

To schedule an appointment, call 513-221-1100 or 800-325-7787.
Regular business hours are 9:00 am to 5:00 pm, Monday through Friday.

Ohio Physicians

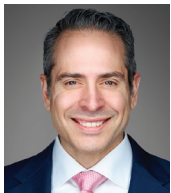

Neurosurgery

Robert J. Bohinski, MD, PhD

• Office – Norwood

Areas of expertise – minimally invasive spine surgery, discectomy, decompression, spinal fusion, and artificial disc replacement; spine deformity surgery, including kyphosis and scoliosis; tumors of the brain, spine and pituitary gland, Chiari malformation

Bradford A. Curt, MD

• Office – West Chester

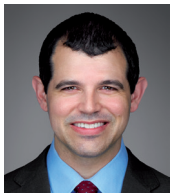

Areas of expertise – minimally invasive spine surgery, including spinal fusion, decompression and discectomy; spine surgery for deformity correction in adults; image-guided neurosurgery

Vincent A. DiNapoli, MD, PhD

• Offices – Norwood, Anderson Township

Areas of expertise – open neurosurgery and endoscopic skull base surgery for pituitary tumors, metastatic brain tumors, and carotid artery disease; minimally invasive spine surgery, including discectomy, decompression and fusion

Yair M. Gozal, MD, PhD

• Offices – Norwood, Green Township

Areas of expertise – pituitary tumors, brain tumors, acoustic neuromas, meningiomas, trigeminal neuralgia, cerebral aneurysms; open and endoscopic skull base surgery, complex cranial surgery, stereotactic radiosurgery; minimally invasive spine surgery, including discectomy, decompression, and fusion

Randall J. Hlubek, MD

• Office – Norwood

Areas of expertise – scoliosis and spinal deformity, complex spine surgery, minimally invasive spine surgery, revision spine surgery, spine tumor, spinal cord tumor, spinal trauma, cervical spine surgery, thoracic spine surgery, lumbar spine surgery

Robert F. James, MD

• Offices – Crestview Hills, Norwood

Areas of expertise – open and endovascular approaches for treatment of brain aneurysms, arteriovenous malformations (AVMs), arteriovenous fistulas, and stroke; carotid endarterectomy; carotid angioplasty and stenting; embolization of tumors; ischemic stroke; intracranial atherosclerosis; cavernous malformations; Chiari malformations; brain tumors; cervical spine disorders, carpal tunnel syndrome, ulnar nerve neuropathy

Michael C. Kachmann, MD

• Office – Norwood

Areas of expertise – spinal deformity surgery, minimally invasive spine surgery, cervical discectomy, thoracic discectomy, lumbar discectomy, spinal decompression, spinal fusion, minimally invasive outpatient spinal fusion, spinal oncology, spinal cord tumors, kyphoplasty, carpal tunnel and ulnar nerve decompression, spinal trauma

Bryan M. Krueger, MD

• Office – Norwood

Areas of expertise – complex spinal disorders, including thoracolumbar and cervical spine deformity, scoliosis, kyphosis; revision spine surgery; minimally invasive spine surgery for degenerative spine conditions, including spinal fusion, decompression, discectomy, artificial disc replacement, sacroiliac joint fusion; spine tumor; spine trauma; Chiari malformation; clinical spine research

Christopher M. McPherson, MD

• Office – Green Township

Areas of expertise – brain tumor surgery, including awake surgery and surgery for eloquent brain region tumors; minimally invasive spine surgery, cervical discectomy, cervical artificial disc replacement, thoracic discectomy, lumbar discectomy, spinal decompression, spinal fusion, minimally invasive outpatient spinal fusion, spinal oncology, spinal cord tumors

Juan C. Mejia Munne, MD

• **Office** – Anderson Township
Areas of expertise – complex spinal disorders, including adult thoracolumbar and cervical spine deformity, scoliosis, kyphosis; revision spine surgery; minimally invasive spine surgery for degenerative spine conditions, including spinal fusion, decompression, discectomy, artificial disc replacement and sacroiliac joint fusion; spine tumor; spine trauma; Chiari malformation

Tann Nichols, MD

• **Offices** – Crestview Hills, Norwood
Areas of expertise – minimally invasive spine surgery, including discectomy, decompression, spinal fusion; spinal cord stimulation, intrathecal pain pumps, kyphoplasty; brain tumors; carpal tunnel syndrome and ulnar nerve neuropathy

Lauren R. Ostling, MD

• **Office** – Green Township
Areas of expertise – minimally invasive spine surgery, including discectomy, decompression, and fusion; image guided neurosurgery, brain tumors, spine tumors, hydrocephalus, Chiari malformation; adolescent patients transitioning to adult care

Zachary J. Plummer, MD

• **Office** – West Chester
Areas of expertise – complex spinal disorders, including adult idiopathic scoliosis, cervical spinal deformity, thoracolumbar spinal deformity and spine trauma; revision spine surgery; minimally invasive outpatient surgical techniques,

including decompression, discectomy, navigated spinal fusion, artificial disc replacement and sacroiliac joint fusion; spine and spinal cord tumors; Chiari malformation; hydrocephalus

Andrew J. Ringer, MD

• **Office** – Norwood
Areas of expertise – endovascular coiling and surgical clipping of aneurysms; embolization of tumors and vascular malformations; angioplasty and stenting for intracranial artery stenosis and stroke; arteriovenous malformation embolization

and surgery; carotid stenting and endarterectomy; kyphoplasty for spinal fractures; Chiari malformations

Michael W. Robinson, MD, PhD

• **Office** – Norwood
Areas of expertise – open and endovascular approaches for treatment of aneurysms, arteriovenous malformations (AVMs), arteriovenous fistulas and vascular malformations of the spine; carotid endarterectomy; carotid angioplasty and

stenting; endovascular management of acute ischemic stroke; hydrocephalus; Chiari malformations; brain tumors; minimally invasive spine surgery, including decompression, discectomy, fusion and artificial disc replacement; carpal tunnel syndrome

Ryan D. Tackla, MD

• **Office** – Norwood
Areas of expertise – open and endovascular approaches for treatment of aneurysms, arteriovenous malformations (AVMs), and arteriovenous fistulas; carotid endarterectomy; carotid angioplasty and stenting; tumor embolization;

ischemic stroke; intracranial atherosclerosis; cavernous malformations; vascular lesions of the spine; kyphoplasty for spinal fractures; Chiari malformations; brain tumors

Zachary J. Tempel, MD

• **Offices** – Green Township, West Chester
Areas of expertise – spinal disorders, spine tumors, complex spinal disorders, including scoliosis and adult spinal deformity; minimally invasive techniques, spine revision surgery; clinical spine research

William D. Tobler, MD

• **Offices** – Norwood, Anderson Township
Areas of expertise – minimally invasive spine surgery, including discectomy, spinal fusion, decompression, artificial disc replacement, and outpatient minimally invasive lumbar spine fusion; minimally invasive deformity correction; tumors

of the brain and spine; stereotactic and image-guided neurosurgery; endoscopic pituitary surgery; Chiari malformations

Ronald E. Warnick, MD

• **Office** – West Chester
Areas of expertise – brain tumors, brain lesions, trigeminal neuralgia, image-guided neurosurgery, image-guided radiation therapy, stereotactic radiosurgery, Gamma Knife radiosurgery

Orthopedic Spine Surgery

Ryan J. Godinsky, MD

• **Offices** – West Chester, Springboro (May 2024)
• **Areas of expertise** – spinal disorders, spine revision surgery; minimally invasive surgery for degenerative spine conditions, including spinal fusion, decompression, discectomy, artificial disc replacement and sacroiliac

joint fusion

Physical Medicine & Rehabilitation

Matthew M. Merz, MD

- Office – West Chester

Areas of expertise – nonsurgical management of acute and chronic pain due to spine and joint disorders; performing trigger point injections, large joint injections, and electromyograms

Steven Wunder, MD

- Offices – Norwood, Green Township, Crestview Hills

Areas of expertise – electrodiagnostics, electromyography (EMG) and nerve conduction velocity (NCV) tests

Interventional Pain Management

Donald P. Carruthers, MD

- Offices – Norwood, Crestview Hills

Areas of expertise – interventional spinal procedures and therapies, such as joint injections, epidural steroid injections, facet joint injections, spinal cord stimulation; treatment of low back pain, neck pain, disc herniation, spinal stenosis

Lynda M. Groh, MD

- Office – West Chester

Areas of expertise – interventional pain management procedures; transforaminal epidural steroid injections, facet injections, ultrasound guided blocks, radiofrequency ablation, spinal cord stimulation, peripheral nerve stimulation, cryoablation

Marc P. Orlando, MD

- Office – Norwood

Areas of expertise – interventional spinal treatments/therapies, such as transforaminal epidural steroid injections, facet injections, nerve blocks, radiofrequency ablation, spinal cord stimulation; treatment of low back pain, complex regional pain syndrome (CRPS), sacroiliac joint pain, herniated disc, spinal stenosis

Donald J. Staggs, MD

- Office – Norwood, West Chester

Areas of expertise – physical medicine and rehabilitation; interventional spinal procedures and therapies, such as joint injections, epidural steroid injections, facet joint injections, radiofrequency ablation, spinal cord stimulation, EMGs, and ultrasound guided injections; treatment of

low back pain, neck pain, disc herniation, spinal stenosis, and peripheral neuropathy

Kentucky Physicians

Neurosurgery

Steven C. Bailey, MD

- Office – Crestview Hills

Areas of expertise – spine surgery, including spinal fusion, decompression, and discectomy; surgical management of pain, including spinal cord and nerve stimulation, and intrathecal pain pumps; surgical management of facial pain and trigeminal neuralgia; image-guided neurosurgery; intracranial surgery for brain tumors and Chiari malformation

Robert F. James, MD

- Offices – Crestview Hills, Norwood

Areas of expertise – open and endovascular approaches for treatment of brain aneurysms, arteriovenous malformations (AVMs), arteriovenous fistulas, and stroke; carotid endarterectomy; carotid angioplasty and stenting; embolization of tumors; ischemic stroke; intracranial atherosclerosis; cavernous malformations; Chiari malformations; brain tumors; cervical spine disorders, carpal tunnel syndrome, ulnar nerve neuropathy

Tann Nichols, MD

- Offices – Crestview Hills, Norwood

Areas of expertise – minimally invasive spine surgery, including discectomy, decompression, spinal fusion; spinal cord stimulation, intrathecal pain pumps, kyphoplasty; brain tumors; carpal tunnel syndrome and ulnar nerve neuropathy

Bradbury A. Skidmore, MD

- Office – Crestview Hills

Areas of expertise – minimally invasive spine surgery, including discectomy, decompression, and spinal fusion; spinal cord tumors, brain tumors; intracerebral hemorrhage

Interventional Pain Management

Donald P. Carruthers, MD

- Offices – Norwood, Crestview Hills

Areas of expertise – physical medicine and rehabilitation; interventional spinal procedures and therapies, such as joint injections, epidural steroid injections, facet joint injections, spinal cord stimulation; treatment of low back pain, neck pain, disc herniation, spinal stenosis

Physical Medicine & Rehabilitation

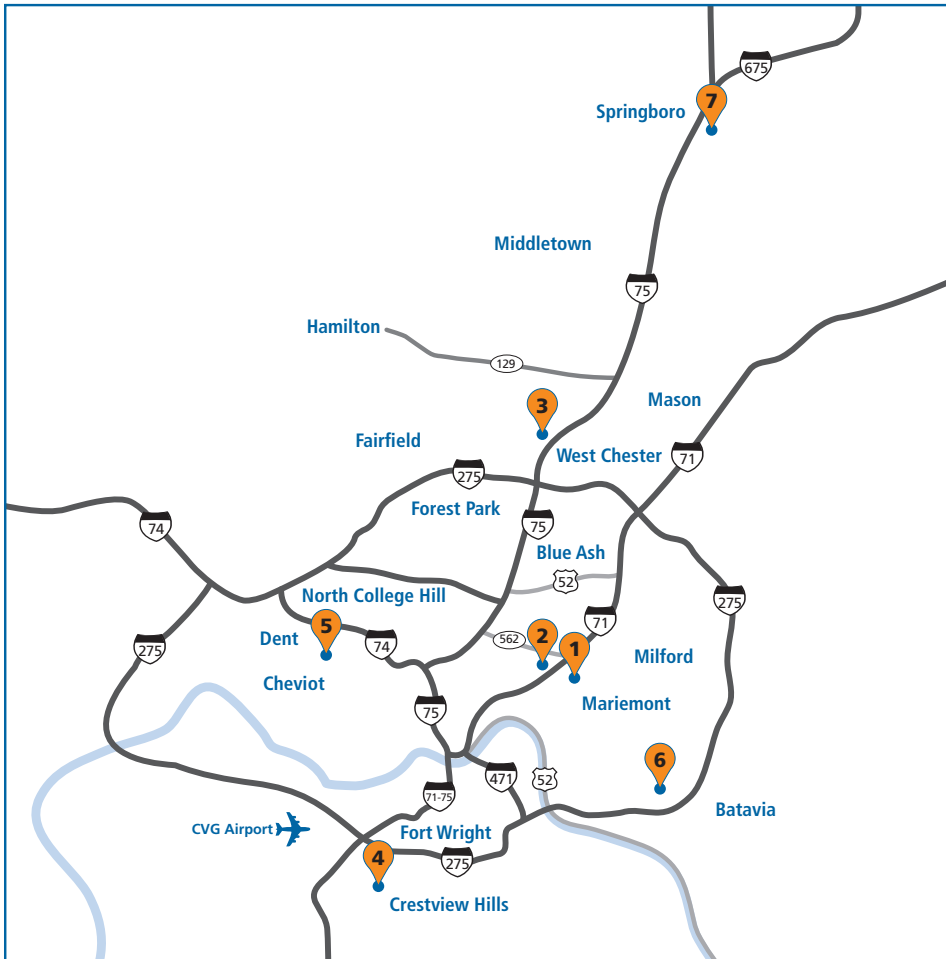

Steven Wunder, MD

- Offices – Crestview Hills, Norwood, Green Township

Areas of expertise – electrodiagnostics, electromyography (EMG) and nerve conduction velocity (NCV) tests

Mayfield Office Locations

- 1. Mayfield Brain & Spine**
3825 Edwards Road, Suite 300
Cincinnati, OH 45209
- 2. Mayfield Spine Surgery Center**
4020 Smith Road
Norwood, OH 45209
- 3. Mayfield Brain & Spine**
9075 Centre Pointe Drive, Suite 200
West Chester, OH 45069
- 4. Mayfield Brain & Spine**
544 Centre View Blvd
Crestview Hills, KY 41017
- 5. Mayfield Brain & Spine**
6130 Harrison Avenue
Cincinnati, OH 45247
- 6. Mayfield Brain & Spine**
7661 Beechmont Avenue, Suite 240
Cincinnati, OH 45255
- 7. Mayfield Brain & Spine**
55 Pinnacle Point Drive
Miamisburg, OH 45342
