Harmonizing financial accounting, budgeting and macroeconomic statistics: towards a common GAAP-based framework?

Workshop on public sector accounting "Better Accounts, Better Budgets, Better Spending?"

Thomas Müller-Marqués Berger EY Global Leader for International Public Sector Accounting Luxembourg, 25-26 January 2016

Agenda

- The role and evolution of IPSASB
- The process of international harmonization of accounting standards on an accruals basis: the role of the IPSASB and implementation of IPSAS within EU countries
- ► IPSAS, IFRS and GFS: influences and interrelationships
- Changing governance structures of IPSAS

Better Accounts

- Conceptual framework
- Key future challenges

Page 2

The role of the IPSASB in international harmonization of accrual accounting standards

- ► IPSASB is an <u>independent</u> board within IFAC
- ► IPSASB's Forward Strategy from 2015:
 - Strengthening public financial management and knowledge globally through increasing adoption of accrual-based IPSAS by:
 - Developing high-quality public financial reporting standards;
 - Developing other publications for the public sector; and
 - Raising awareness of the IPSAS and the benefits of their adoption.
- IPSAS standards are not mandatory, but there is peer pressure created by developing best practice standards on the basis of a global due process

The evolution of IPSASs

Phase 1 (1997-2002)

► Through financial support of international institutions development of a first set of accounting standards ("Core Set": IPSAS 1 – IPSAS 20)

Phase 2 (2003-2010)

Where relevant for the public sector, convergence with IAS/IFRS as of 31.12.2008 was achieved

▶ Issuance of first standards to specific issues of the public sector (IPSAS 21 – IPSAS 24)

Phase 3 (2010-2014)

Development of a Conceptual Framework for the public sector

Focus on specific issues of the public sector as well as further development of existing standards (IFRSs convergence)

Phase 4 (since 2015/16)

New governance model in place (PIC and CAG)

 Conceptual Framework as basis for developing standards and guidance to specific issues of the public sector

Implementation of IPSAS within EU Countries (1)

Table 4 - Accounting maturity by country and government sector

	Central	State	Local	Social Fund
Austria	73%	12%	12%	61%
Belgium	67%	67%	73%	60%
Bulgaria	56%	-	56%	63%
Croatia	34%	-	34%	55%
Cyprus	14%	-	75%	17%
Czech Republic	75%	-	75%	77%
Denmark	72%	-	65%	58%
Estonia	92%	-	92%	86%
Finland	72%	-	90%	92%
France	89%	-	84%	92%
Germany	22%	29%	58%	42%
Greece	12%	-	12%	12%
Hungary	66%	-	66%	55%
Ireland	54%	-	71%	57%
Italy	31%	-	30%	14%

IPSAS, IFRS and GFS: influences and interrelationships

- IPSASs are largely based on the principles of IFRS
- In principle IPSASB follows a "transaction neutral approach"
 - Rationale: ensures greater comparability between private and public sector reporting when accounting for similar types of transactions
- IPSASB uses IAS/IFRS as a starting basis and follows the "rules of the road"-approach
- But: significant gaps in IASB's literature from a public sector point of view, e.g.
 - Impairment of non-cash generating assets
 - Accounting for non-exchange transactions
 - Presentation of budget information
- "Alignment" with Government Finance Statistics (GFS) gained more and more of importance in recent years => "GFS rules of the road".

Changing governance structures of IPSAS

Conceptual framework

IPSASs and RPGs

- 1.Role and Authority of the CF
- 2. Objectives and Users of GPFR
- 3.QCs
- 4. Reporting Entity

- 5. Elements in Financial Statements
- 6. Recognition in Financial
 Statements
- 7.Measurement of Assets and Liabilities in Financial Statements
- 8.Presentation in GPFRs

Public Sector Conceptual Framework

"Deals with concepts that apply to general purpose financial reporting under the **accrual basis of accounting**"

Key future challenges

- Technical challenges
 - Recognition and measurement of social benefits
 - Public sector combinations
 - Accounting for revenues/non-exchange expenses
- Governance challenges
 - Balanced representation of stakeholders
 - Set-up operational processes for providing technical advice to the **IPSASB**
- Implementation and other challenges
 - Consistent application of IPSASs
 - Relationship between international and supra-national standardsetting (e.g. EPSAS)

EY | Assurance | Tax | Transactions | Advisory

About the global EY organization

The global EY organization is a leader in assurance, tax, transaction and advisory services. We leverage our experience, knowledge and services to help build trust and confidence in the capital markets and in economies the world over. We are ideally equipped for this task — with well trained employees, strong teams, excellent services and outstanding client relations. Our global purpose is to drive progress and make a difference by building a better working world — for our people, for our clients and for our communities.

The global EY organization refers to all member firms of Ernst & Young Global Limited (EYG). Each EYG member firm is a separate legal entity and has no liability for another such entity's acts or omissions. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. For more information, please visit www.ey.com.

In Germany, EY has 22 locations. In this presentation, "EY" and "we" refer to all German member firms of Ernst & Young Global Limited.
