

# Thomson Reuters Marketplace

## CHOOSE FROM TRUSTED SOLUTIONS ANYTIME AND ANYWHERE

Discover the online store where you can easily find and purchase trusted and proven solutions that can help you increase ROI, expand the value of your existing investments, and improve customer service. The Thomson Reuters Marketplace lets you view, demo, trial, and purchase from a wide range of tested solutions backed by the most trusted name in the industry, all at your convenience and available 24 hours a day/7 days a week. Your business can benefit from greater interoperability, using solutions backed by ongoing investment, innovation, and expertise.

### WHAT IS THE MARKETPLACE?

The Thomson Reuters Marketplace is an online store offering applications, integrations, and services that add value to your tech investments, improve capabilities, drive profitability, and help you achieve a competitive edge.

### MARKETPLACE KEY BENEFITS

- Get more value out of your large software investments with solutions that extend functionality and usability
- Solve business challenges with proven applications, solutions, and services
- Meet client expectations with the latest technological advances that leverage increased interoperability and capabilities
- Research at your convenience and leverage peer feedback as you evaluate solution purchases

### WHAT'S AVAILABLE ON THE MARKETPLACE?

- Curated third-party solutions from both Thomson Reuters partners and industry leaders, including applications, integrations, and services
- Complementary/value-add solutions offered by Thomson Reuters
- Thomson Reuters products will continue to be available through [thomsonreuters.com](https://www.thomsonreuters.com)

**The Marketplace is launching in February 2021 at [marketplace.thomsonreuters.com](https://marketplace.thomsonreuters.com).**
