Correction: Common subclinical hypothyroidism during Whipple's disease

Jean-Christophe Lagier¹, Florence Fenollar¹, Jacques Chiaroni², Christophe Picard², Christiane Oddo³, Laurent Abi-Rached^{1,4} and Didier Raoult^{1*}

Following publication of the original article [1], an error was identified in the ethics agreement number from the Ethics Committee of the Institut Fédératif de Recherche IFR48, Faculty of Medicine, Marseille France.

The Ethical Statement should read:

Informed consent was obtained from all the participating patients in the study. The study was conducted as part of normal care, without supplementary patient's samples. The study was approved by the Ethics Committee of the Institut Fédératif de Recherche IFR48, Faculty of Medicine, Marseille France (agreement number 13-028-02).
