

our work helps
make the
nation safer

Lockheed Martin Electronic Systems

Your involvement may include maritime systems and sensors, missiles and fire control programs/platforms, or training and transportation solutions. Within these areas, we have established ourselves as the leader in integrating large systems-of-systems to provide the best solutions including:

- Naval radar, electronics, and surveillance systems
- Land, sea, and theater missile defense systems
- Air traffic systems
- Homeland Security solutions
- Tactical missiles, precision-guided weapons, and launch systems
- DoD and commercial software

Lockheed Martin Information Systems & Global Services

Deliver world-class solutions and technology globally across a broad spectrum of domains. Choose among key services and reporting units:

Mission Solutions: Consider domain expertise for Intelligence, Defense, and Civil agencies as well as significant R&D and engineering competencies

Information Systems: Embrace deep functional expertise in business systems, IT infrastructure and process outsourcing, commercial technologies, and premier contract solutions

Global Services: Cultivate customer relationships in supporting mission services, nation building and stability operations, and in providing facility services.

An Equal Opportunity Employer

inclusion is one of our defining strengths

Certain qualities are in a company's DNA.

At Lockheed Martin, we are driven by innovation and integrity. We believe that by applying the highest business ethics and visionary thinking — everything is within our reach, and yours. Like creating systems vital to the safety and security of our nation. Like shaping the latest technological breakthroughs that redefine defense, information technology, and commercial business. Like delivering countless systems and products that reflect the best ideas of people around the globe.

We invite you to explore the possibilities with one of the foremost systems engineering, software and systems integration companies in the world.

A Total Value package.

There is much to be said about the Lockheed Martin Total Value package. It is specifically designed to help you realize your professional and personal best...to achieve all that you can imagine. Part of the package involves nurturing your growth through a commitment to develop top talent from within, and through access to a wide range of training programs and services. There is also the opportunity to work in exceptional environments marked by:

Project Significance — including systems and technologies of national and international importance • Quality people — there is a certain amount of pride that comes with being a member of the Lockheed Martin team; our employees are respected inside and outside the company • Recognition — cash awards and other special recognition • Learning and Development • Internal Career Mobility • Competitive Pay • Excellent Benefits.

Diversity and inclusion:

What we believe...what we live.

You will find that we are both a uniquely diverse and unified team; reflecting many cultures, points of view, ethnic backgrounds, styles, geographies, and experiences.

We actively foster an environment that welcomes, respects, and develops our individual differences as a competitive strength. It begins with our core values of Ethics, Excellence, "Can-Do" Attitude, Integrity, People, and Teamwork. It extends to every activity that involves attracting and retaining a talented workforce that reflects the diversity of our customers, our suppliers, and our world. That's the difference between stating our commitment to diversity and inclusion — and living it.

A commitment to your work/life balance and to the communities we serve.

Part of the Lockheed Martin experience includes a focus on work/life balance, with policies and programs for employees and their families. Some of these programs include: Flexible/Alternative Work Schedules and Casual Dress at many locations • Telecommuting • Tuition Reimbursement • Employee Assistance Program • Fitness Centers • Birth/Adoption Leave • Domestic Partner Benefits • and Adoption Assistance.

Great places to live and work.

In addition, we feel a calling to be a company that is civic minded. Lockheed Martin professionals contribute to their communities in many ways: supporting educational programs for kids from kindergarten through college; giving their time, energy, and money to various charitable causes; being involved with the Red Cross and the United Way; building houses through Habitat for Humanity; and finding new ways to lend a helping hand.

Many choices for your aspirations.

If you wish to apply visionary thinking in shaping and delivering the latest technological breakthroughs, join us in one of our major business units.

Lockheed Martin Aeronautics Company

Excel with today's most brilliant minds in the design, building, and support of the world's most sophisticated military aircraft. The challenges here redefine what is possible in advanced aircraft design, production, modification, support, stealth technology, and systems integration. Your involvement may include: The F-35 Joint Strike Fighter (JSF) • The F-16 • The C-130J • The F-117 • The F/A-22 • Classified contracts for various special mission aircraft • and other key challenges.

Lockheed Martin Space Systems

The challenges here encompass a broad portfolio of innovations and technologies that are laying the foundation for future space systems. Programs include:

- The most advanced telecommunications satellites for government, civil, and commercial interests
- Commercial remote sensing technologies
- Classified systems for Intelligence and national programs
- Airborne and missile defense technologies
- Submarine-launched ballistic missiles
- Complex information systems supporting critical Intelligence missions
- Spacecraft for planetary exploration
