

ERIC Location Identifiers

January 2023

A Publication of Institute of Education Sciences

The ERIC Identifiers are lists of standardized proper nouns representing locations, assessments and surveys, and laws, policies, and programs. Like Descriptors from the ERIC Thesaurus, they are assigned to ERIC records to describe the subject content of a document.

Location Identifiers include continents, countries, historical locations, regions, US states, major US and foreign cities, and US territories. Location Identifiers can be used to filter your search results or in an advanced search by using the location or locationx tags.
