HELICOPTERS

# H125M

## Armed Scout Helicopter

As part of the Ecureuil family, the H125M<sup>®</sup> – Fennec - is Airbus Helicopters' 2-ton class answer to armed forces' requirements. Easy to fly and maintain everywhere, even in the most extreme & harsh conditions, this Armed Scout helicopter combines optimal safety and performance.

With a small footprint, low detectability and equipped with our Weapon System, the Fennec is highly effective in all military operations. With its strong beams and thanks to our Weapon System, crews are able to rapidly mount or dismount any kind of weapon.

### MAIN MILITARY MISSION

- Armed Scout
- Light utility
- Training

### HIGH ADAPTABILITY

- Suited for high altitudes and hot climates
- High maneuverability
- Stable firing platform
- Night firing capability
- Remarkable training tool

### AXIAL ARMAMENT

- 12.7 mm Gun Pod
- 20 mm Cannon Pod
- 70 mm Rockets
- Air-to-Ground guided missiles

### SIDE WEAPONRY

- 7.62 mm side machine gun
- Mounted Sniper rifle

### WEIGHT

Maximum takeoff weight	4,960 lb	2,250 kg
MTOW in external load configuration	6,172 lb	2,800 kg
MTOW with jettisonable external weapons	5,401 lb	2,450 kg

### CAPABILITES

1 pilot + 5 soldiers		
Swing load	3,086 lb	1,400 kg

### ENGINE

1 TURBOMECA ARRIEL 2 D turboshaft		
Takeoff power	847 shp	632 kW

### PERFORMANCE AT MAX. GROSS WEIGHT, ISA, SL

Maximum speed (Vne)	155 kts	287 km/h
Fast cruise speed	140 kts	258 km/h
Hover ceiling IGE	13,200 ft	4,023 m
Hover ceiling OGE	11,100 ft	3,383 m
Maximum range with standard tanks, without reserve at fast cruise speed	351 NM	650 km
Endurance without reserve at 100 km/h (54 kts)	4 h 28
