COMAR 13A.16.10 Safety: 02 First Aid and CPR.A

(1) Basic first aid training through the American Red Cross, or a program with equivalent standards, which is appropriate to all child age groups for which the center is approved; and Cardiopulmonary resuscitation (CPR) training through the American Heart Association, or a program with equivalent standards, which is appropriate to all child age groups.

(2) Adult/Child/Infant CPR & First Aid Training Instructors

Certified instructors are required to hold an Instructor Certification from the American Red Cross, American Heart Association, American Safety & Health Institute or the National Safety Council. They must be a currently licensed medical professional, such as RN, LVN, EMT or MD.

SIDS Training Requirements and Approved Training Organizations/ Trainers

SIDS training requirements for family child care providers took place July 1, 2004 for new applicants and January 1, 2005 for existing providers caring for children under the age of two. In order to clarify the requirements for training the following information is provided.

- Resources for Training:

All SIDS training is to be based on information available from the American Academy of Pediatrics, "Reducing the Risk of SIDS in Child Care" training curriculum. The training materials and information for presentation are available free for download at www.healthychildcare.org. All training must include, at a minimum, information on Definition and background information on SIDS, sleeping position, Supervision practices, Sleeping environment and related safety practices as per CDC Guidance.

- Approved Training Sources: Colleges and universities

- Health Departments

- Child Care Resource Centers

- Infants and Toddlers Program

- Abilities Network

- Trainers approved by OCC – Office of Credentialing
