The CPAC Foundation's Center for Legislative Accountability is proud to present our Ratings of the States. Like our Ratings of Congress, CPAC's Foundation's Ratings of the States are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy (conservatism is the political philosophy that sovereignty resides in the person) and then apply the proper role of government (its essential role is to defend Life, Liberty and Property).

The Left has stormed our nation's corridors of power to take control over the lives of every American. Now, they have set their sights on the states, freedom's last line of defense.

President Lincoln once said, "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." The Left's agenda dismantles the vision of our founders when they pledged their lives, their fortunes, and their sacred honor.

We hope these Ratings will empower each and every American to hold their officials accountable and to rally behind the conservative champions who defend our freedoms in stateAssemblys around the country.

Sincerely,

Matt Schlapp
Chairman, CPAC

The Center for Legislative Accountability (CLA), an initiative of the CPAC Foundation, is the premier organization for holding lawmakers accountable. The CLA produces the longest-running conservative congressional scorecard and our state program is the only one in the nation that scores all 8,000 lawmakers in the 50 states across every policy area.

In 1971, ACUF launched its Ratings of Congress to provide a comprehensive evaluation of the voting records of every Member of Congress. The Ratings quickly became considered the "gold standard" and over the following decades have been utilized by activists, voters, academics and elected officials to determine which lawmakers best adhere to conservative principles.

In 2011, these Ratings were expanded into state legislatures as part of a five-state pilot program. By 2015, Ratings of the States grew to include all 50 states and all 99 legislative chambers. Today, the CLA annually analyzes over 105,000 pieces of legislation to issue scores for all of America's federal and state lawmakers and presents awards to lawmakers who score 80% or better in recognition of their conservative voting records.

In order to depict how closely a lawmaker adheres to conservative principles, the CLA selects from the full spectrum of issues relating to the economy, culture, national security and government integrity. Some key areas include taxation, spending, education, labor, licensure, regulation, environment, life, free speech, Second Amendment rights, foreign aid, defense priorities and global organizations, including the United Nations. All congressional and state analyses are conducted after the adjournment of a legislative session to ensure that no issue is neglected.

To determine legislative rankings, the CLA annually evaluates over 105,000 bills that were introduced in Congress and every convening state legislature running from January 1 to December 31.

Of those bills, the CLA ultimately selects roughly 2,000 pieces of legislation that best illustrate how elected officials view the role of government in an individual's life. The CLA calculates individual scores for a total of nearly 8,000 federal and state lawmakers based on over 157,000 votes cast on the 2,000 bills selected.

S 3609 Providing More Means of Protecting Abortion Services.
This bill requires that a person's future access to abortion procedures be considered in health equity impact assessments. CPAC believes abortion is always a human tragedy, opposes the Left's transformation of abortion into a holy sacrament, and opposed this bill. The Senate passed this bill on March 30, 2023 by a vote of 39-23 but the bill never became law.

S 4511 Loan Forgiveness for One of the Highest Paid Professions in the Country.
This bill expands the state loan forgiveness program for certain attorneys favored by the government. CPAC opposes the provision of welfare to wealthy attorneys and opposed this bill. The Senate passed this bill on May 31, 2023 by a vote of 57-1 but the bill never became law.

S 4818 Expanding Barriers to Second Amendment Freedoms.
This bill requires that individuals wait 10 days after purchasing a firearm to claim that firearm. CPAC supports the founders' belief in the Second Amendment and opposed this bill. The Senate passed this bill on June 7, 2023 by a vote of 42-19 but the bill never became law.

S 4859 Government Largesse for Favored Businesses.
This bill dually prohibits the government from contracting with businesses whose supply chains contribute to tropical forest degradation and establishes the supply chain transparency assistance program, the likes of which would assist minority- and women-owned business in complying with this measure. CPAC opposes government favoritism toward particular racial groups and opposed this bill. The Senate passed this bill on April 25, 2023 by a vote of 42-19 but the bill never became law.

S 4887 Majorly Increasing the Cost of Utilities for Taxpayers.

This bill requires that contractors working on projects wherein they are required to excavate or use streets pay their workers the prevailing wage. CPAC opposes measures that grossly increase the cost of government projects for taxpayers and opposed this bill. The Senate passed this bill on June 5, 2023 by a vote of 53-8 and the bill later became law.

S 4907 Compromising the Ability of Consumer Reporting Agencies to Accurately Construct Credit Scores.

This bill prohibits medical service providers from reporting medical debt to a consumer reporting agency. It also prohibits such agencies from including medical debt in their reports. CPAC recognizes that this mandate will damage the ability of financial institutions to properly make decisions regarding loans and opposed this bill. The Senate passed this bill on May 31, 2023 by a vote of 50-8 but the bill never became law.

S 4982 Micromanaging Workplace Meetings in New York.

This bill prohibits employers from requiring their employees to attend workplace meetings related to politics, including those that concern labor unions. CPAC opposes the government's micromanagement of the workplace, opposes measures that permit the government to do the dirty work of unions, and opposed this bill. The Senate passed this bill on June 8, 2023 by a vote of 53-9 and the bill later became law.

S 5853 Subsidies for Government-Favored Landscaping Equipment.

This bill establishes the electric landscaping equipment rebate program, the likes of which will provide rebates to entities that purchase electric landscaping equipment. CPAC supports all forms of energy, does not believe that the government should support one form of energy over another, and opposed this bill. The Senate passed this bill on June 7, 2023 by a vote of 58-3 but the bill never became law.

S 6350 Aiding and Abetting those Hoping to Show Pornography to Children in Schools.

This bill enacts provisions that "empower" librarians to insert any book that they deem "developmentally appropriate" into the shelves of their library. CPAC believes that the ambiguity of this bill will enable Leftist librarians and schools to make pornography and other materials associated with the LGBT+ agenda available to young children and opposed this bill. The Senate passed this bill on June 6, 2023 by a vote of 61-1 but the bill never became law.
