He then joined the military, and afterwards returned to his hometown with his three sons. In a community where violence was on the rise and kids were dropping out of school, Bernard set out on a mission to change those statistics and redirect the minds of the children in his hometown with "Pack House 2000," a program dedicated to helping exercise the minds and expanding the dreams of these youngsters by forming reading groups and organizing field trips to libraries, museums and cultural events throughout the city despite Bernard having few resources. As Bernard leads these efforts to help children realize their full potential, the McFarland home has deteriorated to an unsafe dwelling where the three boys share one room. There are holes throughout the ceiling, walls and floors, water damage in the sub-flooring and rusting pipes, plumbing, corroded wiring and crumbling drywall.
