Please verify the capability for each Repair Station with the attached list.
We kindly ask you to contact the Airbus Repair Team for any questions
regarding component repair capabilities in advance.

- 1** The capability list of our Airbus shops and Airbus approved partners is available online (access at anytime).
- 2** Shipment of the unserviceable part to the address specified by Airbus, stating the repair purpose on the shipping documents.
- 3** Pre-alert to Airbus: A pre-alert shall be send to repair.proprietary@airbus.com with the shipping information in order to be aware of the incoming good.
- 4** The inspection process is launched after receipt of the customer's part at the repair shop. Airbus provides a quotation, the lead-time for the repair as well as the inspection report after the inspection is finished.
- 5** The customer is asked to advise the decision to the quotation.
- 6** After receipt of the customer's acceptance of the quotation the Repair Management team launches the repair process at the repair shop
- 7** The repair process ends with the handover of the unit to the customer's nominated forwarder at the location of the repair station.
