a The values for 1870 are expressed in a currency which was at a discount in gold. The average premium on gold during the 12 months (June 1, 1869, to May 31, 1870), was 25.3 per cent. For purposes of comparison therefore the values for 1870 should be reduced by one-fifth.

b Not included in census reports previous to 1870.

a The census for 1880 gave acreage for potatoes in only a few selected states, hence no comparisons can be made except for those states.  
 b A part of this return should probably be placed under Canada peas, but as there are no data by which to determine the quantity, all are given under cowpeas.
