## IEA-ICAP-KAS Carbon Pricing Dialogue

24 November 2021

### Aligning policies and raising ambition for reaching carbon neutrality in the Asia-Pacific

COP26 comes at a critical juncture for securing global net zero by mid-century and avoiding the worst climate impacts. The overall trend in the Asia-Pacific region points to increasing ambition with multiple jurisdictions having stepped up their national climate objectives through updated NDCs and carbon-neutrality pledges. Carbon pricing instruments play an essential role among the policies needed to expedite emissions reductions quickly and in time to stabilize global temperatures. This workshop provides a space for policymakers and experts from the Asia Pacific to share the latest updates on the role of carbon pricing in their policy mix and the steps being taken towards achieving long-term climate goals.

**This event is a public virtual workshop 9:00 am – 12:00 pm CET (4:00 pm – 7:00 pm GMT +8)**

## **Session II: Integrating Carbon Pricing in Countries' Long-term Mitigation Strategies**

Carbon pricing policies form an indispensable tool in countries' emission reduction strategies. Effective integration of carbon pricing with existing and future energy and climate policies is crucial for policymakers to consider. In this session, policymakers from the Asia-Pacific will share updates on national climate strategies and the role of carbon pricing in decarbonizing their economies.

**Moderator:** Lina Li, ICAP

### **Panelists:**

- Prof. Duan Maosheng, Professor, Tsinghua University, China
- Benedict Chia, Director (Strategic Issues), National Climate Change Secretariat in the Prime Minister's Office, Singapore
- Dr. Luong Quang Huy, Head of Division, Department of Climate Change, Ministry of Natural Resources and Environment, Vietnam
- Laksmi Dhewanthi, Director-General of Climate Change, Ministry of Environment and Forestry, Indonesia

11:45 am CET 6:45 pm GMT+8

### **Closing Remarks**

- Organizer closing (Tom Howes)
