

Supporting Disability community nonprofits

Microsoft is committed to partnering with nonprofits that support the disability community and increase access to technology.

Learn about our Accessibility Nonprofit Tech Accelerator program.

Our commitment to helping bridge the Disability Divide

The 'Disability Divide' is the gap in societal inclusion for people with disabilities, including in education, employment, and access to technology. In April 2021, Microsoft made a technology-led five-year commitment to help close this gap and create more opportunities for people with disabilities. However, global progress cannot be driven by one organization or industry alone and we hope you will join us on this journey.

Accessibility Engagement and Events Program

Amplifies the latest from Microsoft accessibility and the industry by sharing best practices, product announcements, and the latest trends in accessibility. Request a Microsoft Accessibility speaker for your organization's event by completing our [Accessibility Event Request Form](#).

AI for Accessibility

A technology innovation program to amplify human capability for the more than one billion people with disabilities.

Does your organization have an idea? We're looking for applications that combine disability inclusion with an innovative tech idea that could build on Microsoft cloud services and artificial intelligence or address low-cost assistive technology needs. [Apply for an AI for Accessibility Grant](#).

Neurodiversity Career Connector

A career portal dedicated to matching neurodivergent jobseekers with companies who are seeking to hire diverse talent.

Microsoft Disability Scholarship Fund

Awards promising high school seniors with disabilities planning to attend a vocational or academic college and target a career in the tech industry.

For questions or information on applying for a scholarship, contact disscholarshipinfo@microsoft.com.

“As someone born with a complex mobility disability, I have personally experienced the impact of the services offered by nonprofit organizations.”

Sunday Parker, Accessibility NTA Program Manager

Learn about our inclusive strategies

Accessibility Evolution Model

To enable change, accessibility needs to be a priority. We manage accessibility like a business and developed our Accessibility Evolution Model to track progress. We're excited to share this model as an operational "how to" to help our customers and partners develop their own accessibility road maps and business plans.
