1.1. Onset of Symptoms . . . . .	4
3.1. Structure of Nitrogen Mustard . . . . .	37
3.2. Hydrolysis of Sulfur Mustard . . . . .	37
3.3. Sulfur Mustard's Putative Tissue-Damaging Mechanisms . . . . .	39
3.4. Anatomical Distribution of World War I Mustard Injuries . . . . .	47
4.1. General Structure of Trichothecene Toxins . . . . .	73
4.2. Chemical Structures of Several Aflatoxins . . . . .	88
4.3. Activated AFB <sub>1</sub> Molecule . . . . .	89
4.4. Mechanism of Effects of Aflatoxins on Cell . . . . .	90
5.1. Chemical Structures of Nerve Agents . . . . .	108
5.2. Chemical Structure of ACh . . . . .	116
5.3. Cholinergic Action and Effects of Drugs and Toxins . . . . .	116
5.4. AChE Active Site, with ACh . . . . .	117
5.5. Reaction of Nerve Agents with AChE . . . . .	117
