Benefits of Hosting with Lyrasis

INVESTED COMMUNITY PARTNERS - As both a hosting service provider and the organizational home for the open source software programs in this brochure, Lyrasis Hosting Services staff are knowledgeable and invested partners committed to the development and functionality of the programs and the vitality of the user communities.

AFFORDABLE PRICING - As a nonprofit organization, our pricing is tiered and discounts are available for Lyrasis member institutions and multiservice contracts.

EASY SET UP - Get started and get going with an easy set up. Theme your hosted service with your institutional branding.

EXPERT DATA MIGRATION - Do you have legacy data? No problem! Our data migrations team can expertly and efficiently migrate structured data into your hosted instance as part of your account set up.

WORRY-FREE MAINTENANCE AND SECURITY - Our hosted instances have routine automatic data back-ups and 24x7 server monitoring. Your hosted instance will be upgraded to stable new versions of the software worry-free.

RESPONSIVE SUPPORT AND TROUBLESHOOTING - Do you have a question or problem? Submit a customer support ticket to get help from our responsive technical support staff.

A ArchivesSpace Hosting Archives Collection Management

- Lyrasis is both the organizational home and registered service provider for ArchivesSpace hosting; Lyrasis staff collaborate with the Program team and regularly submit bug fixes and feature improvements to support the program
- Create standards-compliant archival description and manage the lifecycle of your archival materials, including accessioning, arrangement and description, authority control, rights and event tracking
- Import and export critical data format standards, such as EAD, EAC, MARCXML, MODS and Dublin Core
- Access to the ArchivesSpace Help Center user manual, training videos and expert staff support
- Implement plug-ins, migrate your legacy data and integrate authentication systems and other programs

C CollectionSpace Hosting Museum Collection Management

- Lyrasis is the organizational home for the CollectionSpace open-source community
- Manage cataloging, acquisitions, loans, exhibits and more
- Designed by museum professionals and collections experts
- Developed by a network of partners including Museum of the Moving Image and the University of California, Berkeley
