Let's Talk

For more information on how your community can Create, Share, and Discover, visit

www.biblioboard.com

Create.

Whether it is a multimedia collection or a professional-quality eBook, tools like **Creator** and **Pressbooks Public** help your library create unique local content, by and for your community.

Share.

Use **Custom Submission Pages** to invite patrons to share content for your library's community collections. Encourage your local writing community to share their eBooks with the **Indie Author Project** to gain new readership and exposure through the library.

Discover.

With geolocation authentication, your patrons can have instant, unlimited access to all of your **BiblioBoard Library** content without any holds, waits, or checkouts.

WE HAVE AN APP FOR THAT
BiblioBoard Library

The BiblioBoard Library app is available in the app store on all major tablets and mobile devices. Our app makes it easy for your community to access unlimited, simultaneous use content anytime, day or night.

Google play

Available on the App Store

amazon apps

has never been so easy.

Geolocation

- Provides **easy, instant access** to the library (same technology behind Uber + Google Maps).

- Allows you to choose the service area (city, county, state/province).

- Requires **no additional fees or IT work** to set up and is an addition to your library's regular authentication method.

- Amplifies community engagement, **drives more usage**, decreases digital fatigue for patrons and staff, and brings insightful data to your library.

- Allows authors to easily promote and share their work with all local residents.

Create.

PB *creator*
A BIBLIOBOARD SOLUTION

- With **Pressbooks Public,** patrons and staff can easily format, design, and create professional-quality print-ready and eBook files.

- The **Creator** tool empowers libraries to create multimedia collections showcasing local history, community creatives, library programming, and other unique, local content for all patrons to enjoy on BiblioBoard Library.

Share.

Discover.

- Use a **Custom Submission Page** to invite patrons to share content for your library's current (or new!) community collections.

- The **Indie Author Project** enables indie authors to share their eBooks with participating libraries locally, and potentially all across the U.S. and Canada for those titles that are identified by curation partners as **Indie Author Project (IAP) Select**.

- Local indie authors can simultaneously submit their work to the **Indie Author Project contests** that take place each spring for even more exposure and recognition.

- With all **unlimited, simultaneous-use content**, never experience a hold, checkout limit, or a lending period when reading on **BiblioBoard Library**.

- Access one-of-a-kind, indie-published eBooks through our regional indie collections.

- Instantly access BiblioBoard Library via geolocation, **no login required**.

- Discover BiblioBoard Library content through your library's catalog. Loading **MARC records** has never been easier.
