Public expenditure on housing

[#] Revised estimate

Explanatory Notes

1. Data source : Census and Statistics Department
Figures on **population, domestic households** and **average household size** are compiled based on the results of the General Household Survey and the mid-year population estimates of the Census and Statistics Department (C&SD). The General Household Survey covers the land-based non-institutional population of Hong Kong. Land-based non-institutional population includes Hong Kong Resident Population (i.e. usual residents, home-based and non home-based mobile residents) but excludes inmates of institutions and persons living on board vessels.
2. **Public permanent housing** covers the following :
 - (a) **Rental housing** which includes :
 - (i) PRH flats and IH flats of the HA; and
 - (ii) Rental flats and SEN flats of the HS.
 - (b) **Subsidised sale flats** which includes :
 - (i) Flats under the TPS of the HA;
 - (ii) Flats under the HOS, PSPS, MIHS, BRO and MSS of the HA;
 - (iii) Flats under the GSH of the HA;
 - (iv) Flats under the FFSS, SCHS and SSFP of the HS; and
 - (v) Flats under the subsidised sale flat scheme of the URA.

HOS/PSPS/MIHS/BRO/MSS/GSH/TPS/FFSS/SCHS/SSFP flats that can be traded in the Open Market (i.e. flats sold prior to HOS Phase 3B or flats with premium paid) are classified as private permanent housing and are excluded from subsidised sale flats.
3. **Private permanent housing** covers the following :
 - (a) Private housing blocks;
 - (b) Flats built under the UIS of the HS;
 - (c) Villas/bungalows/modern village houses;
 - (d) Simple stone structures/traditional village houses; and
 - (e) HOS/PSPS/MIHS/BRO/MSS/GSH/TPS/FFSS/SCHS/SSFP flats that can be traded in the Open Market.
4. **Temporary housing** includes such temporary structures as roof-top structures, huts and places not intended for residential purposes (e.g. staircases, corridors).
5. Figures on **stock of flats in public permanent housing** are based on the administrative records of the HA and the HS. They cover rental flats and subsidised sale flats of the HA and the HS, but do not include the subsidised sale flats provided by the URA. Please refer to Note 2 for details.
6. Figures on **stock of flats in private permanent housing** are based on the frame of quarters maintained by the C&SD. Please refer to Note 3 for details.
7. **HA HOS flats** include flats under the HOS, PSPS, MIHS, BRO and MSS of the HA. Figures on **stock of HA HOS flats by flat size** include flats that can be traded in the Open Market (i.e. flats sold prior to HOS Phase 3B or flats with premium paid).
8. Figures on **production of subsidised sale flats** do not include the subsidised sale flats provided by the URA in 2015/16 and 2020/21.
9. Figures on **production of private permanent housing (excluding village houses)** are based on data maintained by the Rating and Valuation Department.
10. Figures on **production of HA PRH flats** include PRH flats and flats of projects transferred from the HOS to PRH. IH flats and flats under projects built as rental housing but subsequently transferred to the BRO/MSS housing are not included.
11. Figures are based on the Housing Construction Programme as at June 2022 prepared by the Housing Department.

12. **Other categories** include “clearance rehousing”, “estate clearance and major repairs”, “compassionate rehousing”, “transfers”, “emergency rehousing” and “junior civil servants and pensioners”.
13. **Waiting time** basically refers to the time taken between registration for PRH and first flat offer, excluding any frozen period during the application period (e.g. the applicant has not yet fulfilled the residence requirement, the applicant has requested to put his/her application on hold pending arrival of family members for family reunion, the applicant is imprisoned). The **average waiting time for general applicants** refers to the average of the waiting time of those general applicants who were housed to PRH in the past 12 months.
14. **Average living space per person** is calculated by taking the average of the living space per person of all PRH households. The living space per person of each PRH household is defined as the ratio of the internal floor area of the PRH flat occupied by the PRH household and the number of authorized persons in that household.
15. Data source : Rating and Valuation Department
Rent of private permanent housing refers to market rent of fresh lettings of private residential flats.
16. Data source : Rating and Valuation Department
Price of private permanent housing refers to the transactions which took place during the reference periods and have been scrutinized by the Rating and Valuation Department for stamp duty purposes.
17. Data source : Financial Services and the Treasury Bureau
Public expenditure on housing comprises government expenditure (expenditure charged to the General Revenue Account and financed by the Government’s statutory funds) and expenditure by the HA.
18. Figures may not add up to the total due to rounding.
