Master of many things?

Subject: Multimedya isc-v:85

I have toyota corola with multimedya system that you have its copyright.

I need a advice to know how to use the gps.

Why use curl?

Internet doesn't follow specs

Open source

MIT licensed

Simple and stable API

Yet powerful API

C library is still most portable and flexible

Bindings

Decent docs

Decent stability

All the protocols

Fast

Footprint shaving

Many TLS backends

http://curl.haxx.se/libcurl/theysay.html

Why Open Source?

There was never any alternative to me

Wanted to contribute back

Would never even come close unless

No, I would not be rich otherwise

How to write software that ends up getting used by billions of people

Write good software

Write lots of code

Provide useful options and APIs

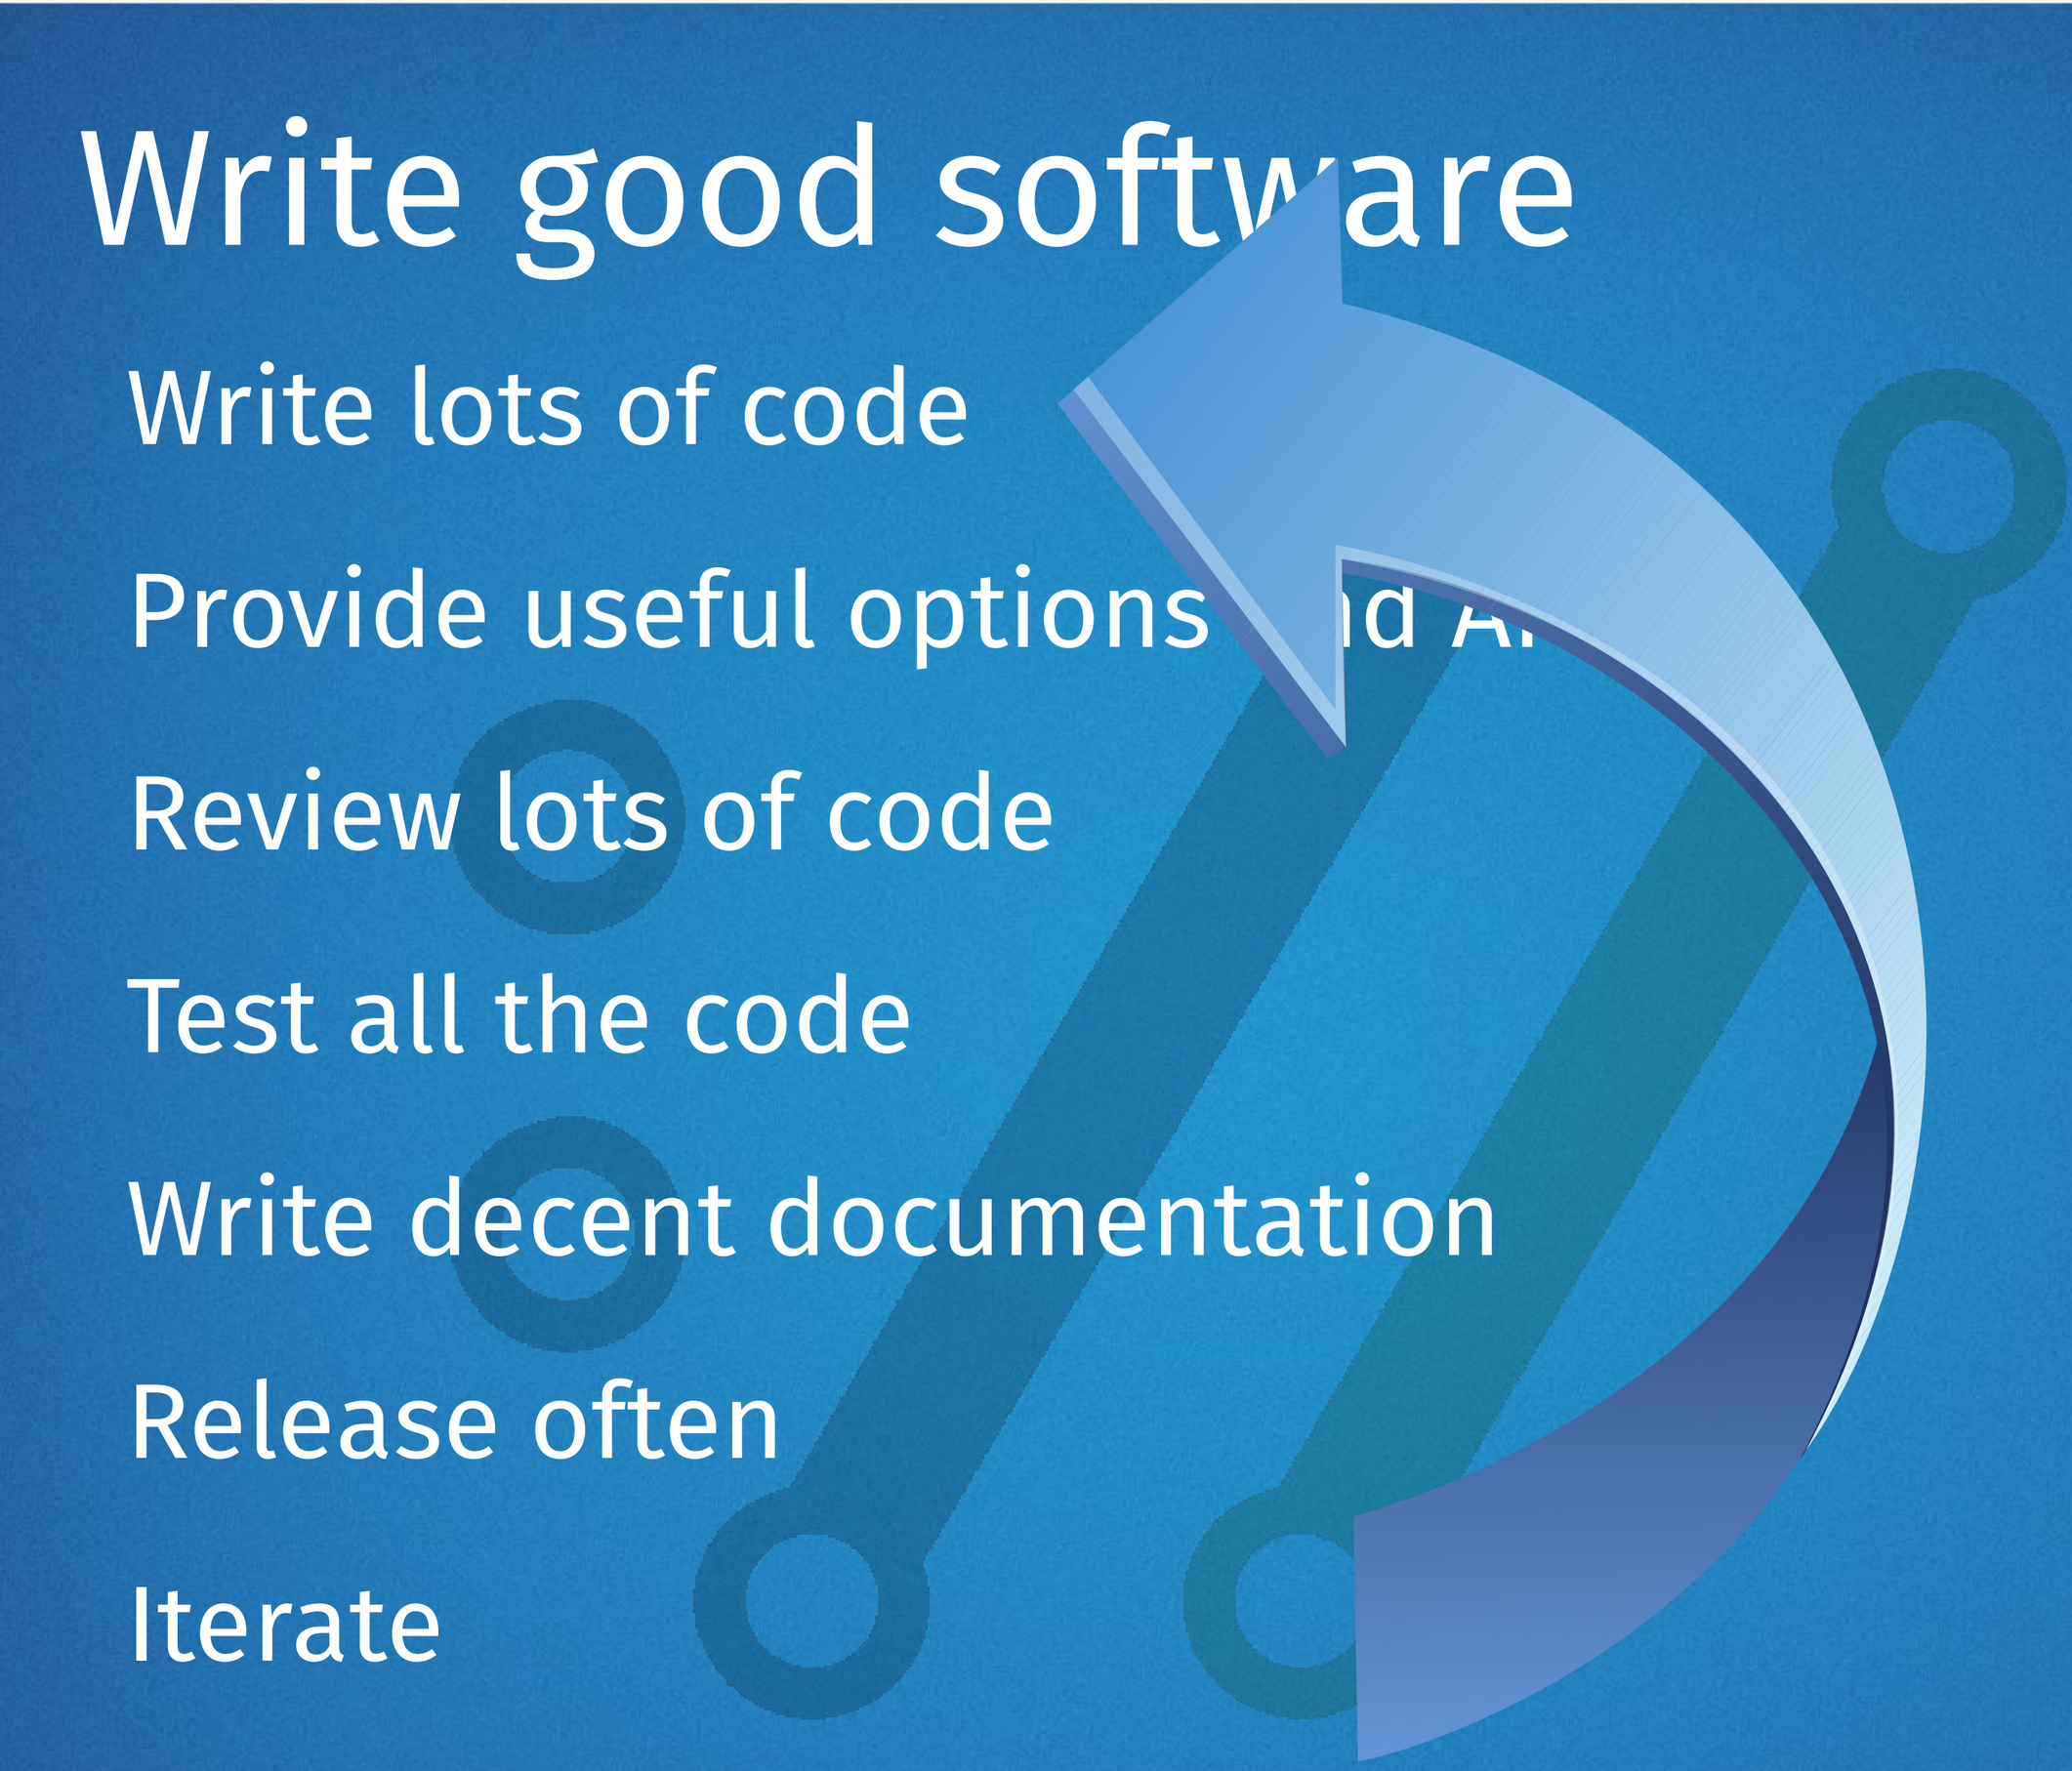
Review lots of code

Test all the code

Write decent documentation

Release often

Iterate



Repeat until it actually succeeds

Will curl give us the next heartbleed?

I hope not

Static code analyzers

Tests

MOSS code audit

Documentation

Reviews

Valgrind

Fuzzing

Code style

(at 60+ CVEs and counting)

Let's make it personal

This is the lead developer of this project

mozilla

This is my primary hobby

On average, I work two hours on curl per day

Every day of the week, every week of the year

Since 1998

Part time paid by Mozilla since 2014

14,000 spare time hours and counting

24,000 emails sent

15,000 commits

mozilla

Why I do it?

I enjoy creating something that is appreciated by others. Many others.

I want to make curl as good as possible

Everyone needs a hobby

mozilla

Why I work on curl

It's the most fun I can imagine

Future

No, it truly never gets done

Protocols keep evolving

Open source code survives

No slow-down in sight

You can help!
