# About Conduit

While big businesses have their interests voiced by lobbyists and controlled organizations, small businesses often do not have adequate advocates, yet have the most to lose with bad government policy.

By working to measurably reduce the size and scope of government in Arkansas, Conduit is working to unleash individual economic freedom and prosperity. Arkansas based and focused.

# The CONDUIT FAMILY ORGANIZATIONS

Conduit is made up of a collection of entities which hold different roles in the shared mission for prosperity for all Arkansans.

# Introduction

The Conduit for Commerce (CFC) Legislative Scorecard is a resource for Arkansans to learn how their state legislators voted during the 2021 Regular Session of the 93rd General Assembly and compare those votes to the mission of Conduit: more economic freedom for all Arkansans. Legislation during the session is reviewed and analyzed by Conduit for Action, Inc., a sister organization to CFC. Based on those recommendations, CFC has drafted this legislative scorecard. Bills are included in the scorecard by using the CFC Economic Freedom Filter. The scores are based entirely on each legislator's own voting record on bills scored.

## Economic Freedom Filter

**The Economic Freedom Filter is the method by which CFC and CFA determine if a bill is good or bad as they relate to economic freedom for Arkansans. The Economic Freedom Filter analyzes bills that do the following:**

1. Increase or Decrease the Size and Scope of Government
2. Increase or Decrease Dependency on Government
3. Does It Spend Money We Do Not Have
4. Increase or Decrease Transparency in Government

If legislation falls into these categories, it is considered for scoring. CFC will support bills that decrease the size and scope of government, decrease dependency on government, saves money, or increases transparency in government. CFC will oppose bills that increase the size and scope of government, increase dependency on government, spend money the state does not have, or decrease transparency in government.

# Our Methodology

---

Each individual score (percentage) is based solely on a legislator's voting record.

Bills with a larger impact are given greater weight. For example, a \$300 million tax increase bill will be weighted greater than a \$1 million tax cut. Legislation that affects multiple areas of the economic freedom filter receive a greater weight than legislation affecting just one area.

Legislators gain points if they voted with the recommended position of Conduit for Action. For example, if a bill received a weight of two and CFA's position was "Support," then a legislator received no points if they voted "Nay" (against the bill.) If a bill received a weight of two and CFA's position was "Oppose," then a legislator received two points if they voted "Nay." Each legislator's total points were then divided by the total possible points to determine their final percentage score.

Legislators are afforded the opportunity to "pair" their votes when they are absent, ensuring a vote opportunity on every bill. If a legislator was not in the chamber when a vote is held, and they did not pair their vote or did not have a person vote their voting machine for them, they are recorded as a non-vote. An "excused absence" recording was not factored into the overall score.

This is the first year non-votes were considered as voting against our position. We feel it is important legislators vote.

Committee votes were not considered for scoring.

# Social Freedom Scorecard

This year Conduit analyzed and scored votes on “social freedom” issues that appeared before the 93rd General Assembly. These bills focused on issues of individual freedom and social order. This may include items like abortion, the 2nd Amendment, election integrity, COVID-19 response/freedoms, and other legislation impacting social issues or individual freedoms. Awards from Conduit were not based on the social freedom scores, but instead awards were derived only from rankings/scores on the Economic Freedom Scores and issues that fell within that prism. These scores provide a tool for the public to view how their legislator votes on social freedom issues and compare those to how they vote on economic freedom issues.

# Awards

Conduit for Commerce awards the top scoring legislators on the CFC Economic Freedom scorecard for their outstanding voting records. These awards reflect the most fiscally conservative legislators based on their actual votes as they compare to the CFC Economic Freedom Filter. CFC has held a biennial Calvin Coolidge Awards Dinner honoring these top legislators since 2013. This year CFC will be awarding Calvin Coolidge awards to the Top 20% of the Senate and House for their voting records. That means the top seven (7) legislators in the Senate and the top twenty (20) legislators in the House will be recognized, and they will receive a 2021 Calvin Coolidge Award for their outstanding voting record in the 93rd General Assembly—Regular Session, 2021.

**HB1112 - Support (Scored H & S)**  
**Voter Integrity in Provisional Ballots**  
**By: Rep. Mark Lowery (R - Maumelle) / Sen. Alan Clark (R - Lonsdale)**

This bill addresses election integrity in provisional balloting. In several places in the Arkansas code a provisional ballot is allowed to be cast and counted simply by a person swearing, under penalty of perjury, that they are in fact a legal voter. It is also a way to get around voter ID laws which otherwise requires a person to show ID to vote. The change would also remove the requirement that people be notified of the option to cast a provisional ballot. This bill would improve voter election integrity, reduce voter suppression, and ensure that only legal votes are cast and counted.

Result: Signed into Law – Act 249

Weight: 2

**HB1157 - Support (Scored H & S)**  
**Increased Reduction in Teacher Expenses**  
**By: Rep. David Tollett (R - Lexa) / Sen. Alan Clark (R - Lonsdale)**

This bill would increase the tax deduction for teachers who spend their own money for their classrooms/students. It would double the deduction from \$250 to \$500. This is a way to support teachers without raising taxes or spending money we do not have.

Result: Signed into law – Act 971

Weight: 1

### **HB1160 - Support (Scored H only)**

#### **Sales Tax Exemption for Used Cars Increased**

**By: Rep. John Payton (R – Wilburn) / Sen. Jason Rapert (R – Conway)**

This bill would remove the sales tax for used vehicles purchased for less than \$7,500 first then for used vehicles less than \$10,000 after two years. Currently any used cars over \$4,000 are subject to the state's 6.5 percent sales tax, in addition to local sales taxes. Arkansas already charges sales tax on new vehicles, so used vehicles that get resold—or resold multiple times—are being taxed repeatedly. This bill reduces double taxation and provides more economic freedom for Arkansans.

Result: Passed in House. **Failed in Senate Committee.**

Weight: 2

### **HB1198 - Support (H & S)**

#### **Amending Supervision Requirements for Nurse Anesthetists**

**By: Rep. Clint Penzo (R – Springdale) / Sen. David Wallace (R – Leachville)**

This bill would shift “supervision” requirements to “consultation” requirements for nurse anesthetists. Current Arkansas law requires a CRNA to practice under the supervision of a licensed physician. Practically, many CRNA's work autonomously in coordination with a physician. Many rural or smaller healthcare providers may be unable to hire more expensive anesthesiologists but could hire a CRNA. This bill would correctly change supervision requirements to consultation requirements to maintain patient safety while ensuring CRNA's can practice to the full scope of their education and training.

Result: Signed into law – Act 449

Weight: 1

### **HB1211 - Support (Scored H & S)**

#### **Religious Freedom Protected During Emergencies**

**By: Rep. Mary Bentley (R – Perryville) / Sen. Kim Hammer (R – Benton)**

This bill would ensure churches and houses of worship are not forcefully closed, even during an emergency declared by the government. They will be deemed “essential” and allowed to remain open. It would not allow churches to be singled out like they have been during the COVID19 pandemic as specific gatherings that are restricted in some way. Churches would have to comply with health and safety standards and could not be penalized for remaining open during an emergency.

Result: Passed into law without the Governor's signature - Act 94

Weight: 2

### **HB1215 - Support (Scored H & S)**

#### **Full Practice Authority for Nurse Midwives**

**By: Rep. Mary Bentley (R – Perryville) / Sen. Kim Hammer (R – Benton)**

This bill would grant full practice authority for Nurse Midwives to provide healthcare services without having to have a costly and burdensome collaborative practice agreement. This bill removes those excessive regulations and provides more economic freedom for nurse midwives to practice their trade.

Result: Signed into law – Act 67

Weight: 2

### **HB1227 - Support (Scored H & S)**

#### **No Minimum Wage for Off Duty Truck Drivers**

**By: Rep. Jeff Wardlaw (R – Hermitage) / Sen. Lance Eads (R – Springdale)**

This bill codifies that the minimum wage and overtime compensation laws do not apply for truck drivers while they are off duty or not primarily furthering the employer's work activity. This is a good bill that makes it clear that the high minimum wage in Arkansas and overtime compensation laws are not used while drivers are not truly working for their employer.

Result: Signed into law – Act 91

Weight: 1

### **HB1254 - Support (Scored H & S)**

#### **APRN as Primary Care Provider in Medicaid**

**By: Rep. Jeff Wardlaw (R – Hermitage) / Sen. Kim Hammer (R – Benton)**

This bill would allow an Advanced Practice Registered Nurse (APRN) to serve as a primary care provider within the Medicaid program. A shortage of licensed physicians also leads to less supply of quality healthcare services for those in rural areas and on Medicaid. These providers can recommend specialists to see if more specific care is needed. Nearly half the states in this country and allow qualified APRNs to serve as a PCP and case managers within the Medicaid program, increasing access to care for Medicaid patients to have a PCP.

Result: Signed into law – Act 569

Weight: 1

**HB1258- Support (Scored H & S)**

**HB1280 - Oppose (Scored H only)**

Secret Meetings for Economic Development Projects

**By: Rep. Delia J. Haak (R - Centerton) / Sen. Lance Eads (R - Springdale)**

This bad bill would allow for secret meetings for cities to discuss economic development projects in an "executive session" rather than at regular city council or quorum court meetings.

Result: Passed in House. **Failed in Senate Committee.**

Weight: 2

**HB1361 - Support (Scored H & S)**

No Taxes Levied on PPP Loans and COVID19 Relief Funds

**By: Rep. Les Eaves (R - Searcy) / Sen. Jonathan Dismang (R - Beebe)**

This bill would make clear that Arkansas income taxes or other taxes would not be applied to loans through the PPP federal program under COVID19 relief and treats the PPP loans the same as the federal tax laws by not taxing those funds. This bill saves taxpayers \$212 million that would otherwise be due the state of Arkansas.

Result: Signed into law - Act 248

This is an act to amend the law concerning the dates for certain special elections, and to promote voter turnout.

**Result: Failed on House Floor.**

Weight: 2

**HB1371 - Support (Scored H only)**

**School Choice Scholarships**

**By: Rep. Ken Bragg (R - Sheridan) / Sen. Jonathan Dismang (R -Beebe)**

This bill would create a tax credit scholarship program to fund scholarships for the education of K-12 students. A dollar-for-dollar income tax credit would be provided (up to \$10 million in the first year) for individuals and businesses who donate to the scholarship program. The program would be split with public-school grants (\$6 million) and private school scholarship accounts (\$4 million). Per student funding of about \$7,000 per student would be available. The scholarships would only be available for students transferring from a public school to a private school and whose family is no more than 200 percent of the federal poverty level. This is about \$72,000 for a family of four. This is a good bill that expands school choice opportunities for lower-income students in Arkansas.

**Result: Failed on House Floor.**

Weight: 2

**HB1416 - Support (Scored H & S)**

**Work From Home Freedom**

**By: Rep. Kendon Underwood (R - Cave Springs) / Sen. Mark Johnson (R -Little Rock)**

This bill would prohibit local governments from preventing people from working from home with local ordinances that are overbroad. Localities could still have regulations such as preventing odors from residences, no billboards/advertisements, and other health and safety regulations.

Result: Signed into law - Act 659

**Volunteer Health Care Act Extension to Therapists**

**By: Rep. Aaron Pilkington (R - Knoxville) / Sen. Clark Tucker (D -Little Rock)**

This bill would allow therapists, counselors, and addiction specialists to volunteer under the Volunteer Health Care Freedom Act. The act provides limited liability coverage covered by the state in exchange for free healthcare services to low-income Arkansans. The bill would also increase the number of hours a person can receive continuing education credit for this volunteer time from the current max of eight hours, increased up to thirty-two hours total.

Result: Signed into law - Act 968

Weight: 1

**HB1460 - Support (Scored H & S)**

**Workforce Freedom- Uniform Licensing Laws Across the State**

**By: Rep. Richard Womack (R - Arkadelphia) / Sen. Trent Garner (R -El Dorado)**

This bill would require licensing, including occupational licensing, be within the sole purview of the Arkansas General Assembly at the state level. It supersedes any law-making ability of localities to have occupational licenses that are inconsistent with state law. It specifically prohibits cities and counties from making any license, registration, or certification to conduct a trade, profession, or occupation. Regulating occupations will be only allowed at the state level by the state legislature. Since this bill reduces barriers to economic freedom, it is a good bill.

Result: Signed into law - Act 567

Weight: 1

**HB1512 - Support (Scored H & S)**

**Promoting Work in Food Stamps**

**By: Rep. Kendon Underwood (R - Cave Springs) / Sen. Bart Hester (R - Cave Springs)**

This bill would prohibit the Department of Human Services from exercising the state option to waive work requirements for food stamp program.

Result: Signed into law - Act 419

Weight: 1

**HB1517 - Oppose (Scored H & S)**

Electronic Voter Registration

**By: Rep. Justin Boyd (R – Fort Smith) / Sen. Breanne Davis (R –Russellville)**

This bill weakens election integrity. It would allow new electronic voter registration under the supervision of one elected official, with online, rather than a more stringent mail-in form currently used. (Line 20 of page 5 even allows for online ballots.) An electronic signature rather than an actual signature would be accepted for a new voter registration. The bill amends the Arkansas Constitution requiring EITHER a driver's license number or the last four digits of a social security number for a new voter to be registered, and the registrar must register them when provided with this information. Our most recent elections have proven, across the country, that more stringent not more lenient voter laws are needed. This is a bad bill which would open up our elections to more fraud, not less.

Result: Passed in House. **Failed in Senate.**

Weight: 2

**HB1642 - Support (Scored H & S)**

Child Support Cooperation in Public Housing

**By: Rep. Kendon Underwood (R – Cave Springs)**

Weight: 1

### **HB1765 - Support (Scored H & S)**

Preventing Fraud in Unemployment Insurance

**By: Rep. Robin Lundstrum (R -Elm Springs) / Sen. Kim Hammer (R -Benton)**

This good bill would help reduce unemployment fraud. It would crosscheck enrollees for unemployment against new hire databases, integrity data hub databases, and against prison databases. It would allocate funding for the ongoing “crackdown against fraud” in the unemployment insurance program.

Result: Signed into law – Act 667

Weight: 1

### **HB1845 - Oppose (Scored H & S)**

Restricted Free Speech on Sale of Alcohol at Private Club

**By: Rep. Mark Perry (D -Jacksonville)**

Weight: 2

### **HB1899 - Oppose (Scored H only)**

Denial of Free Speech in Judicial Elections

**By: Rep. Andrew Collins (D -Little Rock) / Sen. Clarke Tucker (D - Little Rock)**

This bad bill would require “noncandidates” who say things about a judicial candidate running for AR Supreme Court or AR Court of Appeals to disclose their spending and their donors. This is a direct assault on the first amendment which protects people from having their identities disclosed when they decide to donate to private organizations who do not directly support or oppose a candidate for office but reveal positions and actions taken by the candidate during his or her career. The trigger speech in this bad bill is that which merely “impacts” voters. This bill is an attempt to overturn the right to free speech in judicial elections. Because of current law, it is often difficult in our state for the voter to learn or know the position of judges in races, including those running for Supreme Court. In 2016 and 2018 outside groups came into Arkansas and educated voters on the judicial record of a specific candidate, Justice Goodson. It is thought that information, though not false, may have impacted those races. If passed this bad bill would require pro-life groups who simply highlight a judicial candidate’s prior Pro-Abortion opinions, to disclose and report their donors as though they were contributing to campaigns in an election.

Attorney’s Fees Awarded for Getting Public Records During Litigation

**By: Sen. Dan Sullivan (R - Jonesboro) / Rep. Jon Milligan (R -Lake City)**

Under current law, legal expenses may be ordered by a judge against the public entity, defendant, when a citizen prevails in a FOIA lawsuit. This bill would also allow attorneys’ fees and other litigation expenses to be awarded to the person bringing a FOIA lawsuit if after the lawsuit is filed (but before an order entered by the judge), the public entity releases a substantial or material portion of records originally sought but withheld. This will provide greater incentive for the state to willingly produce legally obtainable information prior to the need by the public to file time-consuming litigation, as well as encourage the public to bring legitimate FOIA lawsuits knowing they may recoup their legal costs spent at any point after immediately filing the case, even when settled prior to a judge’s orders.

Transparency for the Rainy Day Fund

**By: Sen. Jimmy Hickey, Jr (R -Texarkana)**

This bill would provide transparency over the funds used from the Rainy-Day Fund, of which the Governor has great control and discretion. Any transfer, expenditures, agreed upon commitments, or other obligation of funds must be disclosed by the chief fiscal officer of the state to either the Legislative Council or the Joint Budget Committee. This would trigger a report of those funds and where they are going, with the report being distributed to the entire Legislative Council membership or Joint Budget Committee if during session.
