## LETTER FROM THE CHAIRMAN

Dear Fellow Conservative,

The American Conservative Union Foundation is proud to present our ratings of the 2018 meeting of the Alabama Legislature. Like our *Ratings of Congress*, which date back 47 years, our state ratings are meant to reflect how elected officials view the role of government in an individual's life. We begin with our philosophy i.e., conservatism is the political philosophy that sovereignty resides in the person, and then apply our understanding of government (its essential role is to defend Life, Liberty and Property).

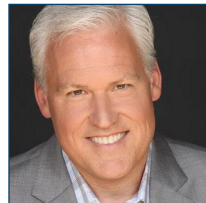

Because our ratings are designed to educate the public about how consistently elected officials adhere to conservatism, we carefully examine the entire docket of legislation introduced in each state every year. We select the most meaningful bills and publish the results after the dust has settled. ACUF state ratings—launched in 2011 with ratings for five states—have become a nationally recognized resource for evaluating over 8,000 elected officials comprising each of America's 99 state legislative chambers.

Each election cycle, citizens choose leaders whose vision for the state most closely matches their own, hoping that candidates' promises will be kept. ACUF's ratings measure whether those promises were fulfilled or forsaken. With nearly a decade of data on state legislators' voting records and average scores for every legislative chamber, citizens in every state can assess how effectively their lawmakers have applied conservative philosophy to the role of government.

We at ACUF believe, as Ronald Reagan once said, that freedom is never more than one generation away from extinction. We hope that by providing this unique tool, these ratings will empower Americans to exercise their right to protect our unique American democracy from tyranny.

Sincerely,

Matt Schlapp  
Chairman  
American Conservative Union Foundation

## SELECTING THE VOTES

ACU researched and selected a range of bills before the Alabama Legislature that determine a member's adherence to conservative principles. We selected bills that focus on Ronald Reagan's philosophy of the "three-legged stool": **1) fiscal and economic:** taxes, budgets, regulation, spending, healthcare, and property; **2) social and cultural:** 2nd amendment, religion, life, welfare, and education; and **3) government integrity:** voting, individual liberty, privacy, and transparency. This wide range of issues are designed to give citizens an accurate assessment that conveys which of Alabama's elected leaders best defend the principles of a free society: Life, Liberty and Property.

## ALABAMA SENATE STATISTICS

### ALABAMA SENATE CONSERVATIVE RATINGS

 RED = REPUBLICANS       BLUE = DEMOCRATS

## ALABAMA SENATE VOTE DESCRIPTIONS

- 1. SB 85 Permitting the Use of Taxpayer Funds for Public Transit.** This bill allows the state, for the first time in decades, to interfere in the private transportation sector by using taxpayer funds for mass public transportation initiatives, such as light rail and bus lines. The bill is designed to bypass the state's constitutional protection against gas tax revenue being used for purposes other than roads and bridges. It also creates a new bureaucracy, the Alabama Public Transportation Trust Fund. ACU opposes the legislature's attempt to bypass the will of the people, as established by the state's constitution, and believes that public transit should be paid for primarily through user fees and opposed this bill. The Senate passed the bill on January 25, 2018 by a vote of 26-0.
- 2. SB 92 Reducing the Maximum Duration of Unemployment Insurance Benefits.** This bill reduces the maximum amount of time an individual can receive unemployment benefits, cutting the maximum duration from 26 weeks to 14 weeks (and as long as 20 weeks depending on the state's unemployment rate). ACU supports reasonable reforms to the unemployment insurance system which encourage individuals to more quickly reenter the workforce and reduce business costs and supported this bill. The Senate passed the bill on January 25, 2018 by a vote of 21-8.
- 3. SB 156 Leveling the Playing Field for Gold and Silver Currencies by Exempting Precious Metals from Taxation.** This bill exempts gold and silver bullion (coins or bars with high precious metal content) from the state's sales tax for five years. The exemption only applies to bullion that is intended for use as currency. ACU supports the free use of precious metals as currency and believes that the Federal Reserve should not have a monopoly on our money and supported this bill. The Senate passed the bill on February 8, 2018 by a vote of 26-0.
- 4. SB 87 Permitting Property Owners to Recover Legal Expenses for Land Taken through Eminent Domain.** This bill permits property owners to recover reasonable attorney, appraisal and engineering fees from the Department of Transportation (DOT) if their land was taken through eminent domain and a court awards them compensation that is 20 percent or higher than what was provided by the DOT. ACU Foundation's Center for 21st Century Property Rights is a leading voice on this issue and works to ensure just compensation for all property owners. ACU believes that eminent domain should be reserved strictly for public purposes and supports this effort to ensure land owners are properly compensated and supported this bill. The Senate passed the bill on March 1, 2018 by a vote of 27-0.
- 5. SB 140 Reducing Fraud and Increasing Integrity within Medicaid.** The Orr (ACUF Lifetime 67%) amendment to a bill reforming the state's Medicaid system ensures that work requirements are established for work-ready adults receiving Medicaid. ACU supports efforts that ensure welfare benefits go to those who truly need it and supports reasonable work requirements to reduce intergenerational poverty and supported this amendment. The Senate adopted the amendment on March 6, 2018 by a vote of 22-4.
- 6. SB 160 Expunging the Criminal Records of Youth Offenders.** This bill allows individuals to petition to have their juvenile criminal records expunged as long as the offense was not a DUI or a sexual or violent offense. ACU's Center for Criminal Justice Reform is a leading authority on this issue and works to pursue policies that cut crime, reduce the size and scope of government, and responsibly reduce incarceration rates. ACU supports efforts to reduce recidivism, including strengthening employment opportunities by allowing workers to clear their record of nonviolent crimes as juveniles and supported this bill. The Senate passed the bill on March 15, 2018 by a vote of 28-1.
- 7. SB 297 Exempting Homemade Coffee from Costly Regulations.** This bill adds home-roasted coffee to the list of food items (including homemade jams, jellies and baked goods) that an individual can produce out of their residential home without having to abide by commercial food regulations. ACU supports easing costly regulatory burdens and expanding homemade food sales and supported this bill. The Senate passed the bill on March 15, 2018 by a vote of 21-0.

- 
8. **SB 149 Establishing a Taxpayer-Funded Grant Program for Broadband.** This bill establishes the Alabama Broadband Accessibility Act, which provides taxpayer-funded grants to companies that extend broadband service to rural areas of the state. ACU believes the market is the best mechanism to determine the need for broadband and does not believe that taxpayers in one area should be forced to subsidize the services of those who choose to live in another area and opposed this bill. The Senate passed the bill on March 21, 2018 by a vote of 26-0.
- 
9. **SB 213 Increasing Transparency of Civil Asset Forfeiture.** This bill provides increased transparency of law enforcement's use of civil asset forfeiture by requiring a commission to collect and analyze data covering the practice. Specifically, the bill requires that for each forfeiture, the following must be recorded: the date, location, type and amount of property seized, the seizing agency and the underlying criminal offense leading to the seizure. ACU Foundation's Center for Criminal Justice Reform is a leading voice on this issue and works to prevent property from being wrongfully seized. ACU supports reforming the asset forfeiture system and believes that only a criminal conviction should cause property to be seized and supported this bill as a step in the right direction. The Senate passed the bill on March 21, 2018 by a vote of 25-1.
- 
10. **SB 76 Providing Slight Tax Relief to Low- and Middle-Income Earners.** This bill provides roughly \$4 million in net tax cuts to low- and middle-income earners by raising the adjusted gross income level eligible for the state's maximum standard deduction. For example, married joint filers earning \$23,000 (previously \$20,000) are eligible for the state's full \$7,500 standard deduction. ACU supports reducing rates for all taxpayers but supported this bill as a step in the right direction. The Senate passed the bill on January 25, 2018 by a vote of 28-0.
- 
11. **SB 393 Requiring a Referendum to Raise Taxes.** This bill requires Tuscaloosa County to hold two public hearings and a referendum before raising their sales and use tax. ACU believes tax hikes should only be implemented as a very last resort and that individual voters should ultimately decide the most important policies and supported this bill. The Senate passed the bill on March 22, 2018 by a vote of 26-0.
- 
12. **HB 34 Expanding "Stand Your Ground" Self-Defense Laws to Churches.** This bill expands the state's self-defense laws (commonly referred to as "Stand Your Ground") to establish legal protection for self-defense in churches. Under the bill, authorized members of a church may legally use deadly force against a person who is unlawfully intruding and attempting to commit a crime involving death or serious injury. ACU supports strengthening the right of self-defense and supported this bill. The Senate passed the bill on March 22, 2018 by a vote of 27-0.
- 
13. **HB 388 Providing Occupational Licensing Reciprocity to Military Spouses.** This bill amends the occupational licensing reciprocity law to make it easier for spouses of active military personnel to obtain employment. Specifically, the bill allows military spouses to perform professional services for at least six months while they complete any additional Alabama licensing certifications that were not required by the state that originally issued the license. ACU opposes many of the state's occupational licensing requirements which are primarily designed to restrict competition and supported this bill. The Senate passed the bill on March 22, 2018 by a vote of 27-0.
- 
14. **HB 322 Extending and Raising the Hospital Tax.** This bill extends until the year 2019 a tax imposed on the "net patient revenue" of all private hospitals and raises the levy from 5.5 percent to 5.75 percent. This bill is part of the state's attempt to game the federal Medicaid program by increasing state contributions under the system (through higher taxes) to get increased matching funds from the federal government. Increasing per capita Medicaid spending has a negative impact on the economy and family prosperity, which is illustrated by the ACU Foundation's Family Prosperity Index. ACU believes it is reckless to award federal tax dollars to states that levy higher state taxes and opposes increased Medicaid spending at all levels of government and this tax which raises health care costs and opposed this bill. The Senate passed the bill on March 28, 2018 by a vote of 27-0.
- 
15. **HB 317 Increasing Cronyism through Loosening Lobby Requirements and Issuing Bonds.** This bill reduces transparency and weakens the state's ethics law by exempting "economic development professionals" from lobbying registration requirements. Furthermore, the bill authorizes the issuance of \$100 million in bonds for purposes of promoting economic development, including hand-outs for select companies to cover their capital costs. ACU opposes efforts which reduce transparency and this specific effort to encourage dishonest lobby practices while scheming markets in favor of the very businesses that hire those newly-exempted lobbyists and opposed this bill. The Senate defeated the bill on March 28, 2018 by a vote of 15-14 (18 votes were required).
