# Working closely with Government

- Leighton has organised numerous site visits for government ministers and personnel to show the progress of our projects in Mongolia.
- Local demonstrations of world class operations - introducing new technologies and new thinking in respect of safety, training, environmental management, community engagement and productivity.
- Leighton has been instrumental in improving traffic management at UHG and has worked closely with government on regulatory change to facilitate a safer workplace.
- Active engagement (Leighton also sit on the board) with the Minerals Industry Safety Association of Mongolia to promote industry best safety practice across the Mongolian mining industry.

# Supporting local communities in Mongolia

- Participation in the establishment of a new orphanage at Gachuurt, 20km east of Ulaanbaatar.
- Provision of training to people from Soums and other towns surrounding projects to fulfill a variety of roles on site.
- Facilitating street lighting to the local Soum.
- Setup of micro businesses in local Soums to provide community training including support services and products for the mines.
- Employment of 680 local people in our Mongolian Projects and area office in Ulaanbaatar.

# Looking ahead

- To bring Mongolia's resources to market quickly, efficiently and safely.
- To provide training and employment opportunities to the people of Mongolia.
- Operate a sustainable mining infrastructure business.
- Be the mining partner of choice.
- Implement and share world's best practices.
- Work with Mongolia's "national champions" in the public and private sector.
- Welcome the opportunity to work constructively to help develop the resources and infrastructure markets in Mongolia.
- To build a long-term partnership with the people of Mongolia.
