Safer learning with Google for Education

Providing a safer digital-learning environment is an essential objective of Google for Education, so everyone can teach and learn knowing that their personal information is private and their educational tools are secure.

Secure by default

Enterprise-grade privacy and security are built into the very foundation of Google for Education.

Private by design

Prioritize privacy with tools that uphold the highest standards of digital responsibility.

You're in control

Retain full control of your school's data with easy-to-use privacy and security settings.

Trustworthy content and information

Access high-quality, reliable educational resources.

Cybersecurity is more important than ever for school communities

- Educational institutions and their data remain a **top target for cyber attacks** globally

- **96% of education institutions** lose their ability to operate after a cyberattack – sometimes for months at a time

## Google keeps more people safe online than anyone else in the world

- There have been zero reported successful ransomware attacks on Chromebooks

- Google Workspace is one of the **world's most secure** and popular cloud-based communication and collaboration suites

## Support compliance with rigorous privacy and security standards

Google for Education supports **compliance** with the most rigorous global education standards for security and privacy, and we're audited by independent, third-party organizations.

Every day is safer with Google

Google for Education

Get industry-leading education technology that provides a safer digital learning environment for every school, every classroom, and every student.

Secure by default

- **Automatic protections** built-in to help ensure devices are secure and up-to-date against the latest security threats
- **Proactive blocking** with 24/7 monitoring and AI-powered detection to prevent security issues
- **Enterprise-grade scalability** and reliability designed to handle extreme shifts in activity to ensure 99.9% uptime
- **Helpful tips and recommendations** are customized to help you stay ahead of digital threats

Private by design

- **Supports compliance** with rigorous global privacy standards, like FERPA, COPPA, and GDPR
- **No advertising** in Google Workspace for Education Core Services, and personal information is never used or sold to third parties for ad targeting
- **Transparency you can trust**, with strict security protocols to protect your school's personal information and full transparency into our privacy policies

You're in control

- **Retain full control** over your institution's data, while managing how, when, and where service data can be accessed
- **All-in-one-place** security dashboard offers real-time alerts and a place where admins can change domain-level or individual settings across devices, applications, browsers, and more
- **Analytics and insights** customized to your needs with usage reports in the security dashboard

Trustworthy content and information

- **Safer browsing and age-based content** in Google Search and YouTube limit content that might be inappropriate for students under the age of 18
- **Recommended applications** for education are curated for safety and quality, and integrate with our tools – and our build-solution partners must meet and maintain rigorous standards
- **Digital responsibility** resources and training provided at no charge to help support internet safety

Add premium capabilities to fit the specific needs of your institution

Get additional security features within your security center to proactively protect your school's data and devices. Upgrades include:

- Google Workspace for Education Plus
- Google Workspace for Education Standard

Create a secure foundation for teaching and learning with Google for Education

Rely on built-in, automated features that provide comprehensive and ongoing monitoring and mitigation, while also minimizing disruptions, across productivity tools, hardware, device management and more with:
