Request

Please can you supply the exact date that the new driving license forms and driving license renewal forms without the section about signing onto the organ donation register were ordered? Also please specify which official from which department made this order and indicate the time stamp on the order request.

Response

The D1 application form is used for all driving licence applications submitted in paper format. This form is used for new applications and also for applications to renew a driving licence which is due to expire.

The revised D1 application form included a number of changes in addition to the removal of the section to register as an organ donor. The final layout and wording was received for approval in the last week of August 2018. Confirmation of the order was given by email by the Secretary of the Comité des Connétables (S de Gruchy) on behalf of all parishes at 11.45 on 4 September 2018.
