Senate Proposal of Amendment

H. 630

An act relating to reforming Vermont's mental health system

The Senate proposes to the House to amend the bill by striking all after the enacting clause and inserting in lieu thereof the following:

Sec. 1. PURPOSE

(a) It is the intent of the general assembly to strengthen Vermont's existing mental health care system by offering a continuum of community and peer services, as well as a range of acute inpatient beds throughout the state. This system of care shall be designed to provide flexible and recovery-oriented treatment opportunities and to ensure that the mental health needs of Vermonters are served.

(b) It is also the intent of the general assembly that the agency of human services fully integrate all mental health services with all substance abuse, public health, and health care reform initiatives, consistent with the goals of parity.

Sec. 1a. 18 V.S.A. chapter 174 is added to read:

CHAPTER 174. MENTAL HEALTH SYSTEM OF CARE

§ 7251. PRINCIPLES FOR MENTAL HEALTH CARE REFORM

The general assembly adopts the following principles as a framework for reforming the mental health care system in Vermont:

Resources shall be distributed based on demographics and geography to increase the likelihood of treatment as close to the patient's home as possible. All ranges of services shall be available to individuals who need them, regardless of individuals' ability to pay.

(6) The state's mental health system shall ensure that the legal rights of individuals with mental health conditions are protected.

(7) Oversight and accountability shall be built into all aspects of the mental health system.

(8) Vermont's mental health system shall be adequately funded and financially sustainable to the same degree as other health services.

(9) Individuals with a mental health condition who are in the custody of the commissioner of mental health and who receive treatment in an acute inpatient hospital, intensive residential recovery facility, or a secure residential facility shall be afforded the same rights and protections as those individuals cared for at the former Vermont State Hospital.

- (1) The department of mental health shall enter into contracts that meet

the requirements of subdivision (2) of this subsection with a hospital in southeastern Vermont and a hospital in southwestern Vermont for the establishment of a 14-bed unit and a six-bed unit, respectively, contingent upon receipt by the hospitals of certificates of need pursuant to 18 V.S.A. chapter 221, subchapter 5. Certificate of need applications for the 14-bed unit and the six-bed unit, whether prepared jointly by a hospital and the department or solely by a hospital, shall be reviewed by the commissioner of mental health prior to a certificate of need approval to ensure the architectural and program proposals meet industry standards for quality of care and emotional and physical safety standards and otherwise protect patients' rights.

(2) Initial contract terms for the 14-bed unit and the six-bed unit shall require participation in the no refusal system for four years and until the facility has recouped its initial investment. Contracts referenced in subdivision (1) of this subsection shall apply to participating hospitals, notwithstanding their status as designated hospitals, and shall contain the following requirements:

(A) Funding shall be based on the ability to treat patients with high acuity levels;

(B) Units shall be managed as part of a statewide no refusal system;

(C) Reimbursement by the state shall cover actual costs for enhanced programming and staffing;

(D) Units shall be managed to ensure access to peer supports;

(E) Participating hospitals shall maintain a stakeholder advisory group with nonexclusionary membership to ensure high quality and appropriate levels of care;

(F) The department shall be solely responsible for responding to requests for records concerning the implementation of this contract between the department and the hospital. The hospital and its employees shall cooperate and provide reasonable assistance to the department in producing records that are within the custody of the hospital that are responsive to records requests and that are not confidential by law.

(G) The state shall retain the option to renew the contract upon expiration of the initial four-year term.

(b)(1) The department of buildings and general services, with broad involvement from the department of mental health and stakeholders, shall design a 16-bed hospital owned and operated by the state in central Vermont and proximate to an existing hospital. The department of buildings and general services shall supervise the construction of the hospital. The operations of the

hospital shall be under the jurisdiction of the commissioner of mental health.

(2) To foster coordination between the judiciary and mental health systems, the hospital owned and operated by the state shall contain:

(A) adequate capacity to accept individuals receiving a court order of hospitalization pursuant to 18 V.S.A. chapter 181; and

(B) a private room used and outfitted for the purpose of judicial proceedings.

(3) The commissioner of buildings and general services may purchase, lease for a period of up to 99 years plus any contracted for renewal options, or enter into a lease-purchase agreement for property in central Vermont for the purpose described in this subsection.

(4) The commissioner of buildings and general services shall inform the chairs and vice chairs of the senate committee on institutions and house committee on corrections and institutions prior to entering into an agreement pursuant to subdivision (3) of this subsection, upon substantial completion of a design pursuant to this section, prior to the commencement of construction, and when any other substantial step is taken in furtherance of this section.

(c)(1) The commissioner is authorized to contract for seven to 12 involuntary acute inpatient beds at Fletcher Allen Health Care until the hospital owned and operated by the state described in subsection (b) of this section is operational, to cover the increased cost of care; and

(c)(2) If a viable setting is identified by the commissioner and licensed by the department of health, the commissioner is authorized to provide acute inpatient services at a temporary location and shall discontinue services at that location when the hospital owned and operated by the state described in subsection (b) of this section is operational, but no later than September 1, 2015. At that time, the temporary facility shall no longer be used for a residential services program. The department shall pursue Medicare and Medicaid certification for any such temporary hospital. The temporary hospital shall be initially licensed for eight acute inpatient beds. Before an expansion of the number of beds at the temporary hospital may occur, the department shall confer with the host community to seek permission for such expansion.

(d) To the extent amounts of potential funding from various sources are not clear upon passage of this act, the legislative intent for funding the capital costs of this section to the extent practicable is first through insurance funds that may be available for these purposes; second through the Federal Emergency Management Agency (FEMA) funds that may be available for these purposes

and any required state match; third, in the case of the 14-bed unit and the six-bed unit, through a rate payment with clearly defined terms of services; and last with state capital or general funds. It is also the intent of the general assembly that, notwithstanding 32 V.S.A. §§ 134 and 135, any capital funds expended for projects described in this act that are reimbursed at a later date by insurance or FEMA shall be reallocated to fund capital projects in a future act relating to capital construction and state bonding.

Sec. 10. SECURE RESIDENTIAL RECOVERY PROGRAM

(a) The commissioner of mental health is authorized to establish and oversee a secure five-to-10-bed residential facility owned and operated by the state for individuals no longer requiring acute inpatient care, but who remain in need of treatment within a secure setting for an extended period of time. The program shall be the least restrictive and most integrated setting for each of the individual residents.

(b) The opening of the facility described in subsection (a) of this section is contingent upon the passage of necessary statutory amendments authorizing judicial orders for commitment to such a facility, which shall parallel or be included in 18 V.S.A. § 7620 (related to applications for continuation of involuntary treatment), and shall include the same level of statutory protections for the legal rights of the residents as provided for individuals at inpatient facilities.
