Transmittal No. 23-47

Canada – P-8A Aircraft

WASHINGTON, June 27, 2023 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Canada of P-8A Aircraft and related equipment for an estimated cost of \$5.9 billion. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Canada has requested to buy up to sixteen (16) P-8A Patrol Aircraft; up to twenty-six (26) Multifunctional Information Distribution System Joint Tactical Radio System 5 (MIDS JTRS 5); up to thirty-eight (38) Embedded Global Positioning Systems (GPS)/Inertial Navigation Systems (EGIs) for the LN-251; up to twenty-five (25) System Processor Replacements for AN/AAQ-24(V)N Large Aircraft Infrared Countermeasures (LAIRCM) System Processor Replacement (LSPR) with Exelis Embedded GPS Receiver (EGR) integrated with SAASM; and up to twenty-two (22) Guardian Laser Transmitter Assemblies (GLTA) for the AN/AAQ-24(V)N. Also included are commercial engines; Tactical Open Mission Software (TOMS); Electro-Optical (EO) and Infrared (IR) MX-20HD; AN/AAQ-2 Acoustic System; AN/APY-10 Radar; AN/ALQ-240 Electronic Support Measures; NexGen Missile Warning Sensors; AN/ARC-210 RT-2036(C) Radios; AN/PRC-117G Manpack Radios including MPE-S type II with SAASM 3.7; AN/ALQ-213 Electronic Countermeasures; AN/ALE-47 Countermeasures Dispenser Systems; AN/UPX-43 Identification Friend or Foe (IFF) Interrogators; AN/APX-123A(V) IFF Digital Transponders; KIV-78 IFF Mode 4/5 Cryptographic Appliques; KIV-701A Cryptographic Core Modules; KY-100M, KY-58, KYV-5 for HF-121C radios; KG-175 Encryptor Network Convergence System; AN/PYQ-10 V3 Simple Key Loaders (SKL) with KOV-21 Cryptographic Appliques; Radiant Mercury Hardware and Software with ENTR(V)4 Receiver with Embedded Crypto for the Integrated Broadcast System (IBS); software; publications; Dual KIV-7M with Power Supply HFIP Channel Link Encryptor; Advanced Digital Antenna Production (ADAP) Antenna Electronics (AE); Advanced Digital Antenna Production (ADAP) Controlled Reception Pattern Antennas (CRPA); Control Interface Units (CIU) for AN/AAQ-24(V)N LAIRCM; aircraft spares; spare engines; support equipment; operational support systems; training; training devices; maintenance trainer/classrooms; engineering technical assistance (ETA); logistics technical assistance (LTA); Country Liaison Officer (CLO) support; Contractor Engineering Technical Services (CETS); Contractor Logistics Support (CLS); repair and return; transportation; aircraft ferry; other associated training and support; and other related elements of logistics and program support. The estimated total cost is \$5.9 billion.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the military capability of Canada, a NATO ally that is an important force for ensuring political stability and economic progress, and a contributor to military, peacekeeping, and humanitarian operations around the world.

This proposed sale will increase Canadian maritime forces' interoperability with the United States and other allied forces, as well as their ability to contribute to missions of mutual interest. This will significantly improve network-centric warfare capability for the U.S. forces operating globally alongside Canada. Canada will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Boeing Company, Seattle, WA. There are a significant number of other companies under contract with the U.S. Navy that will provide components, systems, and engineering services during the execution of this effort. While the purchaser typically requests offsets, any offset agreement will be defined in future negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will require multiple trips by U.S. Government representatives and the assignment of contractor representatives to Canada on an intermittent basis over the life of the case to support delivery and integration of items and to provide supply support management, inventory control and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
