

G&H - Scope & Statutory Entity Statement

Scope & Boundaries

G&H Headquarters is in Ilminster, Somerset, and has a global reach of companies in the UK. Consisting of Torquay, St Asaph, Plymouth and Ashford. And in the US, Keene, Cleveland, Freemont, Moorpark and Rochester. All providing a better world with G&H by providing photonics engineering and manufacturing solutions for industry, telecoms, aerospace, defence, space and life sciences, enabling their customers to innovate and compete by leveraging the world-class expertise in photonics technology.

Ilminster – G&H Ilminster design and manufacture precision optical components and systems which are delivered worldwide.

The site is positioned on the extremities of the Ilminster village in Dowlish Ford which is approximately 4 miles from Chard and 1 mile from Ilminster, situated within country roads that are surrounded by rural dwellings. The site is boarded by hedgerows and the river Isle. The river flows through Ilminster in Somerset, England. It originates near Combe St Nicholas and meanders northward, passing through several towns including Donyatt and Puckington, Eventually, it discharges into the River Parrett south of Langport, near Midelnay. The site has a pond which feeds off the Isle and runs via culverts through and bordering the site. The site buildings/workshops cover 78.80KSqFt. Adjacent to the business are privately owned houses and farmland. G&H Ilminster has a permit for a Klargester due to small river deposits of filtered fluids entering the river.

G&H Ilminster, Dowlish Ford, TA19 0PF

Torquay – G&H Torquay develop, design and manufacture fibre optic componenets, modules and phonic systems.

The site is positioned within the Broomhill way industrial estate on the Edge of Torquay. The site is boarded by grass banks and industrial buildings. The site buildings/workshops cover 44.7KSqFt.

G&H Torquay, Broomhill Way, TQ2 7QL

St Asaph – G&H St Asaph are the design arm of G&H Ilminster. They are positioned in Unit 6, New Vision Business Park and they are boarded by other business entities. The site is 6 miles from Rhyl. The site buildings/workshops cover 4.99KSqFt.

G&H St Asaph, New Vision Business Park, LL17 0LP

Plymouth – G&H Plymouth (Artemis) create advanced optical film coatings. The site is positioned in the Language Business Park, Plympton, which is 7 Miles from Plymouth and is bordered by industrial units, trees and hedges. The site buildings/workshops cover 21.2KSqFt.

G&H Plymouth, Language Business Park, PL7 5BG

Ashford – G&H Ashford (ITL) Design, develop, manufacture technical diagnostic, analytical, scientific instrumentation and devices. Sub-contract assembly of conventional and surface mounted printed circuit boards, electronic assemblies, and sub-assemblies. They are positioned in Viking House which is part of the Ellingham Way industrial estate. It is situated 2 miles from the centre of Ashford and the site buildings/workshops cover 21.2KSqFt.

G&H (ITL) Ashford, Ellingham way, TN23 6NF
