

### Certain qualities are in a company's DNA.

At Lockheed Martin, everything we do is rooted in innovation and integrity...in our commitment to set the highest ethical standards: and in our ability to embrace important, world-changing work that benefits our nation, our allies and people in general.

### Everything is within reach.

We believe that by applying the highest business ethics and visionary thinking everything is within our reach, and yours. Like creating systems vital to the safety and security of our nation. Like shaping the latest technological breakthroughs that redefine defense, information technology and commercial business. Like delivering countless systems and products that reflect the best ideas of people around the globe.

We invite you to explore the possibilities with one of the foremost systems engineering, software and systems integration companies. We think you will find total value with exciting challenges, career development, outstanding pay and benefits...all while making a real difference to our world.

### Many choices for your aspirations.

Those who wish to apply visionary thinking in shaping and delivering the latest technological breakthroughs, join us in one of our major business units.

### Lockheed Martin Aeronautics

Lockheed Martin Aeronautics' core competencies are in the design, development, systems integration, production and sustainment of advanced military aircraft and related technologies.

Current aircraft programs include the F-35 Lightning II, F-16 Fighting Falcon, F-22 Raptor, F-117 Stealth Fighter, C-130J Hercules, C-5 strategic airlifter, P-3 Orion, S-3 Viking and U-2. The company is a major participant in the Japan F-2 program, and Korea T-50 Golden Eagle trainer through strategic international business programs. An Advanced Development Programs (ADP) group, also known as the Skunk Works®, has principal responsibility for R&D, new products, and definition of upgrades to existing products.

Lockheed Martin Aeronautics offers its customers a package of total life cycle support fully integrated with its production programs that ensures enhanced military readiness for customers worldwide.

Specifically, Lockheed Martin Aeronautics provides aircraft maintenance, upgrades and modifications;

engine maintenance repair and overhaul; sustaining engineering services; supply chain management; logistics information systems; support and training systems; field support operations; and product support integration for its products as well as other non-Lockheed Martin products

### Lines of Business:

 Combat Aircraft Air Mobility Special Mission and Reconnaissance Aircraft Advanced Development Programs • Sustainment Operations and Services

### Lockheed Martin Space Systems

Space Systems helps customers worldwide utilize the advantages of space to achieve breakthroughs in military satellite communications, global positioning, science, remote sensing, and space transportation. Space Systems is engaged in the design, development, engineering, and production of satellites, strategic and defensive missile systems, and launch services.

In 2006, NASA chose Lockheed Martin as its industry partner to build the Orion crew exploration vehicle. Orion, an advanced crew capsule design utilizing state-of-the-art technology, is a key element of NASA's Vision for Space Exploration. Orion will

replace the Space Shuttle in transporting a new generation of human explorers to and from the International Space Station, the Moon, and eventually to Mars.

Also in 2006, Lockheed Martin partnered with The Boeing Company to form United Launch Alliance. This joint venture will yield savings to the American taxpayer as it combines Lockheed Martin's Atlas with Boeing's Delta vehicles to conduct launches for the U.S. government.

The U.S. Navy's Trident II D5 Fleet Ballistic Missile reached a record of 117 consecutive successful test launches between 1989 and 2006 - an achievement unmatched by any other large ballistic missile or space launch vehicle.

### Lines of Business:

 Launch Services Satellites

Strategic and Defensive Missile Systems

### Lockheed Martin Electronic Systems

Lockheed Martin Electronic Systems is engaged in the design, development, integration and production of high-performance systems that ensure the mission readiness of armed forces and government agencies worldwide. Products and services include advanced sensors, decision systems and weapons

Voted First Choice Employer of undergraduate engineering students in 2007.

- Universum Undergraduate Survey, 2007

# everything is possible.

for air, land, and sea-based platforms. Electronic Systems is a leader in air and missile defense. homeland security solutions, radar, simulation and training, as well as distribution technologies. Electronic Systems also conducts overall program management and integration of platforms including ships, rotary-wing and fixed-wing aircraft, and tactical wheeled vehicles.

The Department of Energy relies on Electronic Systems for management and operations of the Sandia National Laboratories. In addition, Lockheed Martin Electronic Systems manages the Atomic Weapons Establishment in the United Kingdom.

### Lines of Business:

- Missiles and Fire Control
- · Maritime Systems and Sensors
- Platform Integration
- Training and Simulation
- Energy Programs

### Lockheed Martin Information Systems & Global Services

As a leading federal services and Information Technology contractor, Lockheed Martin Information Systems & Global Services delivers world-class solutions and advanced technology globally across a broad spectrum of domains.

Information Systems & Global Services is an evolution of the Corporation's horizontal integration strategy - connecting cultures, capabilities, people and processes. It is designed to enhance flexibility and agility in providing comprehensive solutions to customers' operational and business challenges.

Lockheed Martin Information Systems & Global Services is organized into three reporting units:

Mission Solutions is characterized by deep customer domain expertise across three primary customer sets - Intelligence, Defense and Civil agencies; significant R&D and engineering competencies: and solutions oriented towards producing an operational effect or business outcome.

Information Systems offers deep functional expertise in business systems; IT infrastructure and process outsourcing; a strong dependency on commercial technology; and solutions structured to deliver contractually specified levels of service.

In Global Services, individual customer relationships are paramount in supporting mission services, nation building and stability operations, and in providing facility services. In this arena, the key competencies are the people we provide to support the mission and our agility in responding to dynamic staffing requirements.

LOCKHEED MARTIN

### Nurturing potential. Developing talent.

We firmly believe that what you achieve is as important as how you achieve it. But the key is to be ready to achieve...to acquire the skills and training that will serve you well as your career grows and evolves. Among our many development initiatives is our Leadership Development Program.

### Leadership Development Program (LDP)

· For entry-level employees Available in the areas of Communications, Engineering, Finance, Human Resources, Information Systems and Operations Provides a pipeline for future positions in business and technical leadership • The opportunity to gain experience through 2-3 years of rotational assignments. technical training, leadership development, networking and mentoring • Includes attending our annual Leadership Development Conferences

## inclusion is one of our defining strengths

Non-Technical

### Previewing what is possible: Co-Op and Internship opportunities.

What makes a Lockheed Martin career so exceptional? Perhaps a preview of your career here may help to provide an answer. As an intern or co-op, you will contribute to some of the world's most challenging projects, working sideby-side with some of the most knowledgeable and experienced experts in their fields. You'll enjoy the satisfaction of embracing real-world challenges while you gain valuable job

experience. Our interns and co-ops are given meaningful, hands-on work assignments involving projects related to their majors and to the needs of the company.

· Positions are available for freshman through senior classifications Opportunities exist for engineering and

business majors at various locations from coast to coast

· Many positions do require the ability to obtain a security clearance

Entry-Level Professionals.

Great places to live and work.

our work helps make the nation safer

### **Being civic minded** and community involved.

Just as our technologies and solutions transcend traditional frontiers, so does our spirit of humanitarian involvement. You will find Lockheed Martin professionals contributing to their communities in many ways: supporting educational programs for kids from kindergarten through college; giving their time, energy and money to various charitable causes; being involved with the Red Cross and the United Way; building houses through Habitat for Humanity; finding new ways to lend a helping hand.

LOCKHEED MARTIN

### **Diversity:** What we believe...what we live.

At Lockheed Martin, we recognize that diversity is not a short-term trend. It is a business imperative. It's about creating an environment that welcomes, respects and develops our individual differences as a competitive strength. It begins with our core values of Do What's Right... Respect Others... Perform With Excellence. It extends to every activity that involves attracting and retaining a talented workforce that reflects the diversity of our customers, suppliers and our world. That's the difference between stating our commitment to diversity — and living it.

### Let's get started on your exciting Lockheed Martin future.

When you move boldly with strong principles pointing the way...when you act with integrity...when you drive innovation with a clear sense of purpose and forthrightness there is no limit to what a company, a team or an individual can achieve. At Lockheed Martin, this is the way we approach our business, our work, our growth — and of course, your future.
