

Guidelines for admission to the MSc in Economics and Business Administration and the MSc in Business Economics and Auditing for applicants with a professional bachelor's degree (professionsbachelor)

To be eligible for admission to the MSc programmes, applicants with a professional bachelor's degree from Business Academy Aarhus must have completed specific elective courses as part of their qualifying exam. In the following table, the requirements for elective courses are laid out.

Qualifying Examination	Required Electives
AP degree in Marketing Management in combination with a Professional Bachelor's degree in International Sales and Marketing	BSS module (15 ECTS) (Methods 5 ECTS, Finance 5 ECTS and Operations Management 5 ECTS)
Professional Bachelor's degree in Financial Management and Service with industry specialisation in : <ul style="list-style-type: none"> - Accounting ("Programme specialisation subject A – external accounts" and "Study programme subject B – strategic accounting") or - Finansielle forretninger (this industry specialisation is only offered in Danish) 	Quantitative Research Methods (10 ECTS) Financial Investment Strategies (5 ECTS) Operations Management (5 ECTS)

NOTE: For applicants who hold one of the above mentioned professional bachelor's degrees from another business academy, it will be assessed whether the electives corresponds to the electives laid out in the table.

For applicants who hold another professional bachelor's degree, the degree will be assessed according to the specific admission requirements described on the website in the section "*Students that hold a degree from another university*".
