"NO HURRY—lots of time I have my TICKET!"

Wise man. He patronized the City Ticket Office well in advance and will avoid last minute rush and uncertainty at train time.
P.S. He's also travelling light in wartime to conserve available railway space.

SERVING THE NATION

Industrial Canada is depending upon the railways for a mighty job of transportation, and regardless of the weather, Canadian National is playing its part. Every minute of every day in 1942, the Canadian National Railways handled and moved 138 tons of freight or a total of 72,400,000 tons during the year.

Speeding Wartime Loads

During the year 1942, the Canadian National-Grand Trunk System moved *more than* 72,000,000 tons of munitions of war and other products of industry, agriculture and natural resources. More than 2,500 locomotives and 80,000 Canadian National-Grand Trunk freight cars were in continuous service.

To transport the United Nations' supplies and munitions of war, as well as members of the fighting forces, is a titanic task. To keep trains moving on speedy and dependable schedules, to haul loaded cars from thousands of industrial yards, or sidings, and assure a flow of empty car replacements calls for a highly-skilled and specialized organization. Only the railways are able to do this job of mass transportation!

Canadian National-Grand Trunk will continue to meet the ever increasing demands of a nation at war!

Crowded Trains?

There's a reason . . . our fighting forces are on the move.

Today, Canadian National Railways are speeding troops to manning depots and training camps . . . to embarkation points and on leave. Passenger traffic has increased threefold since the outbreak of war.

The increasing flow of freight traffic—tanks, guns, foodstuffs and other materials of war—has placed enormous demands upon our facilities.

To handle this increased traffic takes a lot of cars . . . a lot of locomotives . . . the time of a lot of railwaymen.

We want you to know that *we'll get you where you have to go . . .* but troop trains and war freights have priority . . . they must be moved on schedule even though passenger trains are delayed and service curtailed.

OCEAN STEAMSHIP SAILINGS

IN CONNECTION WITH

CANADIAN NATIONAL RAILWAYS

- On account of War Conditions, it is not possible, for the present, to continue the detailed sailing lists formerly appearing in this folder.
- Ticket Agents will be kept posted as closely and as fully as possible of what sailings are to take place, and cheerfully will furnish this information on request.
- They will also endeavor to secure, by writing their District Passenger Agents, any other such information as may be desired by our patrons, but which is not in their possession at the time it is asked for.

Winged Words

SPEED

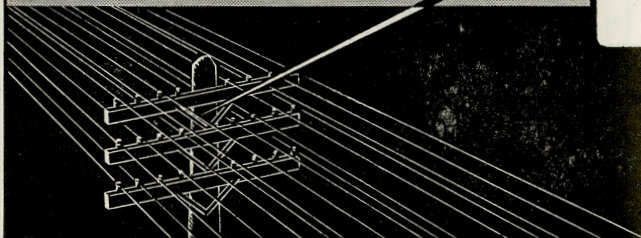

**THE NATION'S
WAR EFFORT**

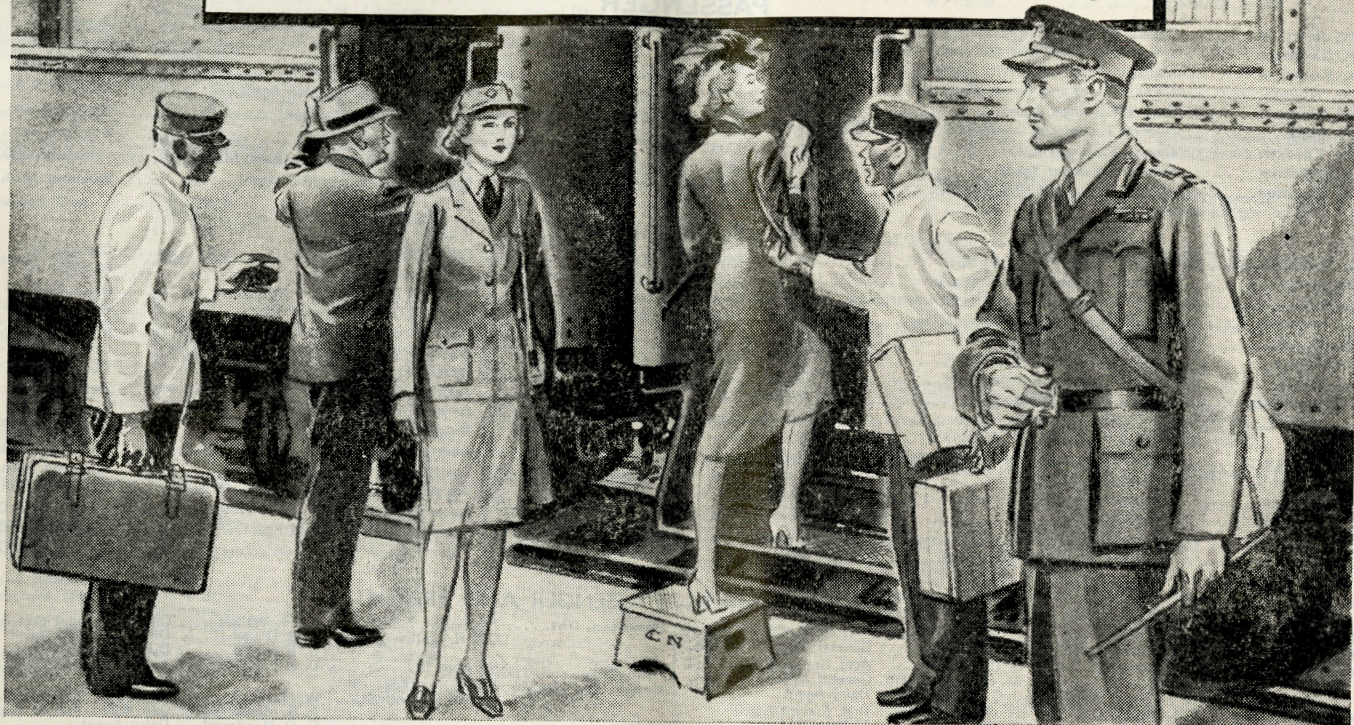

Fast transmission and a written record are vital Wartime communication requirements. Telegraphed words take wings to annihilate time and space and provide record for future reference.

Canadian National Telegraphs play an important part in meeting this demand and in speeding the Nation's war effort.

**CANADIAN NATIONAL
TELEGRAPHS**

Sharing your Railway

THESSE days folks have to share the railways with the Nation's Armed Forces just as they're sharing most other things.

Heavy demands are being made upon our passenger services. Where one passenger travelled in 1939, there were almost three travelling in 1942.

The big increase in passenger traffic is due to many factors, but the most important is the transport of Navy, Army and Air Force personnel, overseas, between manning depots and training camps and on furlough.

After meeting the heavy transportation demands of a nation at war, it is not always possible to serve the public as well as we'd like—but with your cooperation *we'll get you where you have to go.*

WHEN DINING *on the* RAILWAY

Thousands of travellers bear testimony to the courtesy and service for which Canadian National dining cars are justly renowned... good food, excellently cooked by skilled chefs in modern, spotlessly clean kitchens combine to make every meal a time of real enjoyment.

The facilities of the Canadian National Dining Car Service are being heavily taxed today by war-time demands upon our equipment and we are trying hard under difficult conditions to serve and satisfy all those who desire to have a meal in the dining car.

At the conclusion of your meal, therefore, if there are other patrons waiting for seats, please make your place available to them. Your cooperation will be greatly appreciated.
