

Stop Cycle of Drought

Construct Check Dams '03-'06

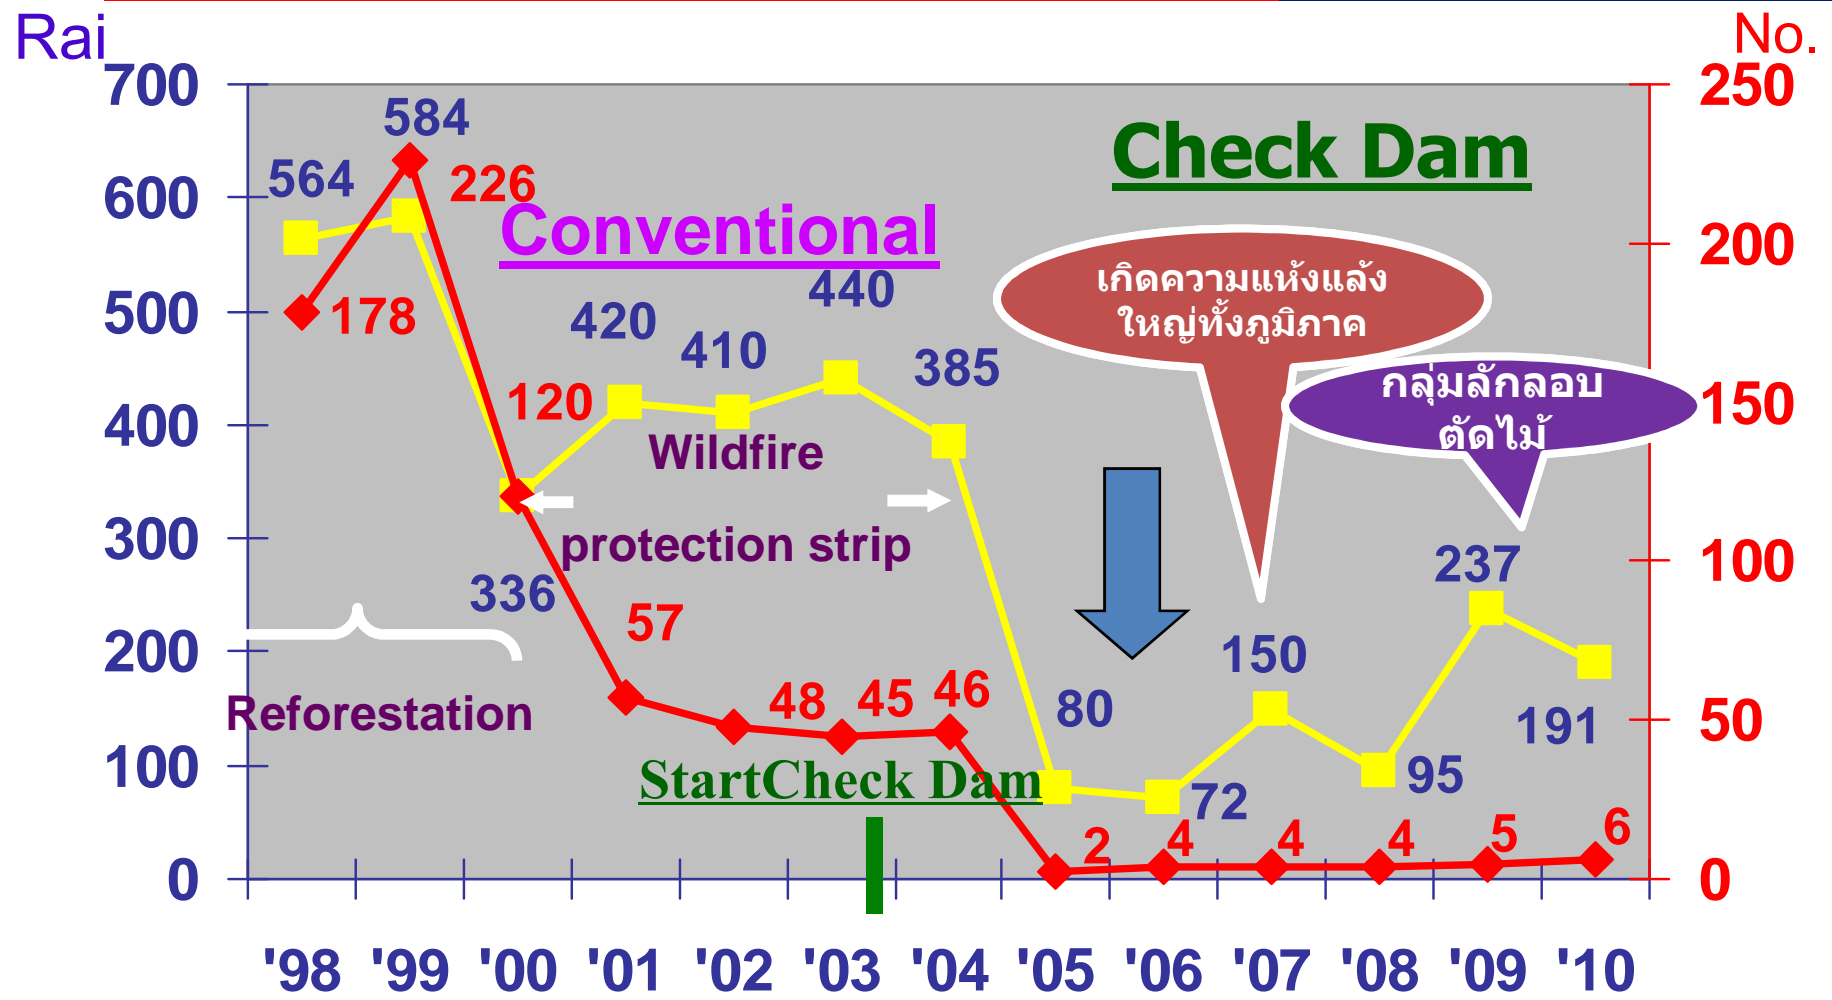

Objective of Check Dam at Upstream of Water Way

- ❑ Trap the sediment
- ❑ Slow down the water flow
- ❑ Hold up water for considerable time
- ❑ Provide the trees more time to take water
- ❑ Increase moisture level in forest

Many Check Dams → Wet Fire Break

Incidences of Wildfire 1998-2010

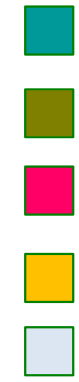

No. of Check Dams 2003-2011

ข้อมูลเฉพาะในส่วนของปูนลำปาง ณ เดือน มีนาคม 2554

Total = 24,832 Units

- SLP's Quarry = 1,450 Units**
- Mae Sai Kham = 966 Units**
- Chaehom = 3,634 Units**
- Mae Ta = 15,434 Units**
- CM.&Others = 3,348 Units**
