### Request

I would like to find out which areas in St Saviour have kerbside glass collection as ours has been stopped when houses 100m away still have kerbside collection, I have asked the parish directly for this information but they will not provide me with it.

### Response

Glass collection rounds by property types are as follows:

#### **Commercial Glass Recycling Service**

Glass recycling is carried out on a weekly basis as the volume of glass collected is very high.

#### **Residential Glass Recycling Service**

Glass recycling is carried out on a weekly, fortnightly or monthly cycle depending upon the tonnage of glass collected.

The estates listed below have a Eurobin for glass collection but all other areas have a kerbside household collection.

- Bashfords Estate
- Clos de la Molleterie
- Clos Gosset
- Clos Paumelle
- Grasett Park
- Le Geyt Estate
- Les Cinq Chenes
- Pre de Talbot
- Spencer Close
- Troy Court
- Wellington Park Estate

### Information

The Parish is working to improve and grow its current services and to provide information in the public domain (on the website [www.parish.go.je](http://www.parish.go.je) and leaflets delivered to residential addresses). General information will soon be available online with a calendar to download and a schedule of collection services.
