

Coriander Seeds

Corey Yoder of Coriander Quilts

I have always loved using a clean, crisp white background with my warm sherbet-toned fabrics as the contrast lets the colors shine. But for those times when I want something that feels a little bit special, there is Coriander Seeds.

This collection has ten white-on-white prints that coordinate with all of my fabrics. The dainty florals, meandering vines, orange peels, polka dots in two sizes and happy words, are a mix of old and new prints, all of which are now favorites. With these Seeds, you're sure to find just the right background print to compliment any fabric.
