Transmittal No. 23-36

Spain – Excalibur Projectiles

WASHINGTON, June 14, 2023 - The State Department has made a determination approving a possible Foreign Military Sale to the Government of Spain of M982A1 Excalibur tactical projectiles and related equipment for an estimated cost of \$48.2 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Spain has requested to buy an additional one hundred fifty-three (153) M982A1 Excalibur tactical projectiles that will be added to a previously implemented case whose value was under the congressional notification threshold. The original FMS case, valued at \$21.87 million, included one hundred eighteen (118) M982A1 Excalibur tactical projectiles. This notification is for a combined total of two hundred seventy-one (271) M982A1 Excalibur tactical projectiles. Also included is a portable electronic Fire Control System (FCS); Improved Platform Integration Kit; Propelling Charge Modular Artillery Charge System; Simple Key Loaders (SKL); crypto cable; training aids; technical data; U.S. Government technical assistance; transportation; Excalibur spare parts; artillery cleaning sections; new equipment training; repair and return support equipment; support related to collateral damage estimation tables; and other related elements of logistics and program support. The total estimated cost is \$48.2 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a NATO ally which is an important force for political stability and economic progress in Europe.

The proposed sale will improve Spain's capability to meet current and future threats and will enhance interoperability with U.S. forces and other allied forces. The enhanced capability will also strengthen its homeland defense. Spain will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company Missile Systems, McAlester, OK. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to Spain.

There will be no adverse impact on U.S. defense readiness because of this proposed sale.

This notice of a potential sale is required by law. The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, pm-cpa@state.gov.
