Allianz Global Assistance welcomes you to Australia!

We understand that maintaining your health is an important part of making your stay in Australia as safe and enjoyable as possible.

Allianz Global Assistance is here to assist and provide services and information that make it easy to understand and use the health cover which is available to you, whilst studying in Australia.

What is OSHC?

Overseas Student Health Cover (OSHC) is health insurance for international students which provides cover for the costs of:

- Out of hospital medical treatment
- In hospital medical treatment
- Prescription medicines
- Surgically implanted prostheses
- Emergency ambulance transport

The Department of Health regulates OSHC and OSHC providers.

Why is OSHC important?

Student Visa requirement

The Australian Government through the Department of Home Affairs requires all holders of a Student Visa to maintain OSHC during their entire stay in Australia.

Maintaining OSHC is a mandatory condition

According to Student Visa condition 8501, overseas students who do not maintain their OSHC are at risk of having their visa cancelled.

Medical treatment can be expensive

Overseas students are not eligible for Medicare (the public health insurance system for Australian Residents). Without access to Medicare, overseas students may have difficulty paying for medical treatment. In most cases, hospital treatment will cost more than \$1,500 per day.

Section one: OSHC Standard policy

Who is eligible for OSHC?

Overseas students are eligible for OSHC. You are an overseas student if you are:

- (a) a person who is the holder of a Student Visa; or
- (b) a person who
 - i is an applicant for a Student Visa; and
 - ii is the holder of a Bridging Visa; and
 - iii was, immediately before being granted the Bridging Visa, the holder of a Student Visa.

Single or Family Cover

Your Certificate of Insurance will show which policy you have selected. Your policy may be either:

- **Single** – covering only the overseas student who is the primary Student Visa holder;
- **Dual family** – covering the overseas student, and either one adult spouse or recognised de facto partner or one or more children or step-children under the age of 18 years who are not married; or
- **Multi family** – covering the overseas student and more than one dependant, which can only include one adult spouse or recognised de facto partner and one or more dependant children.

How long do I have to be covered?

The Australian Government requires that you have continuous OSHC for the entire length of your stay in Australia.

You can purchase OSHC for the proposed length of your Student Visa (as provided by you to us).

Periods of cover:

- 1 Your OSHC Policy is only valid whilst you hold a current Student Visa and have paid the full premium required.
- 2 You are insured for the period of cover shown on your Certificate of Insurance, starting on the commencement date shown and ending on the expiry date shown.
- 3 Your cover ceases on the date of your departure from Australia, the date you cease to hold a Student Visa, or on the expiry date shown on your Certificate of Insurance, whichever occurs first. However if you leave Australia on a holiday but return prior to the expiry date shown on your Certificate of Insurance and you still hold a current Student Visa when you return, your cover will recommence on your return to Australia and continues for the remaining period of your cover.
- 4 The minimum period for which you must have OSHC cover is the duration of your Student Visa, unless a medical condition verified by a doctor and acquired during the term of your Student Visa has resulted in you being unfit to travel home. However you will be required to provide to the Department of Home Affairs evidence of continuous coverage by OSHC for the proposed duration of your Student Visa as a condition of being granted a Student Visa for that proposed duration.
- 5 It is a Student Visa requirement that OSHC must be continuous for the term of your Student Visa. If you allow your OSHC to lapse whilst on a Student Visa, and you wish to renew your OSHC during the duration of your Student Visa, you must pay the premiums for the lapsed period.
- 6 No benefits are payable for claims incurred by you during the lapsed period of your OSHC.
- 7 Regardless of the general exclusions listed in this policy, no additional waiting periods will apply to claims you make if you have allowed your OSHC to lapse whilst on a Student Visa and have since renewed your OSHC during the duration of your Student Visa.

For the purposes of these exclusions, the date of an overseas student or dependant arriving in Australia, and whether or not a condition is a pre-existing condition, will be determined in accordance with the section 'Waiting period for pre-existing conditions' below.

Waiting period for pre-existing conditions

There is a waiting period for pre-existing conditions.

You cannot claim for costs arising during the waiting period if such costs arise from a pre-existing condition.

The waiting period is calculated as 12 months (or, in the case of pre-existing conditions of a psychiatric nature, two months) commencing from:

- the date you or your dependant (as the case may be) arrived in Australia; or
- the date your Student Visa was granted,

whichever is the later date.

A pre-existing condition is an ailment, illness or condition the signs or symptoms of which (in the opinion of a medical practitioner approved or appointed by us) existed in the period of six months ending on the later of:

- the date you or your dependant (as the case may be) arrived in Australia; or
- the date your Student Visa was granted.

In forming this opinion, the medical practitioner must have regard to any information in relation to the ailment, illness or condition provided to that medical practitioner by the medical practitioner who treated the ailment, illness or condition.

This includes an ailment, illness or condition that was present, but had not been diagnosed by a medical practitioner at the time of your arrival in Australia or the date your Student Visa was granted, whichever is the later date.

A pre-existing condition includes a secondary related condition or disability directly arising from a pre-existing condition.

The Australian healthcare system

It is very important that you have a good understanding of the Australian healthcare system. If you understand the healthcare system in Australia, you will be able to access the best and most effective treatment for you.

General Practitioners

If you are not in a medical emergency situation, the first point of contact is a general practitioner (GP), medical practitioner or local health/medical centre. You can access many services at your local health centre. Some of the services available are:

- General medicine and simple diagnostic screenings.
- Assessment and treatment of health problems and injuries.
- First aid services as needed.
- Women's and men's health.
- Referrals to specialist services.

In most cases, it is necessary for you to make an appointment to see your doctor.

Accident and emergency treatment

Many hospitals have a 24 hour Accident and Emergency department. Accident and Emergency departments should only be accessed in the case of emergency situations. When you visit an accident and emergency department, a nurse will assess you and if your illness or injury is not deemed as an emergency, you may need to wait a long time to see a doctor.

Hospital treatment

If you have been admitted for emergency treatment, contact Allianz Global Assistance immediately on 1800 814 781. If you have been referred to hospital for a non-emergency admission, contact the claim department on 1800 651 349 prior to admission. You will need to provide Allianz Global Assistance with the details of your treatment and hospital stay. We will then be able to confirm your cover and assist you with making arrangements for payment to the hospital.

Public admission

Generally, OSHC covers the total cost of your stay and treatment as an in-patient in a shared ward of a public hospital. As a public patient, your doctors will be nominated by the hospital. After your hospital discharge your care will be carried out in either the outpatient clinic, by one of the hospital's specialists in his/her private rooms or you will be referred to your local general practitioner.

Private admission

You can choose to be treated in a private hospital. Through our relationship with Peoplecare Health Limited we have arrangements in place with most private hospitals in Australia. These agreement hospitals ensure that an agreed schedule of fees (including in-patient accommodation, theatre and special unit accommodation fees as appropriate) is charged by the hospital and paid by Allianz Global Assistance on a member's behalf. You may incur out of pocket costs for private hospital expenses. We also have arrangements with private specialists in order to minimise your out of pocket costs for medical services.

There are only a few private hospitals that are not part of these agreement hospitals. In these cases, we may not cover the full cost of your hospitalisation however, if you call us for a chat before you go into hospital we'll be able to tell you how much it will cost you. Members who choose a non-agreement hospital may incur out of pocket expenses for hospital related services.

How do I find a doctor

Direct billing services

In order to minimise your medical expenses, you can attend a health service or doctor that direct bills Allianz Global Assistance. You can find your closest direct billing service on our website at www.allianzassistancehealth.com.au/oshc. You simply have to show your valid Allianz Global Assistance OSHC membership card, and the bill for the covered portion of your service will be sent directly to Allianz Global Assistance.

Other medical providers

You can attend any other medical practice or doctor in Australia. In most cases, you will be required to pay the bill, and submit a claim to Allianz Global Assistance in order to get your benefit reimbursed. Some medical practices or doctors may charge more than the benefit payable, in which case you will be required to pay a co-payment that is not covered by your policy.
