

# 30<sup>th</sup> GCOS Steering Committee

*7-8 December 2022*

## Item 2.5 GCOS Joint Panel Meeting

Supported by the European Union

Increasing interest of cross-panel work in multiple areas

Earth cycles

ECVs homogenisation and rationalisation

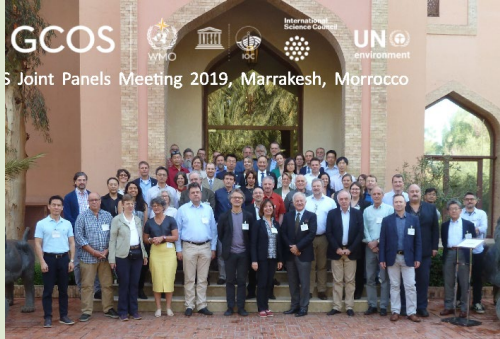

Indicators

Adaptation

Many of the Actions in GCOS IP are cross-panel in nature (A9, B9, B10, C1, D1, D2, F1, F5...)

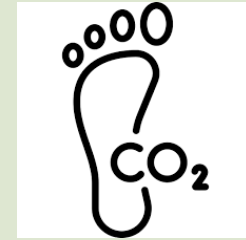

# Why in person?

The JPM in Marrakesh was a milestone. Panel members still have a memory of that meeting!

The online JPM in April 2021 did not have as much success and engagement was very difficult for those who were not in Europe

The JPM back to back with AOPC, OOPC and TOPC meeting will allow to optimise GCOS footprint

- One week at ECMWF headquarters (Bonn, Germany)

■ Sessions in Plenary

■ Cross-panel breakout groups

■ Panel meetings

26-30 June 2023

## **DRAFT DECISION (6)**

1. The Steering Committee decides to hold a Second GCOS Joint Panel Meeting in June 2023 in Bonn and approves the budget for it.
2. The Steering Committee asks the GCOS Secretariat to:
  - a. Work with ECMWF to identify the venue in Bonn and prepare the logistics;
  - b. In consultation with the GCOS Panels' chairs, organize the content and a provisional agenda for the meeting to cover the topics presented in the Concept Note (Annex A) and present it to the Steering Committee by 15 March 2023.

# Thank you
