

WISCONSIN PROFESSIONAL POLICE ASSOCIATION 2016 LEGISLATIVE REPORT CARD AND ELECTION ENDORSEMENTS

INTRODUCTION:

With over 10,000 members from almost 300 local association affiliates, the WPPA is Wisconsin's largest law enforcement group. Our mission is to protect and promote public safety, as well as the interests of the dedicated men and women that serve to provide it. As such, the WPPA closely monitors legislative proposals that might impact the officers serving our communities and works to inform state lawmakers of their public policy implications. In fact, year after year, the WPPA lobbies more than any other law enforcement-related organization, and it has played a pivotal role in advancing new laws to enhance policing and to otherwise make Wisconsin safer for both the public and the officers that patrol our neighborhoods.

Since 2006, the WPPA has published a legislative report card summarizing the actions taken on the bills for which the organization took a position either for or against. The most cumulative of its kind in Wisconsin, the WPPA report card records and tabulates activity throughout each stage of the legislative process by awarding and deducting points to individual lawmakers for the bills they introduce, and for their votes in committees and on the floor of either the State Senate or Assembly as well. State legislators in each house are then ranked after those aggregate scores are calculated, and the lawmakers ranked in the top tier in each house are named to the WPPA's **"Law Enforcement Honor Roll."** The highest ranking lawmakers are given the distinct recognition of being named **"WPPA Legislator of the Year."**

The pages that follow provide a detailed summary of the report card results for the 2015-16 legislative session, as well as information about the organization's endorsements for the upcoming November 8 general election. The WPPA is governed by a Board of Directors consisting of 28 officers from around Wisconsin that are elected by the membership. The Board has gone to great pains to analyze each state and federal electoral contest, along with the applicable candidate questionnaires and legislative report card rankings, in order to make informed endorsements of the candidates that will best preserve and strengthen law enforcement's ability to keep our communities safe and maintain the quality of life that Wisconsinites expect and have every right to deserve.

The WPPA has established a proud tradition of political independence, and our legislative report card results and election endorsements have reflected as much time and time again. In that regard, this year is no different. The Law Enforcement Honor Roll recognizes 19 Republican lawmakers and 24 Democratic lawmakers. Similarly, the WPPA Board elected to endorse three Republican and two Democrats for congress, three Republicans and six Democrats for the State Senate, and 20 Republicans and 37 Democrats for the State Assembly. We believe this kind of relative balance is made possible through the even-handed and methodical approach that we employ, which is explained in greater detail herein.

What began as a fraternal group in 1932 has evolved into a full-service organization that aims to serve as the voice of Wisconsin's law enforcement community. Our governmental affairs efforts are critically-important to achieving that end and protecting those that keep our great state safe.

The WPPA's Legislative Priorities

As the state's largest law enforcement group, the Wisconsin Professional Police Association (WPPA) actively represents its membership before the State Legislature. We advocate on a wide variety of law enforcement and labor-related issues during each two-year legislative session,

and since 2005, we have used a cumulative methodology to closely evaluate legislative activity. At the beginning of each legislative session, the WPPA sends every legislative office an explanation of our governmental affairs platform and report card methodology.

At the 2004 WPPA Annual Convention, the Board of Directors consisting of elected law enforcement officers from all across the state formally adopted a governmental affairs platform declaring the legislative principles and policies of interest to the officers within our ranks.

WPPA Governmental Affairs Platform

WPPA Governmental Affairs Platform

1. Protect state funding programs that impact public safety services, and promote reforms of state funding formulas in a manner that prioritizes these services.
2. Promote legislation to provide collective bargaining rights for all public employees, and to protect against legislation which could diminish those bargaining rights.
3. Support legislation improving the collective bargaining dispute settlement procedures for members of the law enforcement community.
4. Support legislation allowing for the arbitration of discipline for municipal law enforcement officers.
5. Support legislation improving and protecting the pension and retirement benefits of protective services employees.
6. Promote legislation likely to have a beneficial impact on the law enforcement community and protect against legislation likely to have a detrimental impact on the law enforcement community.
7. Promote political activity by WPPA members through methods such as: encouraging locals to establish local political action committees; advising locals on the operation of their political action committees; providing political action committees with a current uniform candidate questionnaire, and organizing meetings with WPPA locals and their legislators.

This platform is used to help develop an annual report card of legislators' votes on bills of importance to the law enforcement community. This report card is published in the *Wisconsin Police Journal*, which each and every WPPA member receives. This report card closely monitors legislative activity, and aids our affiliated state and local political action committees in their consideration of political endorsements.

The WPPA Legislative Report Card:

How we score state lawmakers

It is the responsibility of the WPPA's registered lobbyist to identify items of legislation that impact Wisconsin's law enforcement community generally, and the WPPA's membership specifically. Preliminary positions on those bills are made by the WPPA lobbyist, and those positions are then considered for ratification by the WPPA Legislative Committee and Board of Directors. In recognition that not all bills are created equal, each legislative measure

(companion bills are counted together) is weighted by the Legislative Committee. In order to prevent any bill from unfairly influencing the cumulative results, a weighting scale of 1 to 5 is utilized, as determined by the Legislative Committee. All positions ratified by the board are included on the legislative report card, and are scored in the following manner:

Scoring Each Measure

	Points
Co-sponsoring legislation which we support	3
Co-sponsoring legislation which we oppose	-3
Committee votes for legislation which we support	1
Committee votes against legislation which we support	-1
Committee votes for legislation we oppose	-1
Committee votes against legislation we oppose	1
Floor votes for legislation which we support	2

Legislators will be eligible for an automatic WPPA PAC endorsement for their reelection to their elected office following a legislative session in which they garner a cumulative score in the top one-third of all of the legislators in their *respective* chambers. Legislators ranked at this level will be eligible to be named to the **“WPPA Law Enforcement Honor Roll”** for that particular legislative session. The legislators with the highest overall scores in their respective chambers will be eligible to be named a **“WPPA Legislator of the Year.”**

In addition to providing cumulative score rankings for each chamber of the legislature, the WPPA Report Card also includes rankings for cosponsorship and floor votes. Legislators may be recognized for their legislative activity in these secondary areas as well, if determined appropriate by the WPPA's Legislative Committee and/or Board of Directors.

Due to the extent to which the WPPA's scoring methodology tracks legislative activity, it is important to recognize that our measures provide lawmakers on committees that are more likely to consider law enforcement or labor-related issues with greater opportunities to be awarded or deducted points. Given the fact that the Senate Majority Leader, Senate Minority Leader, Assembly Speaker, and Assembly Minority Leader traditionally serve on fewer committees and sponsor fewer legislative measures, those positions are not included on the Report Card. Lastly, in situations in which a bill passes out of one chamber on a voice vote or it simply passed without objection in concurrence, all lawmakers in that legislative chamber receive credit for supporting or opposing the measure, depending upon the organization's position on that specific measure.

Candidate Survey Questions

Following the statewide primary elections on August, 9, the WPPA sent each and every candidate on the general election ballots a brief questionnaire. The following questions were posed, and the candidates were informed that their responses were due by September 14.

- 1. Shared Revenue:** Through the shared revenue program, the state distributes financial aid to local units of government, which then use the aid to fund services like police and fire. This aid has decreased over the last decade, limiting the ability of local government to maintain these core services. Given the fact that a statewide poll conducted earlier this year by the St. Norbert College Strategic Research Institute revealed that police officers have a public approval rating of 90% and that public safety should be the government's top priority, would you vote to increase this aid? Why or why not?
- 2. Protective Status for Jailers:** Under current law, most public employees that work in dangerous environments are statutorily classified as "protective occupation participants." This status allows them to retire earlier than general employees and provides them with disability benefits in the event they are injured in the line of duty. Law enforcement officers, fire fighters, state correctional officers, motor vehicle inspectors, excise tax investigators and conservations wardens all enjoy this status, while county correctional officers or jailers do not. Would you sponsor legislation to classify county jailers as protective occupation participants? Why or why not?
- 3. Health Insurance for Survivors:** Currently, the law requires the government to maintain health insurance for the spouses and dependents of fire fighters killed in the line of duty. Would you support similar legislation to provide the same for spouses and dependents of law enforcement officers killed in the line of duty? Please use 2015 Senate Bill 192 as a reference.
- 4. Addressing officer shortage:** In recent years, the number of violent offenses committed in Wisconsin has increased, as has the number of officers assaulted and injured in the line of duty. Meanwhile, there has also been a decrease in the number of officers employed across the state. What would you do to address these issues?
- 5. Collective Bargaining for LEOs:** According to a 2016 report by the St. Norbert College Strategic Research Institute, 75% of Wisconsin citizens favor allowing law enforcement officers to negotiate contracts with employers over their wages and benefits. Do you support or oppose collective bargaining rights for law enforcement officers?
