St Helier	Yes, in relation to care regulations.	4 occasions at the Parish Care Home, 2 in 2021 and 2 in 2022. On these 4 occasions, the home temporarily operated in excess of its registered limit of 5 nursing care beds to accommodate existing residents' whose needs increased from residential to nursing care. On each occasion, it was in the best interests of the resident and was done in consultation and discussion with the resident and Jersey Care Commission. However, these do represent a technical breach in staffing levels.
