

CATALOGUE NO. 1257.0

EMBARGOED UNTIL 11:30 A.M. 1 AUGUST 1995

VICTORIAN LOCAL GOVERNMENT AMALGAMATIONS 1994-95: CHANGES TO THE AUSTRALIAN STANDARD GEOGRAPHICAL CLASSIFICATION

The aim of this paper is to provide an outline of the changes that have been made to Local Government Area (LGA), Statistical Local Area (SLA), and other ABS spatial unit boundaries since 1 July 1994 following the review of Local Government by the Victorian State Government.

This paper is a prelude to the more detailed Australian Bureau of Statistics (ABS) Australian Standard Geographical Classification (ASGC) (Edition 2.5) (Catalogue No. 1216.0) which is planned for release in September 1995.

An LGA represents the whole, undivided geographical area of responsibility of an incorporated Local Government Council. An SLA serves as the smallest spatial unit for the coding, compilation and publication of economic, social and demographic data, except for data collected in population censuses. All other standard geographic areas, such as Statistical Divisions (SDs),

Statistical Subdivisions (SSDs), Statistical Regions (SRs) and Statistical Districts (S Dists), are aggregations of SLAs.

Some information is already available from the ABS based on the new LGAs and SLAs. 1991 Population Census Profiles of the new areas can be produced on request. Estimated Resident Population information is also available for the new LGAs for 1994, and will be available backcast to 1986.

Summary of Geographic Changes

1. Local Government Areas

In the past two years the changes to Local Government in Victoria have been extensive. Victoria now has 78 LGAs, compared with 210 at the beginning of the process of restructure (See Table 1). Most changes go well beyond boundary adjustments or amalgamation of

TABLE 1. NUMBERS OF SPATIAL UNITS AS AT 1 JULY, VICTORIA

<i>Spatial Units</i>	1993	1994	1995
Local Government Areas (LGAs)	210	194	78
Statistical Local Areas (SLAs)	238	231	187
Statistical Divisions (SDs)	12	12	12
Statistical Subdivisions (SSDs)	50	50	45
Statistical Regions (SRs)	14	14	14
Statistical Districts (S Dists)(a)	7	7	7

(a) Includes Albury-Wodonga, which is partly in Victoria and partly in New South Wales

INQUIRIES

- for further inquiries, including copies of publications contact Information Services on Melbourne (03) 9615 7055

smaller LGAs. The extent of the changes has meant that most LGAs have names unrelated to the previously existing LGAs. Table 2 lists the new SLAs, within LGAs, with their concordant 1994 SLAs.

For further detail on the changes made to Victorian Local Government please refer to *New Patterns in Local Government (A Guide to Victoria's New Councils)* produced by the Office of Local Government, available from Information Victoria, 318 Little Bourke Street, Melbourne.

2. - Statistical Local Areas

SLAs have been defined within the new LGAs. Some SLAs equate with LGAs, but in most cases LGAs are now divided into two or more SLAs. In many cases these SLAs are identical in area to the old LGAs (and SLAs) to maintain continuity of geographical statistics, but in other cases the new SLAs are amalgamations of entire or part LGAs/SLAs, depending on the need for statistical information expressed by users. Table 2 provides a concordance between 1995 and 1994 SLAs; Table 3 shows the new ASGC Detailed Main Structure for Victoria, that is, Statistical Divisions (SDs), Statistical Subdivisions (SSDs) and SLAs.

3. Statistical Divisions

The boundaries of all Victorian SDs (apart from Off-Shore Areas & Migratory) have undergone change, to include whole LGAs wherever possible. *Melbourne SD* has had minor adjustments only to exclude small parts of Werribee City (C) (to Central Highlands), Eltham Shire (S), Healesville (S) and Whittlesea (C) (to Goulburn) and Cranbourne (C) (to Gippsland). The part of the SD boundary passing through the previous Upper Yarra (S) has been retained, resulting in the new Yarra Ranges (S) being partly in Melbourne and partly in Gippsland.

Description of changes made to other SDs:

Barwon: Includes Southern Rural (S) - West (from Central Highlands); minor adjustments with Western District.

Western District: Excludes part of Glenelg (S) (to Wimmera). Other minor adjustments with Barwon and Wimmera.

Central Highlands: Excludes Southern Rural (S) - West (to Barwon); part of Talbot & Clunes (S) (to Loddon); includes part of Kyneton (S) (from Loddon-Campaspe); minor adjustments with Melbourne and Wimmera.

Wimmera: Includes Karkaroc (S) (from Mallee); part of Glenelg (S) (from Western District); excludes most of Donald (S) (to Mallee); other minor adjustments with Mallee, Western District, and Central Highlands.

Mallee: Excludes Karkaroc (S) (to Wimmera); includes Charlton (S) and the major part of Cohuna (S) (from Loddon-Campaspe); the major part of Donald (S), and a

small part of Kara Kara (S) (from Wimmera).

Loddon-Campaspe (renamed Loddon from 1 July 1995): Excludes Charlton (S) and the major part of Cohuna (S) (to Mallee); Pyalong (S), Echuca (C), Rochester (S), a small part of Cohuna (S), a small part of Gordon (S) and parts of McIvor (to Goulburn); part of Kyneton (S) (to Central Highlands); includes part of Talbot & Clunes (S) (from Central Highlands).

Goulburn: Excludes a small part of Benalla (S) (to Ovens-Murray); includes part of Eltham (S), part of Whittlesea (C), and part of Healesville (S) (from Melbourne); Pyalong (S), Echuca (C), Rochester (S), a small part of Cohuna (S), a small part of Gordon (S), and parts of McIvor (S) (from Loddon-Campaspe); the major part of Yarrawonga (S) (from Ovens-Murray).

Ovens-Murray: Excludes the major part of Yarrawonga (S) (to Goulburn); includes part of Benalla (S) (from Goulburn), and a small part of Omeo (S) (from East Gippsland).

East Gippsland: Excludes a small part of Omeo (S) (to Ovens-Murray); includes Alberton (S), and part of Rosedale (S) (from Gippsland).

Gippsland: Excludes Alberton (S), and part of Rosedale (S) (to East Gippsland); includes a small part of Cranbourne (C) (from Melbourne).

Off-Shore Areas & Migratory: No change.

4. Statistical Subdivisions

SSDs have been altered to reflect the changes to LGAs. Some have been amalgamated or renamed. In the main, SSDs in the Melbourne SD and outside the main urban areas in the remainder of Victoria, contain one or more whole LGAs. The only LGAs split across SSD boundaries from 1 July 1995 are:

Melbourne SD
Stonnington (C) (Inner Melbourne SSD / Southern Melbourne SSD)
Yarra Ranges (S) (Yarra Ranges Shire Part A / West Gippsland)

Balance of Victoria
Baw Baw (S) (La Trobe Valley SSD/ West Gippsland SSD)
Greater Bendigo (C) (Greater Bendigo City Part A / North Loddon)
Greater Geelong (C) (Greater Geelong City Part A / East Barwon / West Barwon)
Greater Shepparton (C) (Greater Shepparton City Part A / North Goulburn)
Indigo (S) (Wodonga / West Ovens-Murray)
Mildura Rural City (RC) (Mildura Rural City Part A / West Mallee)
Towong (S) (Wodonga / East Ovens-Murray)

5. Statistical Districts

In July 1994 the boundary of Ballarat Statistical District (S Dist) was redefined to include the whole of Ballarat City. There was also a minor amendment to the Geelong S Dist boundary.

LGA changes since July 1994 have resulted in the following changes:

La Trobe Valley - enlarged to include the whole of the new La Trobe (S) with part of Baw Baw (S) and Yallourn Works Area.

Albury-Wodonga - the southern boundary has been aligned with the boundary of the new Indigo (S) LGA, resulting in a reduction in area.

There has been no change to the boundaries of Bendigo, Mildura and Shepparton (renamed from Shepparton-Mooroopna) S Dists.

6. Statistical Regions

Statistical Regions equate with one or more SSDs in Melbourne SD, and two or more SDs in the Balance of Victoria. The changes to these Regions are in line with the changes made to the SSDs and SDs. The changes to the Statistical Regions will be incorporated in Labour Force statistics from September 1997, after the next redesign of the Monthly Population Survey using the results of the 1996 Census of Population and Housing.

Products and Services

Australian Standard Geographical Classification (ASGC) (Catalogue No. 1216.0) is planned for release in September 1995 and will include changes to spatial units which are described in this Information Paper. This is the main Australia-wide area classification and coding scheme for use in classifying statistics by geographical areas.

As well, the following products and services relating to new ASGC boundaries are available or will be available shortly:

Concordances:

- SLAs: 1 July 1994 to 1 July 1995
- Postcode to LGA: 1 July 1995
- Postcode to SLA: 1 July 1995

Structural Tables:

- ASGC Structures on floppy disk (Catalogue No. 1216.0.15.001)

Other Products:

- Maps
- National Localities Index (Catalogue No. 1252.0): A general purpose index designed to assign postcodes and SLA codes to Australian localities. A Street Sub-Index and computer assisted coding software is also available. The Victorian segment of this Index can be obtained separately.
- Estimated Resident Population tables for new LGAs for 1986-1994
- 1991 Census Community Profiles for new SLAs/LGAs
- 1991 Census Collection District to 1995 SLA concordance

Prices on request from Information Services on phone (03) 9615 7755 or fax (03) 9615 7798.

Further Review of Statistical Geography

As mentioned previously, the changes and new spatial units notified in this Information Paper are those that have taken effect for statistical purposes from 1 July 1995. However these spatial units will be subject to ongoing review until December 1995. It is expected that additional changes will be introduced from 1 July 1996 as a result of this review.

Victoria's Statistical Geography (1103.2)

Following these changes, it is envisaged that the ABS publication *Victoria's Statistical Geography* (Catalogue No. 1103.2) will be updated in 1996. *Victoria's Statistical Geography* was first released in 1993 and related to 1991 Population Census geographic boundaries. It included maps of SLAs by SD, SSD, Statistical Regions and Statistical Districts and listed Census Collection Districts in SLAs. It also included maps of Electoral regions, postcode to SLA and SLA to postcode listings, and localities within SLAs for the Melbourne Statistical Division.

The update will include the geography to be used in the 1996 Census of Population and Housing in Victoria. It is also expected to include comparisons between the 1991 and 1996 Census geography.

STUART JACKSON

Deputy Commonwealth Statistician, Victoria

For more information ...

The ABS publishes a wide range of statistics and other information on Australia's economic and social conditions. Details of what is available in various publications and other products can be found in the *ABS Catalogue of Publications and Products* available at all ABS Offices (see below for contact details).

Information Consultancy Service

Information tailored to special needs of clients can be obtained from the Information Consultancy Service available at ABS Offices (see Information Inquiries below for contact details).

National Dial-a-Statistic Line

0055 86 400

(Steadycom P/L; premium rate 25c/21.4 secs.)

This number gives 24-hour access, 365 days a year, for a range of statistics.

Electronic Data Services

A large range of data is available via on-line services, diskette, magnetic tape, tape cartridge and CD ROM. For more details about these electronic data services, contact any ABS Office (see below).

Bookshops and Subscriptions

There is a large number of ABS publications available from ABS bookshops (see below Bookshop Sales for contact details). The ABS also provides a subscription service through which nominated publications are supplied by mail on a regular basis (telephone Subscription Service toll free on 1800 02 0608 Australia wide).
