

**FOOD & WATER WATCH • 2017**

# Maryland Legislative Report Card

*Food & Water Watch is proud to release our first annual Maryland Legislative Report card. Our organization champions healthy food and clean water for all. We stand up to corporations that put profits before people, and advocate for a democracy that improves people's lives and protects our environment.*

*In keeping with our mission, this Report Card — and our Report Cards for future sessions of the General Assembly — will grade Senators and Delegates on their votes on proposed bills that further our vision of a more just and equitable Maryland.*

*Our purpose is to help you learn how your legislators support or oppose that vision. While each session report card will offer a snapshot of their performance in that year, over the years the cumulative scores will give a deeper impression of where each legislator stands.*

## How We Grade Legislators

Each legislator is assigned a letter grade for their votes on the bills we have chosen to grade for this session. During the session, legislators' offices received lists of bills we were considering scoring as well as the position Food & Water Watch took on the bill — support or oppose. Legislators earn points for voting in line with our position. In addition to the grade for these votes, legislators can earn “extra credit” for sponsoring bills for which Food & Water Watch actively ran campaigns.

For the 2017 session, letter grades are given as follows:

- 6/6 – A
- 5/6 – B
- 4/6 – C
- 3/6 – D
- 1/6 or 2/6 – F

Extra credit can earn a legislator a “+” on their grade, and we have given extra credit to legislators who sponsored the bills we led campaigns on this year.

## 2017 Maryland State Legislation

### 2017 HOUSE

#### **HB 1325 – Oil and Natural Gas – Hydraulic Fracturing – Prohibition (Fraser-Hidalgo/Robinson/Barve)**

The bill placed a permanent ban on hydraulic fracturing in Maryland. Senator Bobby Zirkin introduced a fracking ban bill in the Senate, but it never received a vote. The House bill passed both chambers and was signed into law.

**Food & Water Watch position: SUPPORT.**

#### **HB 1 – Maryland Healthy Working Families Act (Clippinger)**

This bill requires employers with 15 or more employees to provide employees with earned sick and safe leave. It also requires employers with 14 or fewer employees to provide unpaid earned sick and safe leave. The bill passed both chambers. Governor Hogan vetoed the bill.

**Food & Water Watch position: SUPPORT.**

#### **HB 270 – Environment – Testing for Lead in Drinking Water – Public and Nonpublic Schools (Lafferty)**

This bill requires the Department of the Environment to adopt regulations to require periodic testing for the presence of lead in drinking water in public or nonpublic school buildings. The bill passed both chambers and was signed into law.

**Food & Water Watch position: SUPPORT.**

PHOTO CC-BY © AUSTIN KIRK / FLICKR.COM

#### **HB 631 – Public Health – Essential Off-Patent or Generic Drugs – Price Gouging – Prohibition (Attorney General)**

This bill prohibits a manufacturer or wholesale distributor from engaging in price gouging in the sale of an essential off-patent or generic drug. The bill authorizes the Attorney General to investigate price increases to determine if they constitute price gouging. The bill passed both chambers and became law without the governor's signature.

**Food & Water Watch position: SUPPORT.**

#### **HB 271/SB 484 – Maryland Transit Administration – Farebox Recovery Rate – Repeal (Lierman/Madaleno)**

This bill repeals the requirement that the Maryland Transit Administration must recover at least 35% of its operating costs from fares derived from its bus, light rail and metro subway in the Baltimore region. The Farebox Recovery Rate limited expansion and improvement of Baltimore regional public transit. The bill passed both chambers and became law.

**Food & Water Watch position: SUPPORT.**

#### **HB 453 – Tax Sales – Water Liens – Moratorium (M. Washington)**

This bill prohibits a tax sale of a home or other property solely to enforce liens for unpaid water, sewer and sanitary system services for one year. The bill passed the House; it did not receive a vote in the Senate.

**Food & Water Watch position: SUPPORT.**

### 2017 SENATE

#### **SB 423 – Elective Franchise – Registration and Voting at Polling Place (Pinsky)**

This bill amends the Maryland Constitution to allow the General Assembly to provide same day registration for voting in elections. The bill passed the Senate; it was amended in the House, but the Senate refused to adopt the House amendments.

**Food & Water Watch position: SUPPORT.**

## 2017 Food & Water Watch Campaign Legislation

While Food & Water Watch worked on a lot of bills in legislative session, our organization prioritized these four bills because we believed they could bring major improvements to people's lives. The last three columns of the scorecard indicate which legislators supported these bills. SB 773, the Community Healthy Air Act, did not receive a vote.

### HB 1325/SB 740 – Fracking Ban

As one of the founders of Don't Frack Maryland, Food & Water Watch played a leading role in the campaign to ban fracking. HB 1325 passed both chambers with bipartisan support and was signed by the governor, making Maryland the first state with gas reserves to statutorily ban fracking — and the third state overall to do so.

### HB 228/SB 546 – Water Service Shutoff Disclosure and Protection

Food & Water Watch worked with local advocates to champion legislation that would have set uniform standards for notification of water service shutoffs. The legislation also would have established protection from water service shutoffs for vulnerable populations, including senior citizens, small children and people suffering from certain illnesses. The Senate bill was never brought for a vote in the Education, Health, and Environmental Affairs Committee. The House bill was voted down in the Environment and Transportation Committee.

### HB 918 – Water Affordability Program

This legislation would require water service providers across Maryland to establish water affordability programs that would place an annual cap on the charges the provider

may assess for the water services offered to a low-income customer. Food & Water Watch worked with local advocates campaigning for affordable water service. The bill was voted down in the Environment and Transportation Committee.

### SB 773 – Community Healthy Air Act

Food & Water Watch worked closely with residents on the Eastern Shore to require the Maryland Department of the Environment to conduct air monitoring for air emissions — primarily ammonia — from large Concentrated Animal Feeding Operations (CAFOs). Although the bill had the support of a majority of Education, Health, and Environmental Affairs Committee members, it never received a vote.

## The Maryland Campaign to Ban Fracking

The campaign to ban fracking took over five years and was a major victory for Food & Water Watch and our allies. It shows what a committed grassroots movement can do to influence the politics of the day. For years powerful leaders suggested passing stronger regulations instead or extending a moratorium for one more year, but in 2017 we were able to get a ban.

The Don't Frack Maryland campaign had multiple press conferences, a huge rally and even a civil disobedience event in the Capitol to show power.
