

HarrisX Overnight Poll: July 19-21, 2024 Poll of Registered Voters Nationwide

This survey was conducted online within the United States from July 19th – July 21st, 2024, among 2,753 registered voters via the HarrisX Overnight Poll. Respondents for the HarrisX Overnight Poll are recruited through opt-in, web-panel recruitment sampling. Recruitment occurs through a broad variety of professional, validated respondent panels to expand the sampling frame as wide as possible and minimize the impact of any given panel on recruiting methods.

The results reflect a nationally representative sample of registered voters. Results were weighted for age, gender, region, race/ethnicity, income, political party, education, ideology and area type where necessary to align them with their actual proportions in the population. The margin of error for the total sample is +/- 1.9 percentage points.

TQ6: Do you think the country is generally on the right track or is it off on the wrong track?

Column %	Total	Field Date		Likely voters T2B	Party ID				Gender
