run to provide the services that they feel the citizens of Nebraska demand.

Nevertheless, I have cut \$219 million from those requests. These cuts have not been easy ones, since many of the programs which are included in the requests of the agencies and which I have not recommended in my budget are programs which I support.

I have not funded these programs even though I support them, because I sincerely feel that this two-year period should be a consolidation and a settling period to permit the state to absorb the programs instituted by the past Legislature.

I have not funded these programs for another reason also: There are programs which will be considered by this Legislature during the course of this legislative session which will cost money to implement. I am referring to such programs as utilizing some portion of general funds for highway construction, implementing many of the Little Hoover Commission recommendations, expanding aid to higher education, co-ordinating all higher education in the state, expanding vocational-technical educational opportunities, fully implementing the opportunities presented by the Juvenile Delinquency and Prevention Control Act and the Omnibus Crime Bill, etc. I will actively support many of the bills designed to implement these subjects, and I will urge you to support them also. They are not items which I can at this time place in my budget since they are not presently cast in such a form that I can include them in any particular agency's budget.

Similarly, there are some expenses which have already been incurred such as the cost of running the Legislature during this session.

Finally, there are before you some requests for deficiency appropriations, appropriations to cover expenditures greater than the amount appropriated by the Legislature during the current biennium. These deficiency appropriation requests are deserving of your careful consideration. Many of them could not have been avoided regardless of what management practices were followed.

Revenue

As I mentioned earlier, I have been unable to reduce this budget to fit within the terms of the current tax rate. This is what I said to you earlier during the special session of the Legislature and this is what I now repeat to you. My budget can be funded by a 10% income tax and a 2½% sales tax. It cannot be funded by a 10% income tax and a 2% sales tax.

By formula, the income tax rate is determined by whatever action the Legislature takes on the sales tax and other taxes. Although the State Board of Equalization and Assessment announces the rate, the rate itself is determined by what is done by this Legislature with respect to the sales tax rate and the budget. There is nothing magical or mystical about it, and the State Board of Equalization and Assessment has no flexibility in determining what the income tax rate will be.

During the special session of the Legislature I presented to you my convictions about retaining the sales tax rate at 2½% and financing the budget which I am now recommending to you and which I presented previously to you in the special session. You determined at that time that you did not want to so retain the sales tax rate without first analyzing for yourselves the revenue and expenditure picture.

The determination of the size of the budget is now one for you to make. The respective taxes to produce the revenues necessary to meet that budget is also now one for you to make.

It is my responsibility as Governor of the state, to urge upon you this budget which has been carefully prepared and carefully pruned. A budget less than the one which I am recommending would be destructive to the progress that we have made in the state.

One word on the amount of revenue we can expect to get from our sales and income taxes. You are aware that the sales tax is producing more than we had estimated. This can be deceptive. When the estimates were made, we had no experience at all with either the sales or income tax. It was essential that we estimate conservatively at that time.

Now, we have experience. We can estimate with much greater certainty what our taxes will produce. I urge you, therefore, not to conclude that we will be receiving more revenues than we are now estimating. That kind of fiscal approach could be devastating.

Budget Procedure

Let me close by making a few comments on budgeting procedures.

First, I have discovered that it is essential for clear and cogent budget presentation by the executive to the Legislature that the executive be provided with sufficient staff to make a continual in-depth analysis of the operations of all significant money agencies in state government. I have pointed out to you the 6 to 11 agencies which account for 80% to 90% of the general fund money appropriated. It is my feeling that most of those agencies should have a separate budget analyst from the budget office of the Department of Administrative Services assigned full-time responsibility for reviewing and analyzing budgetary implications of the operations of that agency.

Secondly, it is essential that the budgeting process be a continual process, not one which begins six months or one year prior to the convening of the Legislature.

Thirdly, I believe that there should be a review annually of the fiscal condition of state government by the Legislature. Whether this is done with standing committees which have been given the authority to speak for the entire Legislature, whether it be done by an interim special budget session, or whether it be done by the process of recessing the Legislature rather than adjourning it seems die at the conclusion of the regular session seems immaterial at this point. What seems essential is that a periodic review be made of the fiscal affairs of state government at least annually. This cannot be done in the Legislature's absence. To that end, I urge that the Budget Bill establish annual appropriations.

And finally, there should be continual dialogue between my budget office and your fiscal office so that any disagreement you and I may have will be over policy and not over the validity of facts.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

NINETEENTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, January 31, 1969

Pursuant to adjournment, the Legislature met at 10:00 a.m., Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, we are grateful for the rest during the past night. May we be equipped for giving a good accounting of ourselves during this new day.

May we work aright together so we may have no inner qualms of confusion.

May we speak aright together; not from too hasty impulse or fearful silence, but from measured thought.

Beyond the inevitable tedium which faces each of us, may Thy servants have Thy inner light that they may help dispel the outer darkness. In the name of our Lord who strengthens us. Amen.

The roll was called and all members were present except Messrs. Batchelder, Carpenter, Harsh, Klaver, Knight, Mahoney, Moulton, Pedersen, Robinson, Skarda and Syas, who were excused.

 Wednesday, February 5, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
 President Everroad presiding.

Prayer was offered by the Rev. W. L. Van Auken.

Prayer

Father of our Lord Jesus Christ, whose face is ever seen in the Christlikeness of those about us and whose voice is heard when the loving just is spoken, keep us mindful of the term of our short years. Forgive us if we waste away times which are precious to Thee; if we abuse the better intentions or aspirations of thy eternal design; or give our strength to vain things. As Thou dost make all things new continually, so let us live afresh on this day; cleansed to take up our labors without the strains of yesterday, and freed to serve with newness of heart. Amen.

RESOLUTIONS

LEGISLATIVE RESOLUTION 15. Re: Commending Czechoslovakian Students

Introduced by Willard H. Waldo, 31st District.

WHEREAS, during the summer of 1968, students in Czechoslovakia supported and waited anxiously while their leader Alexander Dubcek faced Leonid Brezhnev and the Russians, first in Cierna then at Bratislava. When Dubcek held firm and the Russians left, Czechoslovakian students, including those in our chambers today proclaimed the new democracy, the new freedom. Like thousands of other young Czechoslovakians, these five cried in outrage as freedom ended and the occupation by the Soviet Union began. For almost a year freedom flourished in Czechoslovakia. Then the troops of the Soviet Union moved across the frontier. The courage of these young people who left their homeland to enjoy the freedom they knew for only a few months, mocks the Soviet invasion; and

WHEREAS, Paul and Marianna Karas, Sidonia Kantner, Eva Fleischman, and Jaroslava Holas chose freedom rather than the hammer and sickle of the Soviet Union; and

WHEREAS, the United States government made refuge possible so that the thirst for freedom could be quenched by democracy; and

WHEREAS, Doane College has provided these refugees with the opportunity to continue their education in a free society in an area populated by Americans of Czechoslovakian descent; and

WHEREAS, the communities of Crete and Wilber, Nebraska, have offered homes and support for these Czechoslovakian refugees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That Doane College is commended for its leadership in providing for the educational needs of these young men and women and the communities of Crete and Wilber for opening their hearts and homes.

2. That this resolution commending the courage of these young people who, by their example, prove that freedom burns brightly in the hearts of the young, be part of the official record of the proceedings of Legislature.

The clerk introduced Paul and Marianna Karas, Sidonia Kantner, Eva Fleischman and Jaroslava Holas from Czechoslovakia, students at Doane College.

Mr. Waldo introduced Mr. Hein from Doane College, with the group of students.

LEGISLATIVE RESOLUTION 16. Re: Appreciation Given in the Storm Areas

Introduced by J. James Waldron, 42nd District; Elvin Adamson, 43rd District; William M. Wylie, 40th District and Leslie A. Stull, 49th District.

WHEREAS, the citizens of this state are very dependent upon electrical energy for residential, farm, ranch, industrial and commercial uses; and

WHEREAS, extreme weather conditions can cause severe damage to the facilities which provide this electrical energy; and

WHEREAS, the middle-west section of our state recently experienced an ice storm which did untold damage to the electric facilities in the storm area.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That the Legislature hereby expresses its appreciation for the extraordinary efforts of the men in the storm area and to the men from the various power districts who came to the storm area with equipment and material to restore electric service as quickly as possible to the farms and ranches against the most adverse working conditions, and to the Nebraska National Guard and Civil Defense for the assistance given to those farms and ranches without service in the storm area.

Member Excused

Mr. Waldron asked unanimous consent to be excused for Friday, February 7. No objections. So ordered.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

TWENTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, February 10, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Lord, our God, in the midst of the perplexities which confuse us, doubts which torment us, and rivalries which divide us, give us a faith and a compassion which will unite us.

We are grateful for the differences represented in this legislature, differences which alone can focus new light on our issues. May we debate with fervor and disagree with understanding, but underneath our differences wilt Thou show us anew that a house that remains divided cannot stand, let alone lead our people to unity and peace and prosperity.

With all our differences, may we still be "one people under God, indivisible, with liberty and justice for all." Amen.

The roll was called and all members were present except Messrs. Adamson, Batchelder, Holmquist, Johnson and Wiltse, who were excused.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

TWENTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, February 11, 1969

Pursuant to adjournment, the Legislature met at 9:05 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, our Father, we are grateful for leaders of the past who stand out as peaks among the foothills. May we not by mere repetition lose the message that "we hold these truths to be self-evident, that all men are created equal; that they are endowed by their creator with certain inalienable rights, among which are life, liberty and the pursuit of happiness."

As it becomes evident that freedoms and ideals are never won once and for all, but must require continual vigilance, may this body dedicate itself to the goals which have made our nation great, and apply them in present decisions.

In our Lord's name. Amen.

The roll was called and all members were present except Messrs. Batchelder and Skarda, who were excused.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

TWENTY-SEVENTH DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, February 12, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Ten "Cannois" by Abraham Lincoln

"You cannot bring about prosperity by discouraging thrift."

"You cannot help small men by tearing down big men."

"You cannot strengthen the weak by weakening the strong."

"You cannot lift the wage earner by pulling down the wage payer."

"You cannot help the poor man by destroying the rich."

"You cannot keep out of trouble by spending more than your income."

"You cannot further the brotherhood of man by inciting class hatred."

"You cannot establish security on borrowed money."

"You cannot build character and courage by taking away man's initiative and independence."

"You cannot help men permanently by doing for them what they could and should do for themselves."

Prayer was offered by the Chaplain.

Prayer

Our father's God, and ours, we pray today for the nation that the fathers founded. We lift to Thee grateful hearts for the heritage that is come down to us, bought by other toils and other tears than our own. For greater character that has been woven into our national fabric, blessed be Thy name. Help us this day with vivid vision to see men of old who feared Thy name and handed on to

us the torch of the nation's righteousness. Especially do we give Thee thanks for the unselfish service and the stainless record of that calm and courageous leader whose crystal spirit and whose calm sword were Thy instruments in preserving our union. As we cherish his deeds and recall his words, may we be his spiritual sons and daughters in furthering that government of the people, by the people, and for the people. In His name, we pray. Amen.

The roll was called and all members were present except Messrs. Kokes and Skarda, who were excused; and Mr. Duis excused until 9:30 a.m.

RESOLUTIONS

LEGISLATIVE RESOLUTION 17. Re: Sec. 9 of Motor Vehicle Inspection Rules and Regulations.

Introduced by J. James Waldron, 42nd District.

WHEREAS, the Department of Motor Vehicles has filed its rules and regulations as provided by section 84-904, Revised Statutes Supplement, 1967; and

WHEREAS, section 84-904, Revised Statutes Supplement, 1967, provides that such rules when considered by the Legislature may be altered, rejected, changed, amended, or modified in such manner as it deems advisable; and

WHEREAS, the Legislature finds that section 9 of motor vehicle inspection rules and regulations of the Department of Motor Vehicles should be rejected.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

That section 9 of the motor vehicles inspection rules and regulations of the Department of Motor Vehicles as filed with the Legislature be rejected.

LEGISLATIVE RESOLUTION 18. Re: Burlington Trains 42 and 43.

Introduced by J. James Waldron, 42nd District; Leslie A. Stull,

49th District; Elvin Adamson, 43rd District; Donald Elrod, 35th District; Roland A. Luedtke, 28th District; Orval Keyes, 3rd District; John E. Knight, 26th District; Henry F. Pedersen, Jr., 4th District; Harold D. Simpson, 46th District; Maurice A. Kremer, 34th District and Leslie Robinson, 36th District.

WHEREAS, the Burlington Railroad desires the discontinuance of trains 42 and 43 between Omaha and Billings, Montana, and would eliminate needed passenger service along this route through Nebraska; and

WHEREAS, passenger rail service, both medium and long distance, and high speed, is an essential, useful, and valuable service which is a necessity in Nebraska and should be preserved, improved and expanded; and

WHEREAS, as a common carrier the railroads have an obligation towards the public that is on a higher plane than that of ordinary private business; and

WHEREAS, continuation of passenger rail service is required for the public convenience and necessity; and

WHEREAS, loss of passenger train service will affect the final isolation of central and western Nebraska; and

WHEREAS, rail travel is more comfortable, safer and is the only dependable all-weather transportation service, which is important in the severe Nebraska winters; and

WHEREAS, there will be no public transportation between Broken Bow and Alliance, which will work a hardship on older people who cannot drive automobiles and will be without a means of transportation;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

That the Nebraska Legislature believes that the operation of passenger trains are needed in Nebraska and are warranted by public necessity and convenience. Therefore, every effort must be made to convince the Interstate Commerce Commission that passenger trains must be retained for the protection of the economy of Nebraska and positive government action needs to be taken to aid, encourage and promote rail passenger service, including equal treatment for railroads by government in relation to other forms of transportation.

Legislative Chamber, Lincoln, Nebraska
Thursday, February 13, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

It is our desire to offer thanks for Thy goodness, mercy and justice, and for the privilege of seeking to meet the challenge of another day.

As we labor to understand, let us also labor to love and serve in the time and place where You have willed us. By the prompting of Thy spirit, let the words of our mouths and the meditations of our hearts be acceptable in Thy sight, O Lord, our strength and our redeemer.

Help us to feel ourselves the servants of all and that we may live and work and love in such a way You will never regret that You made us.

This is our prayer, for now. Amen.

The roll was called and all members were present except Mr. Keyes, who was excused.

The Journal for the Twenty-seventh Day was approved.

Prayer was offered by the Chaplain.

Prayer

Eternal God, amid the pressures and confusions of our time, may we receive Thy aid in developing patience; patience with our colleagues so we may give and receive ideas upon which decisions are based and not be swayed by prejudice; patience with our daily tasks when the right answers are not easily found; patience with life so we may develop an abiding faith which enables us to come to terms with the issues before us and work for their solution without bitterness; patience with ourselves that we may take time to grow; and patience with Thee that we may learn to trust in Thy providential care for us and all men. Amen.

The roll was called and all members were present except Messrs. Holmquist and Kennedy, who were excused.

THIRTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, February 21, 1969

Pursuant to adjournment, the Legislature met at 8:30 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, our loving Father, may we become more aware of the immediate concerns of our state—the minute problems confronting the various districts and the pleadings of our constituents. But keep ever before this significant body the eternal and all-encompassing goals upon which smaller issues must be measured: to love mercy; to right wrongs; to live for justice, and to serve Thee, our God, and our fellowman as we would serve ourselves. We pray in our Lord's name. Amen.

The roll was called and all members were present except Messrs. Klaver and Knight, who were excused; and Mr. Proud excused until 9:00 a.m.

Prayer was offered by the Chaplain.

Prayer

Eternal God, with all of the tediums and routines which must be faced may we never lose the wonder and mystery of our existence. We pray for all of us who are passengers on this little space ship in an infinite universe. We need certitude that our voyage has a purpose. Wilt Thou give us inner assurance that Thou art with us on this pilgrimage? With confidence, may we make our decisions. In the midst of perplexing confusions, may each of us have that unpurchaseable gift—Thy peace, which the world cannot give nor take away. In our Lord's name. Amen.

Messages from the Governor

February 24, 1969

The President, the Speaker and
Members of the Legislature
State Capitol
Lincoln, Nebraska

Senators of the Eightieth Session:

I am returning to you herewith LB 8 without my signature for the following reasons:

1. The Attorney General's opinion of February 17, 1969 (a copy attached) quite strongly suggests that LB 8 in its present form, may be unconstitutional. In addition to the reasons assigned in the written opinion of the Attorney General, the bill would apply to nonpublic colleges as well as to public institutions of higher education. In that connection, the bill might conflict with the constitutional concept of separation of church and state, if it were applied to colleges having a religious denominational affiliation. Moreover, even as to private colleges with no religious affiliation, the bill (especially the provision calling for removal of the chief administrative officer) might be questioned as an improper and undesirable

interference with the internal affairs management of such institutions.

2. It appears to be almost a foregone conclusion that, if enacted in its present form, LB 8 will be the subject of litigation to test its constitutionality. Because of its precarious constitutional validity, this could produce undesirable consequences. For instance, in the event the bill were declared invalid in such a court test, the result might be to discourage further interest in the enactment of legislation in this area—a circumstance which might lend itself to misinterpretation as minimizing the seriousness of the subject.

3. I would suggest that any legislation on this subject is premature, until and unless it becomes clearly apparent that college administrations are unable or unwilling to exercise adequate disciplinary procedures.

4. I find absolutely no evidence that supports the contention that the college administrations or their governing bodies are either knowingly condoning drug usage or are not willing to impose sufficient penalties on the offenders. Evidence is available that the various administrations have acted quickly and fairly.

5. Additionally, if in the judgment of the Legislature a problem exists on our college campuses with regard to cannabis, then it must follow that the same problem exists with regard to other narcotics, such as LSD, heroin, etc.

6. National press refers to a drug addiction problem in our secondary schools, yet LB 8 refers only to colleges of higher education. It is respectfully suggested that if this matter is to be given study, the entire problem be reviewed.

Respectfully submitted,

(Signed) Norbert T. Tiemann
Governor

February 17, 1969

Senator J. James Waldron
Nebraska State Legislature
State Capitol
Lincoln, Nebraska

Dear Senator Waldron:

We have your request for our opinion as to the constitutionality of Legislative Bill 8. Under the terms of that bill, any college student found guilty of possession of marijuana would be subjected to

a mandatory thirty day suspension from the college and the presiding officer of any college who failed to suspend any student so convicted would be ordered "removed from office" as a part of the sentence. We are unable to find any reported court decision involving an interpretation of a statute sufficiently similar to L. B. 8 so as to enable us to give any really definitive opinion on the matter. It is quite evident, however, that some serious constitutional considerations are present.

We may approach the matter upon the basis of the general proposition to the effect that, without question, the Legislature may impose reasonable regulations upon the conduct of students enrolled in colleges within the state and that, in a proper situation, the Legislature could provide that a student be subjected to suspension or expulsion. Fundamentally, the constitutional criterion is the reasonableness of such legislation.

We find only one reported decision which in any way deals with the matter of discipline of a college student as a result of possession of marijuana. In *Moore v. Student Affairs Committee of Troy State University*, 284 F. Supp. 725 (1968), a student, who had been suspended for possession of marijuana in a campus dormitory in violation of state law, instituted a civil action to compel his reinstatement. The federal court found that the action of the Student Affairs Committee and the college administration in ordering suspension of the student were proper. Although the decision in that case clearly stands for the proposition that possession of marijuana by a student on college property is just grounds for suspension, the greater significance of the case lies in the language of the opinion wherein the justification for such action is delineated. For example, the court said:

"This Court has previously expressed itself on the question of campus regulations, and the duty of school administrations to maintain order and discipline on their campuses in an environment suited to education. * * *"

Further, speaking of the warrantless search of the student's living quarters, the court noted that a student "is subject only to reasonable rules and regulations" and that a student's rights must yield only "to the extent that they would interfere with the institution's fundamental duty to operate the school as an educational institution." The court emphasized the fact that "presently in our society, education is no longer a luxury but a necessity" and that "the privilege of attending public educational institutions must be recognized as a right for those qualified to meet the academic requirements and whose conduct does not interfere with the orderly operation of an educational institution."

Under the terms of L. B. 8, a student convicted of marijuana possession would be subject to a mandatory thirty day suspension, even though the act of possession may have occurred at some location far removed from the campus and under circumstances which could not possibly "interfere with the orderly operation" of the college nor constitute a threat to the maintenance of "order and discipline on their campuses in an environment suited to education." In view of the unrestricted reach of the bill with respect to the time, place or circumstances of the possession of marijuana, we believe that in the event of a constitutional test the bill would be very hard-pressed to survive an attack on the grounds of unreasonableness and arbitrariness.

The basic constitutional infirmity which inures in the student suspension provision of the bill, of course, also pervades the provision with respect to the presiding officer of the college being removed from office upon conviction of the offense of failure to suspend a marijuana possessing student. In addition thereto, as to this latter provision, there appear to be further constitutional obstacles which may prove to be insurmountable. What are the consequences of a presiding officer being "removed" from office? Is the removal for the remainder of the current academic year? Is the removal for the remainder of the term of the presiding officer's contract? Is the removal a bar to ever again occupying the position of presiding officer of the college? Is it a ban to ever holding such position in any college of higher education? One of the underlying principles of constitutional due process is that a penal statute must be sufficiently certain and free of vagueness that no one shall be required, at the peril of life, liberty or property, to speculate as to the meaning and reach thereof. This principle is equally applicable in regard to the penalty provision as it is with respect to the definitive provision of a criminal statute. 21 Am. Jur. 2d, Criminal Law, § 17, p. 97, et seq.

The Constitution of Nebraska, Article I, Section 9, forbids the imposition of any cruel and unusual punishment; and Article I, Section 15, requires that all penalties shall be proportionate to the nature of the offense. Serious question could arise as to whether either or both of these Bill of Rights guarantees do not inhibit the Legislature from imposing such a harsh penalty as removal from office of the presiding officer of a college who is found guilty of a comparatively minor offense—and an offense which, by no means, necessarily involves any degree of moral turpitude.

Nothing which we have said herein should be taken to suggest that no legislation or administrative regulation may be exercised over the possession of marijuana by college students or that sanctions, such as suspension, may not be provided within constitutional boundaries. We simply feel that the proposed bill here under

consideration might very possibly be found to transcend applicable constitutional limitations and restraint.

Very truly yours,

LEGISLATIVE BILL 394. E and R amendments found in the Legislative Journal for the Thirty-fifth Day were adopted.

Mr. Carpenter offered the following unanimous consent amendments:

Section 1. That section 77-507.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-507.01. In addition to the authority conferred by sections 77-506 and 77-507, the *State Board of Equalization and Assessment Tax Commissioner*, in cases brought to its ~~his~~ attention by the *Tax Commissioner*, shall have authority to direct the *Tax Commissioner* to review any changes made by the county board of equalization and assessment in valuations established by any general reappraisal of all lands and improvements in the county, and, *on the recommendation of the Tax Commissioner after such review*, to make such corrections and adjustments as such changes shall necessitate whether for classes of property or for individual parcels thereof.

Section 2. *Any county may request a hearing under the provisions of the Administrative Procedures Act before the Tax Commissioner recommends action to the State Board of Equalization and Assessment makes any corrections or adjustments. Appeal from the action of the Tax Commissioner may be made by the county pursuant to section 84-917.*

(Section 2 is the amendment Senator Adamson put in on the floor. While a hearing can still be held by the Tax Commissioner at the request of the county involved, appeal now would have to be to the Nebraska Supreme Court as are all appeals from the action of the State Board of Equalization and Assessment rather than district court appeal mentioned in 84-917.)

Section 3. That original section 77-507.01 Reissue Revised Statutes of Nebraska, 1943, is repealed.

Amendments pending.

Communications

Letter from Jack McBride, Secretary, Nebraska Educational Tel-
evision Commission.

February 19, 1969

Mr. Hugo Srb
 Clerk of the Legislature
 State Capitol Building
 Lincoln, Nebraska 68509

Dear Mr. Srb:

Pursuant to Legislative Resolution #1, 79th Session, the Nebraska Educational Television Commission invited bids for the construction of the proposed Nebraska Educational Telecommunications Building. Bids have now been received and reviewed by architects. The Commission herewith reports to the Legislature on costs attendant to construction of the building.

The Commission is advised that the following costs pertain:

180 day low bids

with alternates:	\$2,923,086	General, Mechanical and Electrical Contracts
	115,000	East Campus Utility Extension
	100,000	Furniture & Fixtures
	173,914	Electronic Equipment
	88,000	Construction Contingency (3%)

\$3,400,000

In addition, it will be necessary to encumber for the 1969-71 biennium the balance of the \$250,000 planning appropriation made to the Commission by the 1967 Legislature (an estimated \$86,146), to handle remaining architects fees and supervision as the building is constructed.

The above bids are based on formal acceptance prior to August 4, 1969. Contractors cannot legally be held to their quotes beyond that date. Should the Legislature authorize the Commission formally to accept contractors' proposals prior to April 6, 1969 (60 days), a savings of \$69,108 can be effected for the State.

All available and usable equipments would be transferred to the proposed new building whose occupancy is estimated for Spring, 1971. Necessary additional technical and production television equipments are contained in five applications currently before the Department of Health, Education and Welfare for federal funding over the next three to five years through the Public Broadcasting Act.

The only other cost attendant to the proposed new structure is a building maintenance item of \$23,605 (1/8th biennium) contained in the University of Nebraska budget request. Inasmuch as the telecommunications building would be located on the East Campus immediately north of the Center For Continuing Education, the ETV Commission proposed to contract with the University for custodial and building maintenance services.

Should there be any questions, the Commission will be pleased to elaborate. Because the need for the building is so imperative and the urgency for action so necessary, the Nebraska ETV Commission is most hopeful that positive and early action will be taken.

Sincerely,

(Signed) Jack McBride
Secretary

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FORTY-FIRST DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 4, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O Father God, who art the light of all our seeing, we thank Thee for this quiet moment when facing human issues, with heavy responsibilities committed to our hands, trusting a strength and a wisdom not our own, we can look away from things seen to things unseen and confidently express our faith—in God we trust. In the secret places of the inner life may there be those spiritual deposits, that strength of conviction, that loyalty to ideals, that vision splendid of faith and hope that shall give poise and courage and an undeviating devotion to the right, as Thou dost give us to see the right. May we highly resolve to give all and to dare all, and may our glad hearts thrill at the beckoning challenge of being partners with Thee, our Redeeming God, in building a society where righteousness and justice shall one day cover the earth as the waters cover the sea. Amen.

The roll was called and all members were present except Miss Reynolds, who was excused and Messrs. Danner and Waldron, excused until 9:30 a.m.

Member Excused

Mr. Batchelder asked unanimous consent to be excused from 11:15 a.m. to 2:00 p.m. today. No objections. So ordered.

FORTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 5, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father God, again at the dawn of a new day we turn unfilled to Thee. Take Thou the dimness of our souls away. Facing fresh duties, we would first search our own souls. May Thy holy powers of renewal be felt in every heart, and may all that has been withered in us be spiritually restored. May weights of despair be changed to wings of hope. May disappointments be changed into radiant expectations. May any bitterness or selfishness lurking in our hearts be transformed into a love that thinketh no evil and seeketh not its own. Scorning expediency and false compromise, may we be true to all truth the world denies, not tongue-tied by any lies, or persuaded by the wrong pressures, but faithful to the light which Thou hast placed within us. Amen.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FORTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 6, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, into the calm and confidence of Thy presence we would bring our drained and driven souls that the benediction of Thy peace may fall upon our restless lives. In this difficult year of many decisions, be Thou our pillar of cloud by day and our fire by night, as patiently and obediently we strive to follow the light which Thou hast placed within each of us.

Save us from living on a small scale in a great day, from toying with the tiny when we ought to be lured by the titanic. In these days of decision, be swift our souls to answer Thee, be jubilant our feet! So through our actions may Thy purposes be furthered. In Thy name. Amen.

The roll was called and all members were present except Mr. Waldo, who was excused, and Mr. Carstens excused until 11:00 a.m.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FORTY-FOURTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, March 7, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Our Father, in the abundance of Thy loving kindness, reverently we come into Thy presence. Before we talk to one another about our homes, our State, and our problems, we would listen for Thy voice, as with silent hearts we wait for Thy Word. Thou art light for life's meanings, Thou art wisdom for life's questions. Thou art strength for life's duties. Thou art courage for life's unknown ways.

Each new day is a white page for us not only in the journal of the State, but in the book of destiny, if we but take it from Thy hand as trustees of Thy unfolding purpose. May we follow the gleam of the highest and best we know, as long as our strength and opportunity last. Then may we hear Thy benediction, "Well done, thou good and faithful servant; enter thou into the joy of Thy Lord." Amen.

The roll was called and all members were present except Mr. Adamson, who was excused, and Mr. Proud excused until 9:30 a.m.

Mr. Keyes asked unanimous consent to be excused Monday morning until he arrives. No objections. So ordered.

Corrections for the Journal

Page 861, line 35, correct spelling of "school".

O Lord, our God, Almighty and Eternal Father, who gives to
Thy children liberally and withholds no good thing for their better-

hearts that are free from the cynicism of this world. Keep us pure

Thy Spirit moves upon our labors, may He find them useful for the

MOTION—Rule Change

Mr. Holmquist offered the following rule change:

1. Amend Rule 5 by adding a section to read as follows:

“Sec. 12. Referred to the Rules Committee.

RESOLUTIONS

LEGISLATIVE RESOLUTION 24. Re: Determining Eligibility of Public Welfare Assistance

Introduced by Executive Board of the Legislative Council,
 C. W. Holmquist, 16th District, Chairman.

WHEREAS, the cost of the medical assistance program in Nebraska is increasing at a rate which is unrealistic and the Secretary of Health, Education, and Welfare has the right to restrict payments to the Department of Public Welfare unless the state makes a satisfactory showing that it is making efforts to broaden the scope of its care and services under the medical assistance program which will continue to increase costs, and it appears necessary that the state be permitted enough flexibility to either eliminate medical assistance payments covering services provided under Title XVIII B of the Social Security Act or that federal financial participation be made available both for payment of services and the premium charged for the buy in; and

WHEREAS, the Department of Health, Education, and Welfare by regulations have required the Department of Public Welfare to furnish assistance to both applicants and recipients during the pendency of any appeal or fair hearing and to pay for any legal counsel retained by the person appealing and in that this would be costs which are not necessary; and

WHEREAS, regulations have been adopted by the Secretary of Health, Education, and Welfare requiring that a mandatory declaration method of determining eligibility for assistance be adopted by every state and that this method of determining eligibility could if not implemented in a cautious manner be very expensive in that many declarations of need could be filed which could lead to many payments being made which should not be made and many appeals filed and fraud hearings held.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That we as members of the Nebraska Legislature are concerned with the welfare of the citizens of the state but we must also be fiscally prudent in the implementation of programs which could cost all the citizens of the state unnecessary or unjust tax burdens.

2. That we as members of the Nebraska Legislature considering the problems and costs involved in the above-mentioned items believe that these rules and regulations should be given more flexibility in order that a state can choose a plan which is best for it, both morally and fiscally.

3. That copies of this resolution be sent by the Clerk of the Legislature to the Secretary of Health, Education, and Welfare, and to all members of the Nebraska Congressional Delegation.

Mr. Holmquist moved to suspend the rules to consider LR 24 today.

The motion prevailed with 35 ayes, 0 nays and 14 not voting.

LR 24 was adopted with 39 ayes, 1 nay and 9 not voting.

LEGISLATIVE RESOLUTION 25. Re: Motor Vehicle Inspection

Danner, 11th District; Irving F. Wiltse, 1st District; Elmer Wallwey, 17th District and C. W. Holmquist, 16th District.

WHEREAS, the Congress of the United States adopted the Highway Safety Act of 1966, which requires all states to have a traffic safety program approved by the Secretary of Transportation; and

WHEREAS, one requirement of an approved traffic safety program is the periodic safety inspection of motor vehicles; and

WHEREAS, states which do not have approved traffic safety programs may be penalized by the loss of federal funds for highway safety programs and ten per cent of the state's federal funds for highway construction, which amount in Nebraska is more than three million dollars annually; and

WHEREAS, the Seventy-seventh Session of the Legislature adopted Legislative Bill 806, now Chapter 60, article 17, Reissue Revised Statutes of Nebraska, 1943, requiring annual safety inspections of motor vehicles; and

WHEREAS, the Department of Motor Vehicles, pursuant to law, adopted rules and regulations for the administration of the program of motor vehicle safety inspection; and

WHEREAS, such rules and regulations were filed with the Legislature as required by section 84-904, Revised Statutes Supplement, 1967; and

WHEREAS, section 84-904, Revised Statutes Supplement, 1967, provides that such rules when considered by the Legislature may be rejected, changed, altered, amended, or modified in such manner as the Legislature deems advisable; and

WHEREAS, on February 17, 1969, the Legislature adopted Legislative Resolution 17, as amended, which provides that the motor vehicle inspection rules and regulations of the Department of Motor Vehicles shall be suspended until they are approved by the Legislature; and

WHEREAS, on February 17, 1969, the Legislature directed that such rules and regulations be reviewed by the Committee on Public Works; and

WHEREAS, the Committee on Public Works has completely reviewed such rules and regulations, after consultation with representatives of the Department of Motor Vehicles and other interested parties; and

WHEREAS, the Committee on Public Works has concluded that changes in such rules and regulations would be in the public interest and consistent with the laws of this state and the federal Highway Safety Act of 1966; and

WHEREAS, the Committee on Public Works recommends approval of the motor vehicle inspection rules, with amendments to sections 3, 4, 5, 7, 8, 9, 10, 11, and 12 thereof.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That the motor vehicle inspection rules and regulations of the Department of Motor Vehicles, as amended by the Committee on Public Works and attached hereto, are approved.

2. That a copy of this resolution with the attached rules be filed with the Secretary of State by the Clerk of the Legislature, and that such rules shall have full force and effect from the time of such filing.

3. That the Department of Motor Vehicles distribute copies of such rules and regulations to all vehicle inspection stations, direct such stations to resume official inspections at the earliest practicable date, and make public announcement of the date on which such inspections shall resume.

A copy of the Motor Vehicle Inspection Rules and Regulations has been filed in the Office of the Clerk of the Legislature.

FORTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 11, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
Speaker Warner presiding.

Prayer was offered by the Chaplain.

Prayer

Our God, we thank Thee that Thou hast formed our minds to seek Thee, our hearts to love Thee, and hast made our spirits restless for the rest that is alone in Thee. Since Thou hast set our feet on a path so full of change and chance that we know not what a day may bring forth, and has curtained every day with darkness and rounded our little life with sleep. Grant that we may use with diligence the fleeting span of time given to us, filling sunny hours with labor, working while it is yet day, knowing that the night cometh when man's work is done.

Bowing now at the beginning of another day, may Thy name be hallowed, may our hearts be cleansed, and may our daily duties shine with the halo of a new glory. In the Redeemer's Name. Amen.

UNANIMOUS CONSENT—Print in Journal

Mr. Carpenter asked unanimous consent to have the following opinion from the Attorney General printed in the Journal. No objections. So ordered.

March 6, 1969

Senator Terry Carpenter
Nebraska State Legislature
Capitol Building
Lincoln, Nebraska

Dear Senator Carpenter:

You have inquired as to the constitutionality of L. B. 496, which provides in part:

“Every city and village shall levy a tax on all property within the corporate limits taxable according to the laws of the State of Nebraska to provide funds in order to preserve the peace, maintain fire and police departments, improve the streets, or for other governmental functions. It is hereby found, determined, and declared that the levy of such a tax by every city and village is in all respects for the benefit of the people of the State of Nebraska, and is a matter of statewide concern. The levy of such a tax shall be in addition to all other taxes authorized by state law or by home rule charter.”

Two possible objections could be made to this bill, (1) that it violates Article VIII, Section 1A, of the Nebraska Constitution, which provides that “The state shall be prohibited from levying a property tax for state purposes.”, and, (2) that it violates Article XI, Section 4 of the Constitution, by amending city charters without an electoral vote.

As to the first problem, a possible violation of Article VIII, Section 1A, one question is whether the fact that the levy of taxes for the purposes specified in the bill is “for the benefit of the people of the State of Nebraska and a matter of statewide concern,” makes it a “state purpose,” as contemplated by Article VIII, Section 1A of

the Constitution. It can well be argued that it does, although our Court has not yet construed this language. However, we think it is clear that the state would not "levy" the tax under L. B. 496. In the early case of C. B. & Q. Railroad Co. v. Klein, 52 Neb. 258, the Court said:

"* * * * *"

"* * *. To assess a tax is to adjudge and determine what proportion of his property the taxpayer shall contribute to the public. To levy a tax is to make a record of this determination, and to extend the assessment against the taxpayer's property.
* * *"

"* * * * *"

Under the above definitions, the state would neither assess nor levy the tax authorized by L. B. 496. This would be done by the city or village involved, which would make the determination as to the amount of the levy. We have no authority to enlarge the scope of Article VIII, Section 1A, by holding that a levy required by the state to be made by a municipality is made by the state, particularly when the amount of the levy is left to the discretion of the municipality.

Article XI, Section 4, provides in part: "No charter or charter amendment adopted under the provisions of this amendment shall be amended or repealed except by electoral vote. * * *"

L. B. 496 provides that the tax thereby authorized shall be an addition to those authorized by home rule charters. It can be argued that this constitutes an amendment of such charters without an electoral vote. However, we believe this question is largely answered by the case of *Obitz v. Airport Authority of the City of Red Cloud*, 181 Neb. 410, 149 N. W. 2d 105, in which the Court said:

"* * * * *"

"The Metropolitan Utilities District case makes it clear that the Legislature may impose taxes on a municipality for the purpose of carrying out the governmental powers of the city. Local authorities cannot be permitted to determine for themselves whether or not they will contribute through taxation to the support of local government generally involving the expenses of municipal government and the police power delegated to it. In preserving the peace, or maintaining a fire or police department, or improving its streets, or other strictly governmental functions, the state may exercise compulsory authority. In the levying of taxes for such governmental purposes of general concern, the municipality cannot demand a right to be consulted as its consent is immaterial.

“* * * * *”

In the case of *Michelson v. City of Grand Island*, 154 Neb. 654, 664, N. W. 2d 769, the Court said:

“* * * * *”

When the Legislature has enacted a law affecting municipal affairs, but which are also of state-wide concern, such law takes precedence over any provisions in a home rule charter and the provisions of the charter must yield. But where the legislative act deals with a strictly local municipal concern, it can have no application to a city which has adopted a home rule charter. Whether or not an act of the Legislature pertains to a matter of local or state-wide concern becomes a question for the courts when conflict of authority occurs.

“* * * * *”

The Court then went on to cite authority for the proposition that police and fire protection and health preservation were matters of state-wide concern. To the same effect, that statutes take precedence over home rule charters in matters of state-wide concern, see *Omaha Parking Authority v. City of Omaha*, 163 Neb. 97, 104, 77 N. W. 2d 862.

It is therefore our conclusion that the Legislature has the power to enact valid legislation in this field. However, we point out that in authorizing mill levies in excess of those authorized by other sections of the statutes, it might be argued that the bill attempts to amend these other sections by implication. We call your attention to Section 14-514, 16-203, 16-702, 17-702, and 19-1309 as being a partial list of such sections. There may be others. It might be well to consider amending these sections, and any others that might be necessary, in order that they not be in conflict with the provisions of L. B. 496.

Very truly yours,

CLARENCE A. H. MEYER
Attorney General

Prayer

Lead us outside the small orbit of our self concern into the limitless opportunities of service for Thyself and our fellowman. While never avoiding issues because they are frustrating, give us a patient faith and an inner joy which provide a foundation for living. May we walk in Thy light rather than in our darkness. Give us the integrity to live what we believe, that we may stand up under pressure, and persevere in those values which first inspired us to believe we might be of service to our fellowman. In our Lord's name. Amen.

Eternal God, give us a sense of Thy divine purpose for life so we fall not into futility and despair. If we have an adequate Why, we can bear with any How. LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FORTY-NINTH DAY

Legislative Chamber, Lincoln, Nebraska
Friday, March 14, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Before the Prayer by the Chaplain the members stood for a moment of silence in memory of Mrs. H. J. Bornholdt, mother of Mrs. Norbert T. Tiemann.

Prayer was offered by the Chaplain.

Prayer

Eternal Father, our purposes, actions and thoughts change so easily, we are tempted to assume the views of the last person who talked to us, and we are anxious to please those who can most influence our political lives. So we pause at the beginning of another day asking for an inner integrity by which to live, praying to You who are the same yesterday, today and forever. May something of Your steadfast love and integrity find its way into our weathervane way of thinking and behaving.

Strengthen us to develop our latent potentials so we may be of maximum service to You and to our fellowmen.

In our Lord's name. Amen.

The roll was called and all members were present except Messrs. Batchelder, Carpenter, Danner, Klaver, Knight, Marvel, and Nore who were excused, and Mr. Holmquist excused until 9:45 a.m.

Prayer

Almighty God, with weighty issues before this Legislature, and a host of bills demanding our attention and concern, give to these Senators mental astuteness, emotional rationality, steadfastness of purpose, debate in depth, an openness to information that will be brought forth. With the vast complexities before them, may they strive to see clearly the issues, have knowledge of the total program, and strive to reach those decisions which will be of maximum benefit for the people of our State. Through different points of view, through a variety of personalities, may we finally reach the maximum harmony of understanding and action.

In our Lord's name. Amen.

25 (2) The county treasurer of the county in which

34 (3) The trustees of the district may authorize

38 all funds so collected shall, at least once each month,
39 be remitted to the treasurer to be held in the general
40 fund of the district.

41 (4) The treasurer of the district shall not be
42 responsible for such funds until they are received by him.
43 The treasurer shall disburse the funds of the district
44 only on warrants authorized by the trustees and signed
45 by the chairman and clerk.

Sec. 5. That section 31-744, Reissue Revised
2 Statutes of Nebraska, 1943, be amended to read as follows:

3 31-744. Whenever the board of trustees shall deem
4 it advisable or necessary to build, reconstruct, purchase,
5 or otherwise acquire a water system, a sanitary sewer
6 system, or a sanitary and storm sewer or sewage disposal
7 plant or pumping stations or sewer outlets, or electric
8 service lines and conduits constructed or to be constructed
9 in whole or in part inside or outside of the district, or
10 a system of *sidewalks*, public roads, streets, and highways
11 wholly within the district, or a public park or parks,
12 playgrounds, and recreational facilities wholly within
13 the district, or to contract for the installation and
14 operation of a water system, it shall declare the advis-
15 ability and necessity therefor in a proposed resolution,
16 which resolution, in the case of pipe sewer construction,
17 shall state the kinds of pipe proposed to be used, and
18 shall include cement concrete pipe and vitrified clay
19 pipe and any other material deemed suitable, and shall
20 state the size or sizes and kinds of sewers proposed to
21 be constructed and shall designate the location and ter-
22 minal points thereof. If it is proposed to construct a
23 water system, disposal plants, pumping stations, outlet
24 sewers, electric service lines and conduits, or a system
25 of *sidewalks*, public roads, streets, or highways, or
26 public parks, playgrounds, or recreational facilities,
27 the resolution shall refer to the plans and specifica-
28 tions thereof which shall have been made and filed before
29 the publication of such resolution by the engineer em-
30 ployed for such purpose. If it is proposed to purchase
31 or otherwise acquire a water system, a sanitary sewer
32 system, a sanitary or storm water sewer, sewers, sewage
33 disposal plant, pumping stations, sewer outlets, elec-
34 tric service lines and conduits, or public parks, play-
35 grounds, or recreational facilities, the resolution shall
36 state the price and conditions of the purchase or how

37 same is being acquired. If it is proposed to contract
38 for the installation and operation of a water system for
39 fire protection and for the use of the residents of the
40 district, or electric service lines and conduits, the
41 resolution shall state the principal terms of the proposed
42 agreement and how the cost thereof is to be paid. When
43 electric service lines and conduits are among the improve-
44 ments that are proposed to be constructed, purchased,
45 otherwise acquired or contracted for, and no construction
46 specifications and standards therefor have been estab-
47 lished by the municipality having zoning jurisdiction over
48 the area where such improvements are to be located, or
49 when such service lines and conduits are not to be lo-
50 cated within any municipality's area of zoning juris-
51 diction, the plans and specifications for and the method
52 of construction of such service lines and conduits shall
53 be approved by the supplier of electricity within whose
54 service or customer area they are to be located. Such
55 engineer shall also make and file, prior to the publica-
56 tion of such resolution, an estimate of the total cost
57 of the proposed improvement. The proposed resolution
58 shall state the amount of such estimated cost. The
59 board of trustees shall have power to assess, to the ex-
60 tent of special benefits, the cost of such portions of
61 said improvements as are local improvements, upon prop-
62 erties found specially benefited thereby. The resolu-
63 tion, hereinabove mentioned, shall state the outer bound-
64 aries of the district or districts in which it is prop-
65 posed to make special assessments.

Sec. 6. That section 31-749, Reissue Revised
2 Statutes of Nebraska, 1943, be amended to read as follows:

3 31-749. After the completion of any such work or
4 purchase or otherwise acquiring a sewer or water system,
5 or both, or public parks, playgrounds or recreational
6 facilities, or electric service lines or conduits or upon
7 completion of the work on a system of *sidewalks*, public
8 roads, streets, or highways, the engineer shall file with
9 the clerk of the district a certificate of acceptance,
10 which acceptance shall be approved by the board of trust-
11 ees by resolution. The board of trustees shall then re-
12 quire the engineer to make a complete statement of all
13 the costs of any such improvements, a plat of the property
14 in the district, and a schedule of the amount proposed
15 to be assessed against each separate piece of property
16 in such district, which statement, plat, and schedule
17 shall be filed with the clerk of the district within ten

18 days after the date of acceptance of the work, purchase,
19 or otherwise acquiring a sewer or water system, or both,
20 or acceptance of the work on a system of *sidewalks*, pub-
21 lic roads, streets, or highways. The board of trustees
22 shall then order the clerk to give notice that said
23 statement, plat, and schedules are on file in his office
24 and that all objections thereto, or to prior proceedings
25 on account of errors, irregularities, or inequalities,
26 not made in writing and filed with the clerk of the dis-
27 trict within twenty days after the first publication of
28 said notice, shall be deemed to have been waived. Such
29 notice shall be given by publication the same day each
30 week two consecutive weeks in a newspaper of general cir-
31 culation published in the county where the district was
32 organized and by handbills posted along the line of the
33 work. Said notice shall state the time and place where
34 any objections, filed as herein provided for, shall be
35 considered by the board of trustees. The cost of such
36 improvements in the district which are within the area of
37 the zoning jurisdiction of any municipality shall be as-
38 sessed to the full extent of special benefits against
39 the property in the zoning jurisdiction of such munici-
40 pality. The complete statement of costs and the schedule
41 of amounts proposed to be assessed for such improvements
42 which are within the zoning jurisdiction of such munici-
43 pality against each separate piece of property in dis-
44 tricts located within the zoning jurisdiction of such
45 municipality shall be given to such municipality within
46 seven days after the first publication of notice of state-
47 ment, plat and schedules; *Provided*, that where such
48 improvements are within the area of the zoning jurisdic-
49 tion of more than one municipality, then such proposed
50 assessments schedule and statement need be given only
51 to the most populous municipality. Such municipality
52 shall have the right to be heard, and it shall have the
53 right of appeal from a final determination by the board
54 of trustees against objections which such city has filed.
55 Any person or any such municipality feeling aggrieved
56 may appeal to the district court by petition within twenty
57 days after such a final determination. The court shall
58 hear and determine such appeal in a summary manner as in
59 a case in equity and without a jury and shall increase
60 or reduce the assessments as the same may be required to
61 provide that the assessments shall be to the full extent
62 of special benefits, and to make the apportionment of
63 benefits equitable.

Sec. 7. That original sections 31-727, 31-728,

- 2 31-729, 31-739, 31-744, and 31-749, Reissue Revised Stat-
3 utes of Nebraska, 1943, are repealed.”

FIFTY-SECOND DAY

Legislative Chamber, Lincoln, Nebraska
Wednesday, March 19, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m.,
President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, our Father, how grateful we are for families and
friends and associates who demonstrate a genuine interest in gov-
ernmental affairs.

Guide us this day, so we may have a composure when things
go wrong; a serenity when irritated; and a willingness to go on
when the going gets rough. Assist us so that we may control our
tempers and regulate our speech; so we may have a central calm in
the midst of storms, so we may respect our colleagues although
differing with them.

Give us broad horizons so no people in our state will ever be
without our concern.

In our Master's name. Amen.

The roll was called and all members were present except Mr.
Swanson, who was excused.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FIFTY-THIRD DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 20, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal Father, we pray for certain qualities of life which will not make us pious, but give us a strong foundation and an adequate launching platform to go forth into the areas confronting us; prudence, that we can vote for that which is ultimately right, and not merely momentarily attractive; fidelity, that we can trust each other in presenting the issues before us in depth; hope, that inevitable defeats will not lead to despair; courage, that we may strive for integrity rather than expediency. In our Lord's name. Amen.

The roll was called and all members were present except Mrs. Craft and Mr. Proud, who were excused; and Mr. Knight excused until 10:15 a.m.

2 of or practice of fitting hearing aids or display a sign
3 or in any other way advertise or represent himself as a
4 person who practices the fitting and sale of hearing aids
5 after the effective date of this act unless he holds an

10 license holders operating more than one office, without

15 ration, partnership, trust, association or other like or-
16 ganization maintaining an established business address
17 from engaging in the business of selling or offering for

14 of his relationship with the hearing aid dealer that any
15 examination or representation made by a licensed hearing
16 aid dealer and fitter in connection with the fitting and
17 selling of this hearing aid is not an examination, di-
18 agnosis, or prescription by a person licensed to prac-
19 tice medicine in this state and therefore must not be
20 regarded as medical opinion or advice.

21 (3) Any person engaging in the fitting and sale
22 of hearing aids will, when dealing with a child ten years
23 of age or under, ascertain whether the child has been
24 examined by an otolaryngologist for his recommendation
25 within ninety days prior to the fitting. If such not
26 be the case, a recommendation to do so must be made and
27 this fact noted on the receipt.

Sec. 4. (1) This act is not intended to prevent
2 any person from engaging in the practice of measuring
3 human hearing for the purpose of selection of hearing
4 aids provided such person or organization employing such
5 person does not sell hearing aids or accessories thereto.

6 payment of twenty-five dollars, shall issue to the ap-
7 plicant a license signed by the department. The license
8 shall be effective until January 30 of the year follow-
9 ing the year in which issued.

11 state or jurisdiction has requirements equivalent to or
12 higher than those in effect pursuant to this act and
13 that such state or jurisdiction has a program equivalent
14 to or stricter than the program for determining whether
15 applicants pursuant to this act are qualified to dis-
16 pense and fit hearing aids, the department may issue cer-
17 tificates of endorsement to applicants who hold current,
18 unsuspended and unrevoked certificates or licenses to
19 fit and sell hearing aids in such other state or juris-
20 diction. No such applicants for certificate of endorse-

11 appear at a time, place and before such persons as the
12 department may designate to be examined by means of
13 written and practical tests in order to demonstrate
14 that he is qualified to practice the fitting and sale

15 of hearing aids. The examination administered as di-
16 rected by the board constituting standards for licens-
17 ing shall not be conducted in such a manner that college
18 training is required in order to pass the examination.
19 Nothing in this examination shall imply that the appli-
20 cant shall possess the degree of medical competence
21 normally expected of physicians.

22 (3) The department shall give examinations as re-
23 quired to permit applicants to be examined within thirty
24 days following the submission of the official applica-

6 not be required to obtain a temporary permit.

7 (2) Upon receiving an application as provided
8 under this section and accompanied by a fee of twenty-
9 five dollars, the department shall issue a temporary
10 permit which shall entitle the applicant to engage in
11 the fitting and sale of hearing aids for a period of one
12 year. A person holding a valid hearing aid dealers and
13 fitters license shall be responsible for the supervision
14 and training of such applicant and maintain adequate
15 personal contact.

16 (3) If a person who holds a temporary permit
17 under this section has not successfully passed the li-

3 January 30, pay to the department a fee of twenty-five
4 dollars, for a renewal of his license and shall keep
5 such certificate conspicuously posted in his office or
6 place of business at all times. Where more than one of-

8 shall be issued by the department for posting in each
9 location. A thirty-day grace period shall be allowed
10 after January 30, during which time licenses may be re-

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FIFTY-FIFTH DAY

Legislative Chamber, Lincoln, Nebraska
Monday, March 24, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal God, at the beginning of a new and busy day we close our eyes, not to shut out the world but to look beyond it to Thy boundless horizon, so we may be more relevant in the things we do and say. Give to this strategic body poise and a right sense of timing. There is that tide in life which, when taken, leads to victory, but when missed, leaves us in the shallows of defeat. Guide these leaders of our State that they may discern the signs of the times and lead us in the paths of fullness and peace. In our Lord's name. Amen.

The roll was called and all members were present except Mr. Keyes, who was excused; Messrs. Proud, Waldo and Waldron, excused until 9:30 a.m. and Mr. Nore excused until 10:45 a.m.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FIFTY-SIXTH DAY

Legislative Chamber, Lincoln, Nebraska
Tuesday, March 25, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

O God, our Father, we are very much aware of the weight of problems that must be born. Life's mystery is deep, and our insight often shallow. We are grateful for Thy benefits which can lift and strengthen us; for families and children who take us out of our self-centeredness and give us deep insights into life and love; for friends and colleagues who inspire us and give us strength to go on.

As we receive meaning for living from Thee and from our friends, may we endeavor not to be forever receivers, but may we give in return and even in fuller measure than we receive. May we walk down the paths of righteousness together, and enjoy the fullness of life which Thou hast prepared for us. In our Lord's name. Amen.

The roll was called and all members were present except Messrs. Carstens and Keyes, who were excused; Mr. Waldron, excused until 9:30 a.m. and Messrs. Danner and Moulton, excused until 10:00 a.m.

RESOLUTIONS

LEGISLATIVE RESOLUTION 31. Re: Quality Education

Introduced by Lester Harsh, 38th District.

WHEREAS, maintaining quality education for the benefit of all children of the state is a matter of continuing concern to the Legislature; and

WHEREAS, the cost of providing quality education continues to grow rapidly during the current inflationary period; and

WHEREAS, the Legislature believes that every effort should be made to keep costs at the lowest possible level consistent with the maintenance of quality education; and

WHEREAS, the 1967 Legislature enacted a program of state aid to education which both provides funds for improvement of the quality of education, and restricts costs by its limitation on annual per pupil cost increases of eight per cent per year; and

WHEREAS, the state aid program provides for relief for school districts which would suffer undue financial hardship because of the limitation on annual per pupil cost increases; and

WHEREAS, state aid to education can be used more effectively to alleviate the problems faced by local school officials than it has in the past.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NEBRASKA LEGISLATURE IN EIGHTIETH SESSION ASSEMBLED:

1. That the Legislature reaffirms its support for the statutory limitation on annual per pupil cost increases.

2. That this Legislature go on record as urging the State Department of Education and the State Board of Education to give

weight to factors contributing to the rapidly rising costs of education, such as, but not limited to, changing enrollments, the addition of new programs, and the adjustment of teacher-pupil ratios to achieve more effective teaching, in considering applications for relief under the provisions of section 79-1341, Revised Statutes Supplement, 1967.

Prayer was offered by the Chaplain.

Prayer

O God, our Father, who art the author of all liberty and freedom, to Thee we pray. Guide and bless the members of this legislature, as they represent the people of this State in committee room, in this chamber, in their voting record, and in their personal lives. Give them sustaining strength of mind, body, and spirit to stand the persistent strains of their high office. Give them intolerance against all evils which would weaken our State, but great tolerance in hearing the evidence before making a decision. In using their sensitive minds to be rational, may they also keep alive that spark of heavenly fire called intuition which can guide us to a better society for all. Amen.

LEGISLATIVE JOURNAL—EIGHTIETH SESSION

FIFTY-EIGHTH DAY

Legislative Chamber, Lincoln, Nebraska
Thursday, March 27, 1969

Pursuant to adjournment, the Legislature met at 9:00 a.m., President Everroad presiding.

Prayer was offered by the Chaplain.

Prayer

Eternal Father, Lord of us all, we confess that often we live at the lowest, rather than at the highest, common denominator. Forgive us for our excessive self-centeredness, selfishness, and intolerance. May our north star, by which we endeavor to chart our course, be love for Thee and for our fellow man. May we keep these two ultimate realities in balance. Let us realistically face the duties before us; know the joy of service; and the fulfillment of sacrifice. May we have no fear in facing the unknown, because there is nothing unknown to Thee; and in Thee do we put our trust. Amen.

The roll was called and all members were present except Messrs. Keyes and Waldron, who were excused.

MOTION—Reconsider Action

Mr. Pedersen moved to reconsider action on LB 259 and place it on Select File for the following specific amendment:

1. Insert a new section to be known as section 4 and to read as follows:

“Sec. 4. That section 32-707, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:
 32-707. When any measure shall be filed with the Secretary of State to be referred to the people of the state by the referendum petition, and when any measure shall be proposed by initiative petition, the Secretary of State shall forthwith transmit to the Attorney General of the state a copy thereof, and within ten days thereafter the Attorney General shall provide and return to the Secretary of State a ballot title for such measure. The ballot title may be distinct from the legislative title of the measure, and shall express, in not exceeding one hundred words, the purpose of the measure. The ballot title shall be printed with the number of the measure on the official ballot. In making such ballot title the Attorney General also shall, to the best of his ability, give a true and impartial statement of the purpose of the measure and prepare a statement to be printed with the title or the official ballot. Such statement shall in clear and concise language explain the effect of a vote for and against the measure in such language that the ballot title statement shall not be

23 intentionally an argument, or likely to create prejudice,
 24 either for or against the measure. The ballot title
 25 shall be so worded that those in favor of retaining any
 26 measure referred to the electors, or in favor of any
 27 measure proposed by initiative petition, shall vote For,
 28 and those opposing any measure referred to the electors,
 29 or any measure initiated by petition, shall vote Against.
 30 Any person who is dissatisfied with the ballot title pro-
 31 vided by the Attorney General for any measure may appeal
 32 from his decision to the district court, as provided by
 33 section 32-706, by petition, praying for a different
 34 title and setting forth the reasons why the title prepared
 35 by the Attorney General is insufficient or unfair. No
 36 appeal shall be allowed from the decision of the Attorney
 37 General on a ballot title, unless the same is taken
 38 within ten days after the decision is filed. A copy of
 39 every such decision shall be served by the Secretary of
 40 State, or the clerk of the district court, upon the per-
 41 son offering or filing such initiative or referendum
 42 petition or appeal. Service of such decision may be by
 43 mail or telegraph and shall be made forthwith. The dis-
 44 trict court shall thereupon examine the measure, hear
 45 arguments, and in its decision thereon certify to the
 46 Secretary of State a ballot title for the measure in ac-
 47 cord with the intent of this section. The Secretary of
 48 State shall print on the official ballot the title thus
 49 certified to him.”

2. Insert a new section to be known as section 5
 and to read as follows:

“Sec. 5. That original section 32-707, Reissue
 2 Revised Statutes of Nebraska, 1943, is repealed.”

3. Renumber original section 4 as section 6.

4. Underscore sections 1 to 3.

The motion prevailed with 40 ayes, 0 nays and 9 not voting.

Mr. Carpenter asked unanimous consent to have the following

February 21, 1969

TO: School Board Members—Past Members of Nebraska School
 Improvement Association

FROM: S. H. Brauer, Jr.

RE: N.S.I.A. School Board Dues

Our records indicate that you supported the Nebraska School Improvement Association by the payment of membership dues in the past but have not as yet paid the dues for 1968-69 fiscal year. I'm sure this is just an oversight on your part.

Recent developments now dictate that we must expect the worst. Frank Landis, a member of the State Board of Education, was extremely critical of the State Board of Education in the six to one vote to reject Dr. Miller's MASTER PLAN for the involuntary or compulsory reorganization of all school districts. He proposed that a petition drive to place mandatory school district reorganization on the ballot be immediately instituted. Mr. Landis' public statement was followed by a public statement of the NSEA's Executive Secretary, John Lynch, supporting placing this question on the ballot in the event the legislature turns a cold shoulder to Governor Tiemann's 'Little Hoover' Commission legislative proposal to force school district reorganization. I should not have to tell you what the costs in time, energy and financial resources would have to be to defeat a statewide vote on compulsory reorganization.

This year I almost feel like the coach who cautions his players, "We have to play each game as it comes, one at a time, and cannot be looking ahead to the big one." Our victory at the State Board of Education Hearing on February 6th over the forces demanding mandatory reorganization was a tremendous one, but is now history. We must now prepare for the next engagement.

We have been building pressure for months for the removal of Dr. Miller as Commissioner of Education, and a number of his staff, because we do not believe that so long as Dr. Miller remains in office, there can be any locally initiated solutions to local school problems. It is hoped that the State Board of Education will take positive steps to regain control of the State Department of Education and their leadership role through the removal of Dr. Miller. The next major battle will come with the introduction of Governor Tiemann's promised compulsory reorganization proposal. Governor Tiemann has presently put himself in the ridiculous position of saying he is opposed to compulsory reorganization, but, should the legislature pass such legislation, he would not veto it. It is my feeling that the legislature itself, or the members of the legislature, would not enact compulsory reorganization without prodding from the Governor's office.

Should such legislation not be enacted by the legislature, we must begin thinking about the possibility and the actual materialization of a state-wide vote to force reorganization. This possibility disturbs me the most because of the tremendous vote located in our

major population centers which could place this yoke upon our necks without even realizing what they had done. Only through an educational program beamed into the homes of these people would there be any hope of defeating a statewide vote for compulsory reorganization.

Should we be successful in our efforts to remove Dr. Miller from office, there should be some relaxation in the tensions and pressures being placed upon our schools, and could result in taking some of the steam out of the proposed petition campaign to place forced reorganization on the ballot.

Never has there been a greater need to keep the school boards and parents informed of what is happening and what they might do to help, but our financial situation simply will not permit dissemination of this information on a large scale.

Please do not ignore this reminder to pay your dues, as it is only possible to continue with our planned program in accordance with our ability to finance same. We are expecting to hear from you within the next few days.
