LETTER FROM THE CHAIRMAN

MATT SCHLAPP
CHAIRMAN, CPAC

The CPAC Foundation's Center for Legislative Accountability is proud to present our Ratings of the States. Like our Ratings of Congress, CPAC's Foundation's Ratings of the States are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy (conservatism is the political philosophy that sovereignty resides in the person) and then apply the proper role of government (its essential role is to defend Life, Liberty and Property).

The Left has stormed our nation's corridors of power to take control over the lives of every American. Now, they have set their sights on the states, freedom's last line of defense.

President Lincoln once said, "America will never be destroyed from the outside. If we falter and lose our freedoms, it will be because we destroyed ourselves." The Left's agenda dismantles the vision of our founders when they pledged their lives, their fortunes, and their sacred honor.

We hope these Ratings will empower each and every American to hold their officials accountable and to rally behind the conservative champions who defend our freedoms in statehouses around the country.

Sincerely,

Matt Schlapp
Chairman, CPAC

The Center for Legislative Accountability (CLA), an initiative of the CPAC Foundation, is the premier organization for holding lawmakers accountable. The CLA produces the longest-running conservative congressional scorecard and our state program is the only one in the nation that scores all 8,000 lawmakers in the 50 states across every policy area.

In 1971, ACUF launched its Ratings of Congress to provide a comprehensive evaluation of the voting records of every Member of Congress. The Ratings quickly became considered the “gold standard” and over the following decades have been utilized by activists, voters, academics and elected officials to determine which lawmakers best adhere to conservative principles.

In 2011, these Ratings were expanded into state legislatures as part of a five-state pilot program. By 2015, Ratings of the States grew to include all 50 states and all 99 legislative chambers. Today, the CLA annually analyzes over 105,000 pieces of legislation to issue scores for all of America’s federal and state lawmakers and presents awards to lawmakers who score 80% or better in recognition of their conservative voting records.

In order to depict how closely a lawmaker adheres to conservative principles, the CLA selects from the full spectrum of issues relating to the economy, culture, national security and government integrity. Some key areas include taxation, spending, education, labor, licensure, regulation, environment, life, free speech, Second Amendment rights, foreign aid, defense priorities and global organizations, including the United Nations. All congressional and state analyses are conducted after the adjournment of a legislative session to ensure that no issue is neglected.

To determine legislative rankings, the CLA annually evaluates over 105,000 bills that were introduced in Congress and every convening state legislature running from January 1 to December 31.

Of those bills, the CLA ultimately selects roughly 2,000 pieces of legislation that best illustrate how elected officials view the role of government in an individual's life. The CLA calculates individual scores for a total of nearly 8,000 federal and state lawmakers based on over 157,000 votes cast on the 2,000 bills selected.

The Senate passed this bill on February 3, 2023 by a vote of 20-18 but the bill stalled in the House.

SB 1167 Waging War on the Firearms Industry.

This bill creates certain ill-defined “standards of conduct” that a firearms industry member must follow when engaged in the sale of a weapon. It then allows individuals to initiate lawsuits against entities that do not follow these standards. CPAC opposes the imposition of vague and ill-defined regulations on members of the firearms industry and opposed this bill. The Senate passed this bill on February 24, 2023 by a vote of 31-9 and the bill later became law.

SB 1312 Instituting Costly Green Building Mandates.
